Consider these TWO points for just one moment

First: Are not your barn, your stored crops and young stock worth every reasonable protection from lightning and fire that you can give them; both from the standpoint of your present profit and the future prospects of your growing family?

Second: Do you not think it a wise investment to buy Corrugated Iron sheeting that will last a lifetime, improve the appearance of your property, and completely protect from fire and lightning? Then buy **NEW HEAVY WEIGHT COUNCIL STANDARD CORRUGATED IRON ROOFING** the highest quality and best value in covering for farm buildings.

A REAL WESTERN STUNT IN OLD HALDIMAND

In the month of August last year Messrs. W. R. and Geo. H. Thompson of Seneca Township, cut and stooked a nice crop of oats, which on account of the continued wet weather they were unable to get drawn off the fields or threshed. Last week, April 20th, they moved the machine to the field and threshed 726 bushels of very nice oats.

Canadian Forestry Week — again the attention of Canadians is directed to the economic value of the timber resources of their County.
