Here and There

To meet the increased activity in the station the Royal Canadian Air Force will be equipped with 26 new planes, according to information given out at Ottawa recently.

The Canadian Pacific Railway Company has decided to give the name of Princess Elaine to the new vessel building in Scotland for the Vancouver-Nanaimo route, at a cost of \$1,500,000.

To handle the heavy prospective movement of grain this year the Canadian Pacific Railway have opened the Transcanada route at Winnipeg and the new double track between Nelson and Whittier Junction.

Some idea of the increase in the volume of traffic through the port of Vancouver is given by the fact that during the past year exports from that port were valued at \$149,000,000 as compared with \$68,000,000 five years ago.

The winter carnival at Banff is to be held from February 4 to 11 this year, according to L. C. Orr, president of the Banff Winter Sports Association. Preparations are under way that give promise of a greater carnival than ever staged at this famous mountain resort.

An exceptional crop of blueberries has been gathered this season, according to the agent of the Canadian Pacific Express Company at Kenora, 324,787 pounds having passed through his office to date, and approximately 30,000 pounds being shipped over the lakes to the United States. The estimated value of the total shipment is placed at about \$38,000.

The names of Nuneesser and Coll, who sought to fly the Atlantic but failed, will live forever in the place names of Canada. The topographical survey, department of the Interior, has issued a new map of the gold bearing areas in the vicinity of Woman Narrows and Birch Lakes in northwestern Ontario. The names of these two aviators from France have been given to two lakes.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, has announced in a telegram to H. R. Silver, president of the Lord Nelson Hotel Co., at Halifax, that the railway company has decided to subscribe to the extent of \$250,000 in financing the hotel. Construction of a \$1,250,000 hotel building will commence immediately.

Canada's "Agricultural Jubilee" is to be celebrated this year according to an announcement made by the Hon. W. E. Forster, minister of agriculture, who has taken the matter up with various provinces. It has been decided to hold the celebration in connection with the Royal Winter Fair at Toronto, November 16 to 24 as the new building erected there jointly by the Dominion and Ontario Governments offer a splendid setting for this event.

In spite of the milk embargo Canada's exports of milk and cream to the United States have been well above the average this year, according to Washington figures. The total exports of milk and cream, chiefly the latter, show an increase of 34,000 gallons during the seven months period January to July. The exact figures, 1,096,798 gallons compare favorably with 1,062,766 gallons in 1926 and 1,065,161 gallons in 1925.

CANADIAN HOMES AND GARDENS

The finest magazine ever published in Canada
\$3.00 for 1 year—\$5.00 for 2 years

For Lovers of Homes and Gardens
 Readers of Canadian Homes and Gardens, indeed, are constantly expressing appreciation of our pictured and storied pages; it has surprised and pleased them to find so broad a development where the home life of the country is concerned.

We are continually receiving letters which recognize the service that Canadian Homes and Gardens extends; warm appreciation of our helpful inspiration in the creation and building of homes, in the development of the garden charming. Should be on every Canadian library table.

Here and There

In accordance with its new policy the Department of Health at Ottawa has appointed twenty physicians as inspectors of immigrants in European cities. They are to report for duty at once.

Manager D. McNair, of the Associated Growers, states that at the end of last week 100 cars of "Mac" (Macintosh Red apples) left the Okanagan Valley for New York and that 50 cars of Jonathans will move out to Sweden, South Africa, Great Britain and New Zealand.

The Canadian Pacific Railway is again offering a prize of \$100 to the Canadian showing the best spring wheat at the International Hay and Grain Show in Chicago, it was announced at the offices of the agricultural department of the company. The show will be held in November.

The grand total of Canadian trade for the twelve months ended August was \$2,331,000,000, as compared with \$2,314,000,000 for the year before. Import figures are up and exports down; the former being \$1,065,000,000, as compared with \$967,000,000 the year before and exports \$1,266,000,000, as against \$1,337,000,000.

A boom in muskrat farming is on the horizon in Western Canada. Following the acceptance by the Provincial Governments of the Prairie Provinces of the Dominion Government's offer to turn over swamp lands to them for leases to residents for purposes of muskrat farming there has been a deluge of applications. Alberta has had 200 of them and Saskatchewan over 500.

British Columbia is capable of producing all the bulbs, rose bushes, fruit trees, ornamental trees and seeds that the Canadian people can use, it is claimed by authorities here. Millions of dollars each year go out of Canada for nursery stock that could be raised in British Columbia and delivered to the buyers several weeks earlier than it could be imported from overseas.

Boys and girls resident in Manitoba, Saskatchewan and Alberta are now engaged in a series of hog-raising contests in which the Canadian Pacific Railway is offering a trophy to the winning teams of each province, in addition to which the six winners will be taken to Toronto, to the Royal Winter Fair (Nov. 16th to 24th), as guests of the railway.

"More settlers are coming from the United States to make homes in Canada than in any year since 1920," said J. R. Ryan recently in Winnipeg, travelling colonization agent from the St. Paul office of the Canadian Pacific Railway. "Personally," he said, "I have brought 70 families this season and have every reason to believe that the total will be well over 100 before the end of the year. All the settlers have money—some very well supplied."

Prof. Robert Wallace, commissioner of Manitoba mines, told the Caledonian Society at its weekly luncheon in Winnipeg recently, that mining developments such as had never been equalled in the history of Manitoba were likely to feature the next six months. Mining, he said, had to be looked upon as a business proposition. It so happened in this country that mines are found in places to which access was not easy and no railroad could be expected to lay tracks into the north country until it knew prospects there.

**They Laugh—
 as Health Comes Back**

Rose and Valerie are sisters. Their charts say they are 23 and 18 years of age, respectively, but to look at them you would think they were 45 and 12—so slight and delicate are they. And when you hear the laughter and chatter of these two, for they are resting side by side in hospital beds—you feel sure they must be the lesser ages.

Yes, they are both very slight, but the wonder is they are here at all, for just a few months ago they were admitted, victims of the ravages of consumption. They are happy now because they are gaining weight and strength again, and they say they never lost your health, can hardly understand what a wonderful difference that makes to people who never expected to get well. But then—that is the work of the Muskoka Hospital for Consumptives, and it is being carried on for over three hundred patients each day throughout the year.

Rose and Valerie are a farmer's daughters, in a home where there are eleven children, and they say they are learning all about the disease so they will do their best to see that no other members of the family walk unawares into the dread path that leads to consumption.

Would you not like to contribute to this excellent work? It depends largely upon subscriptions. Contributions may be sent to Hon. W. A. Charlton, President, 223 College Street, Toronto 2, Ontario.
