Here and There

Reports received from various guides in New Brunswick state that partridges have increased, moose are plentiful and deer greater in numbers than last year. On the Little Tobique River beaver are more numerous this year, but not elsewhere.

Alberta's wheat crop is so good that D. C. Coleman, Vice-President of Western Lines of the Canadian Pacific Railway, believes it will reach 180,000,000 bushels. The record crop so far is 168,000,000 bushels, produced in 1923.

Rosebank Pride—71118, an Ayrshire cow owned by George Pearson & Sons, of Waterdown, Ontario, has just scored a Canadian and a world record for milk production, having given 23,641 lbs. of milk, 978 lbs. fat with average test of 4.34 per cent. Her five years' milking record is 87,843 lbs. milk, 3,633 lbs. fat.

Aviation history is being made nowadays. Canadian Air Board officials announce that enquiries have been received from 15 cities in Canada desirous of forming flying clubs. At the same time for Air in Sassoon, Under-Secretary for Air in the British Government, reports that the first of the two huge 5,000,000 cubic feet dirigibles being built in England for inter-Imperial commercial communication will be completed in about two years and that the maiden trip will likely be to Canada.

Nova Scotia has won the Agent-General's Challenge Cup at the Imperial Fruit Show held in Manchester, according to official advice by cable. Nova Scotia obtained the greatest number of points in the overseas section of the show, the basis for award being 4 points for each first prize, 3 for each second, 2 for each third and 1 for each entry receiving 75 per cent. Nova Scotia had 48 entries and won 7 firsts, 8 seconds and 5 thirds.

The establishment of a game sanctuary in western Nova Scotia was announced recently by W. L. Hall, Attorney-General of the Province. The reserve covers an area of approximately 200 square miles and contains fine scenery, majestic rivers and forests and lakes in which trout and wild life are sure to thrive. The new sanctuary will take in the chief waterways of Lake Rossignol, Shelburne River, Jordan, Sixth and Fifth Lakes.

According to the latest Bulletin of the Bureau of Agricultural Economics, Washington, Canada ranks next to British India as to tobacco produced in the British Empire. "Stimulated by the preference granted Empire-grown tobaccos in the British market since September 1st, 1919," says the report, "the production of tobacco in Canada has increased from 14,232,000 pounds in 1918 to 28,884,000 in 1926; Ontario furnishing about 75 per cent. of the product and Quebec most of the remainder."

Gasoline has done all the damage possible to the horse industry in Canada, according to W. J. McCallum, horse importer of Brampton and Regina, who arrived in Canada recently on board the C. P. liner "Metagama." Mr. McCallum brought with him over 100 champion stallions which he purchased throughout the British Isles, France and Belgium during the summer months. He will take the valuable shipment west this winter and will dispose of them throughout the prairie provinces. "McCallum is optimistic regarding the future of the horse industry in Canada and states that more pure-bred animals are needed on this side of the water."

Here and There

Work on the erection of the Minas Basin Pulp and Paper Company's plant at Hantsport has begun, together with work on the railway siding connecting the plant with the main line of the Dominion Atlantic Railway.

The value of the Western Canadian grain yield this year is figured at \$1,600,000,000 by a financial firm making a survey of conditions at Winnipeg. Wheat is put at \$663,804,723; oats at \$166,428,382; barley at \$62,887,902; rye at \$16,628,381, and flax at \$1,038,315. Hay and other grains are included in the grand total.

The Eastern International Dog Sled Derby will be held this year at Quebec City, February 20, 21 and 22, according to information given out by the tourist department of the Canadian Pacific Railway Company. The leading drivers from all parts of the Continent will take part. The race is over a 120-mile course with an average of 40 miles a day.

Montana farmers are hauling grain to stations on the Canadian Pacific Railway lines just north of the international boundary line in South-western Saskatchewan. Some 50,000 bushels are on the move there on sale to the Wheat Pool. It is remarkable that the Montana farmers are paying the duty and receiving about \$5 per load more than if delivered to the elevators located along the Montana route.

"The tourist crop is the next best crop to that of wheat in the Canadian West," said C. B. Foster, passenger traffic manager of the Canadian Pacific Railway, visiting Winnipeg recently. "Canadians are now capitalizing our splendid winters," he said. "It used to be our custom to deride them, but we have since learned their appeal to the stranger as well as ourselves and are profiting by it."

Quebec City is preparing for a record winter sports season, according to Jack Strathdee, newly appointed winter sports director at the Chateau Frontenac. Mr. Strathdee comes to his new field of activity with a wealth of experience, having promoted outdoor sports in the Muskoka Lakes region and more recently at the French River Bungalow Camps of the Canadian Pacific Railway.

Saskatchewan heads the provinces of Canada in growth of revenue from tourist traffic, according to the Dominion Bureau of Statistics, dealing with the calendar year 1926. The gain over the previous year was over 100 per cent., while Manitoba was the only other province with a revenue increase of more than 25 per cent. The tourist business for the whole of Canada has risen from \$33,733,760 in 1920 to \$193,643,450 last year. It is thought to contribute \$100,000,000 to Canada's favorable balance of trade.

Of Canada's four great sources of wealth — field, forest, mine and stream — the forest has steadily pushed forward until it now holds second place, particularly in the exports from the Dominion. For the 12 months ended September 30th last, grain and grain products exported were valued at \$464,000,000; metals \$160,000,800 and newspaper \$120,000,000, to which should be added, to show the whole exported wealth of the forests, manufactured and unmanufactured wood valued at \$160,000,000, making the forest aggregate \$220,000,000.
