UNITED CHURCH, NANTICOKE CONGREGATIONAL SOCIAL

A congregational social, held in the Sunday School room of the church on Friday evening, was attended by most of the families of the congregation.

Rev. J. A. Neil, pastor of the church, acted as chairman for the evening. A program consisting of community singing, readings by Miss Ethel Marshall, music by Margaret and Donald Kindree, chorus by the young people, "Upward, Ever Upward," was enjoyed.

In an excellent address, Mr. John Vokes, Superintendent of the Sunday School, emphasized the value of Sunday School training in the lives of our boys and girls, also pointing out the importance of parents setting the right example by showing an interest in, and by attending Sunday School.

An interesting feature of the program was the presentation of a wrist watch to the organist of the church, Miss Cora Henning, by the members of the Ladies Aid.

The following address was read, and although taken by surprise, Miss Henning made a very suitable reply.

Nanticoke, Feb. 18th, 1927.

Dear Miss Cora Henning,
Nanticoke, Ont.

The Ladies Aid of the United Church, Nanticoke, desire to take this opportunity of expressing their appreciation of the services which you have so faithfully rendered as organist of the church. We realize something of what it has cost you in time and effort to be present for practice and for each of the services, and how unsparingly you have given of your talent as week succeeded week. The "ministry of music" is a real and valuable contribution, and aids more than we ordinarily realize in rendering still more enjoyable the messages we receive from the pulpit, and the hour which we spend together in worship.

That this expression of our appreciation may be shown in tangible form, we ask you to accept this little gift, which we trust will be as faithful and as regular as you have been, and will often remind you of the fact that the Ladies Aid and the Congregation of the United Church, Nanticoke, are not ungrateful to one who has contributed so much to their pleasure and well-being.

Signed on behalf of the Ladies Aid,

A social hour followed and in this last, but by no means least, number on the program, everybody took part, enjoying the bountiful lunch provided by the ladies of the church. The singing of the National Anthem brought a pleasant evening to a close.

TO PRESENT PLAY

The Christ church choir will present a play "Take My Advice," in the Town Hall, Nanticoke, on Friday, Feb. 25th. Proceeds in aid of the choir fund.

REEVE OF PT. DOVER CALLS CONFERENCE TO SECURE ROAD WORK

REPRESENTATIVES OF NORFOLK AND HALDIMAND MET TOGETHER BANQUET TO DISCUSS ROAD FROM DOG'S NEST TO TOWNLINE.

Entertained at Banquet Spread At The Commercial Hotel on Friday Evening Last.

KEYNOTE OF ALL SPEECHES "ROAD MUST BE BUILT THIS YEAR." REEVE GETS EXPRESSION OF OPINION OF LEADING MEN OF NORFOLK AND HALDIMAND.

"He won't be happy till he gets it" certainly fits the Reeve of Port Dover (J. H. Misner) and could also be made to fit his brother (Reeve R. Misner, Warden of Norfolk County) who are uniting their forces in an endeavour to have the Counties of Norfolk and Haldimand take over the "missing link" of roadway that would connect up the great highway from Niagara River to the Detroit River, and from the many expressions of opinion voiced at the banquet on Friday last at the Commercial Hotel, the missing link will soon be a thing of the past. The persistent efforts made for a number of years past to get the Port Dover—Jarvis link taken over by the provincial authorities have borne fruit, and are out of our minds now for all time and we now await the day when the contract for this strip is awarded and work actually commenced. Hon. John S. Martin said that the work would be commenced in the spring and so we have every assurance that the Dover to Jarvis road will soon be attended to.

The main piece of resistance at this time is the road from the Dog's Nest to the town line and concerns the counties of Norfolk and Haldimand, and if it is to be carried out in all condition the Good Roads committee of each county must get together and work in harmony. The completion of the road will mean a big thing for Port Dover. It will bring thousands of tourists to the Port who now give us the go-by, on account of the almost impassible stretch of road from Nanticoke; it will bring trade to the Port that by all accounts rightfully belongs to us and which now goes to swell the coffers of the merchants of other towns.

Those present were Warden Misner, Hon. H. B. Kern, of Ontario, (Warden of Haldimand), Civic Representative, R. H. Wheeler, Selkirk, W. J. Saunders, Walpole; John Walker, Port Dover; J. Wesley Buchner, Woodhouse; Mr. O'Byrne; F. Riddle, Townsend; A. J. Schubert, Port Dover; Thos. Jepson, Hagersville; T. D. Mather, Guy R. Maxton, Simcoe; Geo. L. Miller, Jarvis; Fred Herron, Middleton; W. F. Smith, Harvey Austin, Woodhouse; D. W. McBurnie (road supt.); Haldimand; Leslie Jackson, Nanticoke; R. F. Miller, M.P.P. (Continued on Page 5)

REPORT OF THE PUBLIC SCHOOL INSPECTOR

Of Haldimand County for the Year Of 1926

To the Honorable Minister of Education, Toronto, Ont., and
To the Warden and Members of the County Council:

Gentlemen—I have the honor to present my Annual Report on the Public Schools in Haldimand County for the year 1926.

HEALTH

During the year 1926 the school attendance was not much affected by disease, though some schools were closed for a few days owing to mumps, measles and diphtheria. The Medical Health Officers of the various municipalities make an annual inspection of school premises and report thereon to the School Board and to the Department of Health, Toronto.

The water supply in many of our schools is obtained from cement cisterns. One difficulty experienced is to secure aerated water by this means. Filters are usually provided at the intake and bucket pumps are used for securing the water and for partial aeration.

Sanitation is also receiving more attention. Water closets are being rebuilt. The new ones are larger and more sanitary. A few schools have not as yet given sufficient attention to this very important matter, which affects the health and morals of the growing child. Materials as dry earth, ashes, lime should be provided to be used upon the excreta. Urinals are now found in nearly all boys' closets.

Our unit in the County with nurse inspection has now been in operation nearly four years, and is growing steadily in favor. This unit serves both rural and urban schools. Cases of defects in teeth, enlarged tonsils, adenoids, etc., are detected and parents are notified. A few cases of impaired sight and hearing have been detected by the nurse and the parents have had these corrected. Experiments have been tried in providing milk once a day for pupils who were underweight. Records are kept of their increase in weight and the effects on general health and on school work.

SCHOOL BUILDINGS

During the year a new school was built at S.S. No. 2, Seneca, of rug (base)—It has a basement, also an auditorium with a stage and side rooms, the latter being used as a library and a teacher's room. At the opposite end of the room the closets are located. New moveable desks have been installed. The school is heated by a furnace which uses coal or gas. It is lighted with natural gas and may be used for community gatherings.

Hagersville Public School had an addition built to provide for the installation of a new hot water heating system. Electric lights were placed throughout the entire school, and this will aid the work of the teachers very materially during the winter months. Indoor chemical toilets for teachers were part of the recent improvements.

Several rural schools renovated the interior of the buildings, during the holidays. Three schools installed new desks. Two others installed new furnaces. New slate blackboards were placed in two schools. Some school grounds have been enlarged. A few schools provided additional playground equipment. Many have planted trees, shrubs and perennials. These improvements show that the people are taking a greater interest in education.
