**NOTICE**  
Veterans' Lists, 1927, Municipality of Jarvis, County of Haldimand

Notice is hereby given that I have compiled with Section 9 of the Veterans' Lists Act and that I have posted up at my office at Jarvis on the 23rd day of July, 1927, the list of all persons entitled to vote in the said Municipality at municipal elections and that such list remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law. The last day for appeal being the 13th day of August, 1927.

Dated this 23rd day of July, 1927.  
IVAN W. HOLMES,  
Clerk.

**COUNTY COUNCIL**

(Continued from Page 5)  
The Superintendent reports that he is having much difficulty in securing sufficient labor to cut the weeds on the County Highway System. If each farmer would cut the weeds in front of his own farm, at a fair remuneration, the weed problem would be solved.  
The greater part of the metal roads have been gone carefully over and ruts and small depressions filled with 3/4-inch tone, screenings and pea gravel.  
Respectfully submitted,  
S. J. Scott, Chairman.

**ROAD AND BRIDGE COMMITTEE**  
To the Warden and Members of the County Council:  
Gentlemen—We, your Road and Bridge Committee, have met and beg to report as follows:  
The chairman and the Department engineer made an inspection of the Middaugh bridge and we are asking for tenders to repair the same.  
We recommend the payment of the following accounts:  
Theo. Keely, gravelling Middaugh bridge ..... \$8.80  
A. Bailef, repair, Nelson B. .... 8.25  
George Sloat, gravelling Nelson and VanLoo bridge ..... 8.00  
All of which is respectfully submitted,  
James Lockie, Chairman.

**REPORT OF FINANCE COMMITTEE**

**Lightning gives stern lessons to Ontario farmers**

OVER and over again, in fact, many hundreds of times each year lightning has proved to Ontario farmers the folly of neglecting to cover their barns with metal roofing and siding. Why delay and why take chances with a wood shingle roof when Corrugated Iron roofing gives protection to your valuable crops against fire by lightning and sparks, and represents a lifelong investment?

Be sure to get the NEW HEAVY WEIGHT COUNCIL STANDARD CORRUGATED IRON with heavy coating of spelter. Don't accept unreliable substitutes.

**"The Royal York"—Empire's Largest Hotel**

Architects' drawing of the New Hotel

The first architects' drawings released by the Canadian Pacific Railway Company in connection with the construction of their proposed new hotel at Toronto, reveal a structure which through a series of varying roof levels, will rise to a height of 29 stories above the street level. Containing over 1000 rooms it will be the largest and finest hotel building in the British Empire, taking its place in the front rank with the world's best. "The Royal York", as the new hotel will be known, is a name chosen for it by President E. W. Beatty, believing it to be most fitting in that it associates the new structure with the history of Toronto and conforms with the dignity and importance of the building and its splendid appointments. The earliest history of Toronto is encompassed in the word "York". About the year 1791 the new province of Upper Canada was duly constituted, and its capital was started in its career as "a very English town" by that sturdy Briton, John Graves Simcoe. He bestowed upon it the name of York, establishing

there as close a copy of British political institutions as he could contrive.

The location of the new hotel is notable in that it is directly across from the new Toronto Union Station, one of the largest railway terminals in America, and which will be opened shortly. The building will extend 350 feet along the north side of Front Street, which is unusually wide at this point and which will result in the hotel being set off to splendid advantage. It will extend on the west to York Street and to Finlayson Street on the north. On the east is an open space. A wide airy and well-lit subway will extend under Front Street into the new Union Station.

Some idea of the facilities of this new hotel can be gained by the fact that on the two floors above the lobby and first mezzanine, it will be possible to accommodate conventions of six and seven thousand people. One of these floors will be one of the most notable in America. Around a central foyer will be arranged a ballroom, convention hall and banquet room. These halls will be of unusual height and size, being overlooked by balconies opening out on another mezzanine floor.

The roof garden at the top of the tower will be far in advance of anything that has yet been attempted in Canada along that line. On three sides it will be glass covered, thus affording an uninterrupted view across the lake and the city. Here meals will be served. Above it will be another mezzanine floor containing additional facilities for serving and entertainment.

Detail plans for finishing and decoration have not yet been completed, but considerable personal attention to such is being given by Mr. Beatty and the Company's directors. The result will be a building that, besides being an ornament to the city of Toronto in every respect worthy of that city's importance and assured growth, will be the largest hotel structure in the Empire. In construction and furnishing the new hotel will, as far as possible, be all-Canadian.

**GYPROC Your Garage**

WHY endure another winter with a cold garage? By lining it with Gyproc you may save the cost of a cracked radiator, frozen water pump and numerous repairs caused by zero weather.

Gyproc keeps out winter's bitter cold. It is also fire-resisting. Easy and inexpensive to buy and apply.

Write for free booklet—"My Home." It will tell you how Gyproc, Redboard Insulating Sheathing and Insulux will reduce your fuel bill from 20 to 40%.
