COMPANY, LIMITED

THURSDAY, MAY 12, 1927

**A GOOD PLACE TO LIVE**

Work for and with your home town. Beautify it. Improve it. Make it attractive. Help make it the kind of a town that you really want to live in. The best advertisement of your business is the town you live in if it's the kind of a town it should be. Towns get reputations as well as men. Reputation makes reputation. Make your town's reputation one that will attract favorable attention. It will draw people and where people come there is prosperity. Help rid Jarvis of one eyesore after another. Clean up vacant lots, and plant them in gardens. Make a cluttered up yard a disgrace and an unpainted house a reproach. Cut the weeds, clean the streets and fix the sidewalks. Wash the store windows and discountenance the flaring sale sign. Be fair to your public officials and pay your taxes without grumbling so that they may give the best service possible back to you. Make public opinion too hot for those who knock, refuse to co-operate for general good and who will not help. Our town should be one where folks are friendly, where progressiveness is appreciated, where good roads make it accessible, where proper sanitary methods are conducive to healthfulness, where attractiveness is considered an asset, where education fits for the future, where recreations are plentiful for all, where government is efficient and popular, where living conditions are good, where the helping hand is extended to the unfortunate, where employment is plentiful, where investments are sound, where intolerance is unknown, and church spies point the way to Heaven. That's the kind of a home town we want!

**DEADLY**

Traffic accidents kill a few thousands of men, women and children annually, causing the setting up of extensive safeguards for the protection of human life. A citizen is killed by assassins in a foreign land, and diplomatic relations between two nations are strained and the indignation of millions is aroused to the point of violent outbreak. An epidemic of infantile paralysis breaks out with the resultant loss of life of several hundred children, and the nation organizes every resource to combat the disease. But germ-carrying insects, which yearly cause the death of millions of human lives and destroy vast quantities of man's food supplies, attract the concern of one or two governmental departments, provoke an occasional "swat the fly" or "clean-up" campaign and disturb not the public's peace of mind. The mosquito and fly are the most destructive enemies of men. They convey to man malaria, sleeping sickness, cholera, typhoid and other deadly diseases. Other insects destroy wheat and cotton crops, murder man's livestock or contaminate food supplies. And the only defense the public makes against his most

powerful and destructive enemies is to screen in his house and spray his fields and orchards.

**STRAW HATS AND HISTORY**

The shop windows are blooming with straw hats of the masculine variety, and there are many bold spirits who have donned the summery skimmers, defying good form and bad weather at the same time. Right now is the zero hour for going over with a new topper, and perhaps the sentinels and milans, Bangkoks and Panamas, will take on added significance if some of their history is recalled. Straw hats have been generally used in the Dominion for only 60 years, but their history reaches far back into antiquity. Mercury, messenger of the gods, and himself something of a god in his own way, is always shown wearing the commonest sort of a straw hat. Praxitiles' statue of June, which dates back to 350 B.C., is crowned with a "stephanos," which is another name for a straw kelly. In more recent times investigators have discovered that Edmund Spencer, author of the "Faerie Queene," depicted in a regulation straw hat in Elizabethan days, and the eighteenth century poet, Thomas Gray, of the "Elegy," boasted that his straw top-piece was lined with green.

**The Melting Pot**

Love is blind. It's spring. Help the blind. Sometimes a pessimist is the son of an optimist. First thing the early bird seems to get is the lawn mower. A fetching costume is any costume that will fetch a man. One time you certainly pay as you go is when you ride on a bus. An auto is a necessity unless you want to get run over by one. The burning question soon will be the sun instead of coal prices. The folding card table would be a great invention if it practiced moderation. With some people religion is merely a kind of rabbit's foot to keep away bad luck. Torontoers never stand to watch the train come in; they stand to watch somebody work. Flattery isn't at all essential unless you are trying to marry a rich old widower. Deal with the manager when possible. Underlings may be as unreasonable as you are. Fecundity makes the common people victorious, and some day small cars may overcome locomotives. Women will not be men's equals until there is a bride shortage instead of a bridegroom shortage.

**THE MARCH ROD AND GUN AND CANADIAN SILVER FOX NEWS**

Presenting the beauties of Canada to tourists, "Rod and Gun and Canadian Silver Fox News" appears this month as a special Dominion of Canada Tourist Number. The May issue is featured by a special section, profusely illustrated, in which the countless attractions which Canada has to offer are laid before the tourists. An editorial written by Hon. Chas. Stewart, Minister of the Interior, welcomes visitors to the Dominion.

