Here and There

What is considered the largest grainy shot in the Canadian Rockies this season was taken by Miss A. Van Vliet, daughter of Bruce Van Vliet, provincial New York county seat who headed a hunting party into the Selkirk district. The party went in north of Revelstoke.

An amount of grain greatly in excess of the entire production of western Canada in the year 1927, 4,464,000 bushels, were loaded to elevators over Canadian Pacific lines in one day in the west during the middle of October. This consisted of a record load of grain for this railway company.

The second shipment of horses from Canada to Russia was a record shipment, according to Louis Len, Swedish representative, there being only one horse that died during the passage. The next shipment is expected to go forward in November, and this will bring the total number up to 3,500.

G. N. Torgue, ex-M.P. for Sweden, recently left for the Peace River Country in order to locate suitable farm land for the establishing of a large colony of Swedish farmers, who are said to be in a position to undertake farming on an extensive scale. He has already crossed Mexico and the Southwestern States, which he finds unsuitable.

The new Canadian Pacific Railway elevator at Midland has begun to receive grain, and shortly all the construction work will be complete and all departments of the plant in operation. The opening of this elevator marks the extension of Canadian Pacific enterprise to another part on the Great Lakes and a new factor in retaining a greater portion of the Canadian export grain trade for Canadian ports.

The largest party of major league baseball stars to hunt moose in New Brunswick entered the woods for a two-weeks stay after the World Series. The party entered at Clarendon on the Canadian Pacific main line and included Benny Bengough, Mark Koenig, Eddie Collins, Joe Bush, Sam Jones, Fred Hofman. A number of newspaper writers and cameramen were included in the party.

The two new Canadian Pacific passenger ships, "Duchess of Atholl" and "Duchess of Bedford," now being built for the St. Lawrence route (Liverpool to Montreal), will be two of the finest vessels afloat, according to plans and specifications. Their gross tonnage will register 20,000. They will be twin screw with geared turbine engines. They will have a length of 595 feet, a breadth of 75 feet and a speed of 17½ knots. Both ships will have accommodations for 675 cabin, 400 tourist third class and 500 third class passengers.

The initial consignment this year of Canadian apples for Great Britain, has gone forward on the Canadian Pacific liner "Montrose" from Montreal. They are consigned by the Fruit Branch of the Dominion Department of Agriculture from the Province of Ontario and consist of nearly 4,000 crates containing about 4,000 apples to be put on exhibition at the Imperial Show scheduled to be held at Manchester this month. Varieties include Golden Russet, McIntosh, Spies, Greening, Stark, Talman Sweet, Wolf River, Cross Pippin and Buxton. On the same vessel are 25 cases of vegetables also for exhibition in England.

They Laugh — as Health Comes Back

Rose and Valerie are sisters. Their charts say they are 25 and 18 years of age, respectively, but to look at them you would think they were 15 and 12—so slight and delicate are they when you hear the laughter and chatter of these two—fourteen and sixteen—you feel sure they must be the younger sisters.

Yes, they are both very slight, but the wonder is they are here at all, for just a few months ago they were admitted, victims of the ravages of consumption. They are happy now because they are gaining weight and strength again; and you, who have never lost your health, can hardly understand what a wonderful difference that makes to people who never expect to get well. But that—that is the work of the Muskoka Hospital for Consumptives, and it is being carried on for over three hundred patients each day throughout the year.

Rose and Valerie are a farmer's daughters in a home where there are eleven children, and they say they are learning all about the disease of their members of the family, walk unawares into the dread path that leads to consumption.

Would you not like to contribute to this excellent work? It depends largely upon subscriptions. Contributions may be sent to Hon. W. A. Charlton, President, 223 College Street, Toronto 2, Ontario.

Here and There

Establishing what is believed to be a world record, J. H. Hoover, of Rutledge, Sask., recently dug a total of 171 potatoes from one hill.

A new record for the Port of Montreal was set up Saturday, October 22nd, with 1,045 ocean-going steamers having entered the port this season (with five weeks or so yet to run) as compared with 1,012 for the whole of last season.

All wheat yields in a season of amazing returns went by the board on October 22nd when J. E. Cook, of Ingraham, 24 miles south of Lethbridge, Alberta, reported a return of 175 bushels on a piece of fallowed land measuring slightly over two acres.

Hon. W. E. Foster, Chairman of the Saint John Board of Harbor Commissioners, announces that plans for the first unit in the enlarged harbor facilities for Saint John would include four new steamship berths and an elevator of 2,000,000 bushel capacity and that plans for these would be prepared at once. They will be located on the western side of the harbor.

Increasing interest is being manifested throughout the country in the project sponsored by the Department of National Defence regarding light-aeroplanes clubs, and two queries have been received formally regarding the Government to fulfill the scheme by shipping the two Moth planes promised under the provisions of the plan. Montreal and Edmonton are the first two applicants.

Inaugurating a direct mail service by air from Quebec City to Ottawa and bringing British mail to the Capital 48 hours ahead of regular train schedule, a composite first class mail from the Canadian Pacific liner "Montroyal" landed on the Ottawa River near the Parliament Buildings. This is the first mail to reach Ottawa by air, and is part of a more general experiment on the part of the postal authorities.

Manitoba's first fox show will be held from November 30th to December 3rd, in the old Hudson's Bay store at Winnipeg. J. H. Evans, Deputy Minister of Agriculture, will be superintendent, and A. M. Doyle general manager. There will be eight classes including one for the best pair of matched foxes, one for groups or herds and one for the most desirable fox from a field standpoint. Several championships will be awarded, all of which are open to all classes.

What is said to be the most valuable shipment of horses ever to reach Canada arrived in Montreal recently aboard the Canadian Pacific freighter "Boswell" and "Bollingbroke." The owner is W. J. McCallum, of Brompton, Ont., and Regina, who secured these prize animals in England, Scotland, France and Belgium. They include the famous "Lord Willington," for which Mr. McCallum paid \$10,000. The horses will be sold throughout the West after being exhibited at Toronto, Chicago, Guelph and Ottawa.

Canadians would be considerably surprised if they were given full details of the British investment going into Canadian channels at the present time, according to E. R. Fenwick, director of the Bank of England and of the Canadian Pacific Railway. The Britisher does not seek publicity in his business deals, he stated, with the result that large sums of money were often placed in the Dominion and never heard of. A case in point he mentioned was the investment of himself and five other capitalists of \$200,000 in timber interests in British Columbia five years ago, and upon the success of the venture the further investment of £300,000.

Let Them Tell You

Ask any of our many hundreds of enthusiastic customers why they are such staunch Falls' boosters for Furniture. They will tell you they have proved by "the look and compare method" that our special-value policy assures fine quality Furniture at an actual saving of many dollars on Chesterfield Suites, Bedroom Suites, and the Diningroom Suites. We urge that you prove this yourself. Look and compare.
