Here and There

The 225,000,000 acres of land sown to produce the 1926-27 wheat crop of the world, Canada sowed about 10 per cent.

Alberta, formerly 100 per cent. straight wheat farming country, has changed radically in this respect in the last fifteen years. The wheat yield of 1925 represented only 45 per cent. of the value of the agricultural products, which totaled \$254,000,000 for the year, the greatest in the history of the province.

The flow of settlers into western Canada for 1927 commenced in earnest recently when two special Canadian Pacific trains brought more than 400 persons into Winnipeg. About 200 of the new arrivals were destined for Manitoba, 100 to Saskatchewan, while Alberta and British Columbia absorbed the rest about equally.

The value of building and construction contracts awarded in Canada in 1925 was \$272,547,000, compared with \$207,974,000 in 1924, an increase of 25 per cent. Last year's total was the highest for several years. Development in the mining, power and paper industries in Canada was an important factor contributing to the activity in building during the past year.

When the Canadian Pacific steamship *Montreal* docked recently at New York, after completing her first cruise to the West Indies of the year, she resembled a floating menagerie, for there were assembled on board over 200 live birds, parrots and monkeys. These pets were brought by passengers on the cruise. During the month's cruise the vessel touched at fourteen ocean ports and visited thirteen countries.

Sweeping reduction in the rates of electricity to all sorts of consumers has been announced by a leading electrical company in New Brunswick. The new rates are being filed with the New Brunswick Board of Public Utilities. Under the new schedule of rates the household will be able to secure electricity for as low as 3 cents a kilowatt hour, the same rates applying to stores and offices.

Good seed corn, under the joint directors of the Manitoba Department of Agriculture, the Dominion Seed Branch and the Manitoba Agricultural College, in conjunction with the Canadian Pacific Railway, are touring the province. The train consists of a lecture car, a baggage car with types of all modern farming mills and other machines; a horticultural car which is the first to be operated in Canada. Lectures and demonstrations are given at each stop.

Emile St. Godard, youthful Manitoba dog musher from The Pas, carried off the honors in the Eastern International 120-mile dog derby at Quebec recently. St. Godard's time for the three-day race was 11 hours and 37 minutes, over 54 minutes faster than the previous record for the same event. He neared out Leonard Seppala, hero of the Nome, Alaska, serum epic by 20 minutes and 20 seconds. George Chevrolet took third place, while "Paddy" Nolan, 15-year-old musher, maintained fourth place throughout the race.

Peking, China.—Over 400 passengers aboard the Canadian Pacific *Empress of Scotland*, now on a tour of the world, the largest number of foreigners, except the military, ever to invade the city, were admitted recently to the Forbidden City for the first time since the young Emperor of China evacuated it, when he was driven out to Tientsin two years ago. The Manchuria War Lord Marshal Chang Tso Lun accorded safe convoy to the party and every courtesy was shown to the visitors in their tour through a city which so far has been rigorously shut off from intercourse with the western world.

Excellent progress is being made with the branch-line programme projected by the Canadian Pacific Railway for the three Prairie Provinces this season, according to D. C. Coleman, vice-president in charge of western lines. The work of construction, he said, is progressing rapidly and every effort is being made to have the new lines in operation by the time the fall crop movement begins. Keeping pace with the rising tide of land settlement the company expects to open the line from Lloydminster to Clan Donald on July 15. This branch is of particular interest as it serves the colony of Hebrideans located in the Clan Donald district. These settlers are doing remarkably well and have forty per cent. of their land broken.

READ THE ADVERTS

Here and There

Salmon exports from British Columbia amounted to 1,571,000 cases, the record for several years past. Shipments in 1924 were 1,525,000 cases; 925,000 cases in 1923; 794,000 cases in 1922 and 939,000 cases in 1921.

For the first time in Canada, a sport known as the "mountain glissade," was performed at Revelstoke, B.C., on Friday, January 23, before hundreds of visitors to the start of Revelstoke's twelfth winter carnival. "Glissading" consists of flying down rough uneven mountain sides on skis.

From August 1, 1925, to January 31, 1926, 3,182,196 bushels, or about one and a half per cent. of the 195,637,112 bushels of grain shipped by the Canadian Pacific Railway went by the all-rail route. About one-eighth, or 39,216,124 bushels travelled through the port of Vancouver and the balance of 85 per cent was shipped via Port William.

Five hundred Montreal school children will give a concert on the concluding night of the triennial conference of the National Council of Education, to be held in Montreal from April 5 to 9. The speaker for the occasion will be Sir Walford Davies, well known authority on national and school music.

Under the auspices of the French Government, the French universities and Hon. Philippe Roy, commissioner-general of Canada in France, a tour through France has been arranged for this summer, starting in Quebec on May 26 with the departure of the Canadian Pacific liner *Empress of Scotland*.

Pulp and paper exports from Canada during 1925 were valued at \$154,555,951, as compared with \$139,491,469 for the previous year. Newsprint production for 1925 was estimated at 1,516,000 tons, as compared with 1,362,994 tons for 1924. This is twice the newsprint production of 1918.

With glorious weather prevailing, a large gathering witnessed the opening of the tenth annual Banff Winter Carnival on February 3. "Queen Gabrielle" regally entered in a fairy ring gorgeously formed by frost crystalline ice, drawn by a team of huskies. Shooting, skiing, skating, hockey and hikes featured the big winter sport tournament.

Two more cases of automobiles crashing through gates at level crossings at Chelsea Road, Hull, Quebec, have been reported. On January 6, an automobile bus, laden with passengers, was driven through both gates. The driver explained that his windshield was frozen. The second case occurred February 3 when a car ran past just as the gates were being lowered. Both cars were damaged.

Addressing the members of the Canadian Lumbermen's Association at their eighth annual convention banquet at Montreal recently, E. W. Beatty, K.C., President of the Canadian Pacific Railway, stated that the 1925 income tax would collect from \$42,000,000 to \$45,000,000. Mr. Beatty declared that a reduction of 25 per cent. or \$11,000,000 might be brought about if the government expenses were cut. The Canadian Pacific Railway had reduced its expenses by over double that amount in one year, and the railway company was not as large as the Dominion of Canada.

Canada's wool production in 1925 is estimated at 17,120,270 pounds, as compared with 15,553,045 pounds in 1924. The value of the clip of 1925 is estimated provisionally at \$2,700,000, as compared with \$2,901,000 in 1924. Ontario led in production with 4,925,313 pounds, followed by Quebec with 4,920,116 pounds. Alberta led in Western Canada with a yield of 2,400,000 pounds.

New trade arrangements will be made between Canada and Cuba as a result of the visit of the Canadian Minister of Finance to that country. Canada will receive preferential treatment from Cuba and the products of that country will be admitted to Canada on terms similar to those extended to France and other favored nations. During the twelve months ended November, 1925, imports from Cuba totalled \$8,074,101 and exports to Cuba \$8,099,989.