**Here and There**

Hamilton's air port comes into operation May 1st. The property used is four hundred acres in extent. A large hangar is being constructed and the old homestead on the property will be remodelled as an aviation boarding school.

Driven by over-population to eating bark of trees and seaweed from the ocean, the wild goats of Guelph Island are changing their habits and, in some respects, their form. They are learning to climb leaning trees in search of foliage.

According to recent game regulations in the Province of Alberta, prairie chicken, grouse, partridge, greater and lesser yellow legs, black breasted and golden plover, are now on the protected list, while the ban on Hungarian partridge, north of the North Saskatchewan River, has been lifted.

It has been announced by Premier Ferguson, of Ontario, that the Government proposes to foster the creation of an industrial research institution with an endowment of \$2,000,000 for the purpose of solving scientific problems of production and process for Canadian industries.

While on a tour of the Maritimes recently, Dr. F. T. Wahlen, chief of the seed branch of the Department of Agriculture at Ottawa, was of the opinion that a great deal more of the seed used in these provinces should be grown on their own farms. The seed is very hardy, he declared, and, with proper care, a market could be established in the northern states of the Union, and the crop profitably disposed of.

The versatility of the seaplane was ably demonstrated recently. C. F. Tennefoss, a Swedish sea captain, with urgent business in Shanghai, was taken from the Canadian Pacific Toronto Express at Mission City, B.C., and rushed by seaplane to the outer wharf at Vancouver, where he caught the flagship of the Canadian Pacific fleet, the "Empress of Canada" for the Orient. The seaplane was landed on the Fraser River within easy reach of the depot.

The season for bass fishing in Ontario, with the exceptions of the St. Lawrence and the Ottawa Rivers, has been shortened this year by about a fortnight, opening July 1 and ending November 20, according to information given out by the tourist department of the Canadian Pacific Railway. This action was taken by the Ontario Provincial Government when it was found out that bass had not finished spawning when the season opened June 16 in previous years. The same ruling applies to muscalunge fishing in Ontario this year.

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commissioner at Bristol. One organization has built a factory in Ontario, have their own buyers, and are packing the leaf. Canadian Turkey, suit the English taste.

**NOTICE TO CREDITORS**

IN THE MATTER OF THE ESTATE OF George Ineson, late of the Village of Jarvis, in the County of Haldimand, Gentleman, deceased.

NOTICE is hereby given in pursuance of 16 George 5, Chapter 40, that all creditors and others having claim or claims against the estate of the said George Ineson, deceased, who died on or about the 13th day of March, 1927, are required to deliver or send post prepaid to George L. Miller, Esq., Jarvis, Ontario, the executor, on or before the 28th day

**Don't let your life earnings slip through your fingers**

EACH year hundreds of Ontario farmers do that very thing, to their shame, by neglecting to protect their barns and stored crops from fire. Lightning and flying sparks lose all their terror when a barn is covered with "Roofers" COUNCIL STANDARD Corrugated Iron. Rain and snow do no damage to it. This corrugated iron cannot rust because of the heavy coating of speiler. It will last a lifetime, and give you greatest value.

Jarvis, Ont.

of May, 1927, their names and addresses and a full statement of particulars of their claim or claims and the nature of the security, if any, held by them. AND FURTHER TAKE NOTICE, that immediately after the 28th day of May, 1927, the Executor will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claim or claims of which notice shall have been then received and the said Executor will not be liable for the said assets or any part thereof to any person or persons of whose claim or claims he shall not have had notice at the time of such distribution. Dated at Caledonia, this 25th day of April, 1927. GEORGE L. MILLER, Executor.

By Arrell & Arrell, his Solicitors.

**What do you get for the price you pay?**

**ALBERT BOOTH**  
Dealer

Jarvis, Ontario

VALUE is not a matter of price alone. It is simply what you get for the price you pay. Chevrolet is low in price—but not at the expense of quality. It is economical—because it is not cheaply built. It is supreme in value—because it gives more of the things you want for the price you pay. First and always, quality counts with Chevrolet. There is quality in the distinctive Fisher bodies; in the low, low lines; in the rich, lustrous Duco colors; in the smooth, powerful valve-in-head engine; in the scores of refinements, such as air cleaner, oil filter, gas spinner; in the luxury of its appointments and upholstery; in the long, resilient springs; in the easy, three-speed transmission. The Most Beautiful Chevrolet in Chevrolet History is now selling at here and lower prices—the lowest for which Chevrolet has ever been sold in Canada.
