London and was taken with the great a mass of material and then, the book idea of writing an intimate life of her written, the biographer sent it to Sandringham, where the Queen was Though much is published about the staying. Both the King and Queen saying and doings of the Prince of read it carefully and they were so Wales and his brothers and sister, few pleased with the way it was done that

a spark from an electric motor, destroyed the piano and gramophone factory of the Colonial Piano Company, Limited, at Ste. Therese, about 19 miles north of Montreal. The flames also destroyed a large water tank of the Canadian Pacific Railway, and burned down some sheds.

The damage was estimated by Ovila Hogue, secretary-treasurer of the Colonial firm, at \$175,000, partly covered by insurance.

The victims were injured when they were trapped by the flames following an explosion in the top floor of the building. The men jumped from windows or held on to the sill, with the flames licking their hands and faces until ladders could be raised IN THUNDER BAY to rescue them.

Legal Adoptions.

During the past year there were 663 legal adoptions of children, according to the report of Mr. J. J. Kelso, the Provincial Officer under the Act. It is also interesting to note that of over three thousand adoptions since the Act was passed in 1921 only twenty-eight children had to be returned—and some of these were owing to the death of the adopting parent.
