## THE RADIO DETECTIVE

BY ARTHUR B. REEVE.

CHAPTER XXV Slowly the wind cleared the smoke away, the water quieted down and the scho of the explosion ceased to reverberate through the hills about Recks of us, and thoughtfully plecing together the sudden succession of events that had greeted our home-

That other thing, aback of them, is gone altogether!" I exclaimed. And the motor boat's awash and we were away."

It was true. Not a sign of the boys suspects, in his mind.

motorboat when the great crash came.

They had come up and had struck out for the nearest floating thing, which was in it. They could not get us by was the motorboat. Although it was blowing it up—not at that time."

"I could make a shrewd guess," cut in Easton. "But why destroy this place? We were not in it. Nobody was in it. They could not get us by blowing it up—not at that time."

Hank begged, but I was inexorable. From is gathered at the shirt has future could be taken care of forming a panel, and the skirt has later. Now, the question was for us groups of plaits in front, while the blowing it up—not at that time." had been completely wiped out by the terrific force of the wireless bimb, set off by an apparatus tuned to a certain combination of wave engths by which a current was released through a sparking coil and the fuse lighted.

lustily started to pull out to the toys might be!"

sprawied on the flost drying out. to looking over the messages.

I was keeping a sharp eye on Hame. "I should say it was important," "see you later" to Genn and Vira, too busy with themselves to care much

gent'eman in action and meant to be sage the clerk had mentioned. "It about these young crooks, now, who careful to see that he did not pull any comes from a little cruiser on the had caused them so much trouble, Rae Sound, named the 'Sea Vamp.' Listen and Jack knew they were through. to this. It's supposed to be from Dick, There was only one thing for them to broadcasting. 'Will be back the first do and that was to make a safe get-

chance I can get to swim ashore."

Ken was quite excited. "I believe Craig and the rest of us returned or the sent it! I've been expecting Dick they would be landed in the other cells. to do it. That's what fooled me before. But this sounds right. Dick's
a good swimmer. Only, I hope he
as far out on the end of the Island as doesn't try it in the middle of the they could and there, by means of the Sound!" Kennedy was re-reading the mes- Gang, they had signa ed the "Scoter"

sage. "No harbors here only low to put in and pick them up where they can't along the Sound." He must be abandoned their car. Once aboard pretty far east of us then, where the the "Scocter" they had figured they sand cliffs become lower-almost, I'd would be safe. say, to the end of the Island."

"Yes; getting farther and farther ever, that Rae and Jack Curtis were away," commented Easton. "We ought as safe with the mysterious skipper to be doing something, or they'll sap of the "Scooter" as a paraffin cat chased by an asbestes dog in Hades. He swore when he found that it was a paraffin cat chased by an asbestes dog in Hades. e usive as Rum Row. Now, what are they whom he had ben signalled to pick out on the tip of the east end of we going to do?" Ken and I were looking over the the Island. He might have been far

speed boats in the harbor. But Craig out into the sea if it had not been for never had any such simple idea of this delay. His sole purpose in life at catching up with the "Scooter." that moment was to make a safe get Why, he smiled, "to catch Dick? away. He feared Craig Kennedy. And Your radiop ans of course!" "Why-yes-of course!"

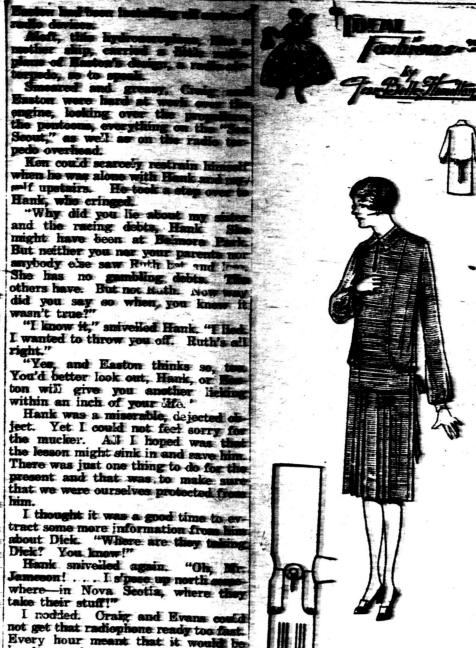

As if moved by the same thought, hesitate to tell them so. It was a bitwe all rose. I took Hank's arm. I ter pill for those smart young crimwas not going to suffer that young inals to swallow, to realize that they man to get away this time. they were slated for the scrap heap.

Laddie was overjoyed at seeing us. He had no idea what a valuable service he had rendered. But a word from Ken was enough as he leaned over and patted his head. "Good dog,

As the others were making ready, I took the matter into my own hands, stepped to the telephone and called our friend the constable in the town. have a bit of business for you, constable.

By this time Easton had orened a trap corr in the floor and started down a lacter below. Craig followed him. It was down there in what once had been the main part of the former Evans entate boathouse that Easton had housed his hydrozeroplane on which he had been working. He al-ways referred to it now as his radioplane, and had given it the very appropriate name of the "Sea Scout." This rame had ben painted on the tab which formed the floating boat part for patterngers, between the two wing

Ken and I remained upsteirs to guard Hank while Craig and Easton below began working coats off, and in oversia, to tune up the "Sea Scout" on which, up "Kennedy's advice,

1443

Kennedy smiled. He saw through it instantly. "No. But they must know of and fear your radioplane, Easton—the 'Sea Scout.' It happens to be the only thing that will catch them!"

Kennedy smiled. He saw through down below.
