Santa, his little assistant and the little fairy will appear on the west canopy, outside of the store at 11:30 to 12:15 o'clock Saturday morning, during which time the store will be closed. **Luxuries Once But Necessities Now**

PRACTICALLY any Canadian citizen may own today an automobile possessing elements of beauty, style, comfort and efficiency which no amount of wealth could have commanded a dozen years ago.  
For the automobile industry has outgrown its original function as a supplier of transportation, and has in an amazingly short time, brought about the refinements which are exemplified in the present-day General Motors car.  
Since its foundations first were laid sixty years ago, this institution has believed that every Canadian has a right to the best his country produces, has a right to satisfy his sense of beauty, his desire for comfort, his need for dependability.  
General Motors has at its command the master minds of the industry. It has the finest automotive research laboratories and the greatest automobile proving grounds in the world, wherein have been pioneered and developed some of the industry's most revolutionary advances.  
And General Motors has used its prosperity and success unflinchingly in improving the quality and increasing the value of its products. . . .  
It is thus that General Motors of Canada has played its part in translating once-inconceivable luxury into terms of every-day necessity. . . .
