The World's Best Farmer. A young Alberta engineer who, with no capital, turned to the land ten years ago when dissatisfied with his profession is to-day the most famous farmer in North America.

He is the first man in history to win the "world's championship" in both wheat and oats for the same farmer-a feat he accomplished with his exhibits at the international hay and grain show at Chicago.

The new grain king's name is Herman Trelle, and his farm is at Wembley, in the far-northern Peace River country in Alberta.

Ten years ago he did not know the difference between wheat and oats; now he is adjudged to have produced better wheat and better oats than anyone else in the world. The homestead of 160 acres which he first took up was extended to 480 acres while he developed his wonder grains.

"For five years I was in misery. My whole system seemed out of gear, but my stomach troubled most. Even a rink of cold water would cause my stomach to bloat and swell abnormally. Gas would prevent me from sleeping at night so that I had to get up and walk the floor fer hours. Vio-lent stomach pains nearly drove me wild. I've seen times when I was doubled over, unable to straighten up. "My friend M. Laponte told me how Tanlac had helped him out of similar trouble, so I got some and used 9 bottles in all. It just made me over. I feel 30 years younger than I am, and weigh 214 lbs. My appetite and sleep are both fine. I eat what I like and sleep like a top. Tanka and nothing
