COAST TO COAST

Kentville, N.S.—Apple growers and shippers in the Annapolis Valley are uniting in an effort to improve the status of the apple industry. To this end they have formed an organization known as The Associate Committee on Apple Growing and Marketing, which is to be a section of the Advisory Development council acting in conjunction with the Provincial Dept. of Natural Resources and Development. The new group is to begin at once a study of how to improve the keeping qualities of apples in warehouse or storage and so forth.

Saint John, N.B.—Tourists are coming to New Brunswick in increasing numbers. At the end of September there was a record of 16,170 autos having come into the province from the United States, mostly via St. Stephen. This number represents an increase of 3,512 over the same period of last year.

Quebec, Que.-Large lumber properties in the Manicouagan River are to be developed jointly by the Anglo-Canadian Pulp and Paper Mil's, Ltd. and the Ontario Paper Co., according to an announcement made by F. W. Clark, president of the former company. By the terms of the agreement a new company is being formed called the Quebec Logging Corporation, for which a provincial charter is now being sought. The new town to arise on the site, of the industry, along the Hanicouagan River, will be named "Taschereau," in honor of the Premier of Quebec. The Ontario Lumber Co. is to erect a pulp mill that will utilize power from the Outarde Falls Plant.

Toronto, Ont.-The Ontario Government is spending \$1,000,000 during the present fiscal year to make hydroelectric power available to the farmers of the province. This follows the plan begun by the Drury Government, of paying one-half cost of primary line construction, and later extended by the Ferguson Government to secondary line work as well.

Winnipeg, Man .- In an effort to increase the numbers of ducks and muskrats in the northern area of the province by providing additional sustenance, the Provincial Dept. of Agrivast duck marsh known as Moose Lake and Cedar Lake. This vast marsh, 20 miles wide by 90 miles long, is the might have been adopted as the slogan purchases. They will buy less. 1926 CROP RETURNS TO EQUAL LAST YEAR Threshing in Alberta Nears Finish With Yield Equal to Most Sanguine Expecta-

Calgary.—Provided present ideal weather continues, threshing will be nearly completed south of this city by the end of the week. The bulk of the threshing north of here should be finished by the same time, although a complete clean-up there is not expected for three weeks. Threshing returns, both south and north of Calgary, show the yield per acre at least equal to the most sanguine expectations that were entertained even before August rains

The grade will be low, but it looks nce more like a total of 120,000,000 bushels of wheat for Alberta, and an aggregate of 375,000,000 for all three Prairie Provinces.

Barring belated and unforeseen calamity, the Western farmers will receive as much money for their wheat as they did in 1925, and 1925 was a prosperous year in the West.

French "Cabby" Punches German in Memory of War Days.

Paris .- "You were the chief of the German prison camp back of St. Quentin during the war?" asked Jean Seveillier, a French chauffeur, when his fare descended in front of the Monte Carlo Casino.

"I was the commandant," replied the portly German who had journeyed from Nice to try his luck at roulette. "Well, then, take that!" shouted the Frenchman, landing a punch on the other's nose, knocking him into the

At the police station Seveillier told the officials that he was willing to go to jail for a year if necessary, since he had kept his vow to repay some of the cruelties he said he had endured during his days as a prisoner of war. The German officer refused to make Will Unite Royal Houses a complaint, and Seveillier was released after the desk officer advised him to read the speech of friendship delivered by Foreign Minister Briand at Geneva upon the occasion of Ger-

many's entrance into the League. "I prefer Poincare's speech at Bar-Stockholm on Nov. 4, for which the le-Duc," said Seveillier, referring to Mr. Bruce is 42 years old and is the bridegroom and the King and Queen the Premier's statement that Geryoungest Premier of the British Com- of the Belgians will come to Sweden. many's war guilt could not be for-
