Here and There

From the year 1919 to 1925 there was an increase of \$1,302,772,895 in the total taxable value of realty in Canada, according to the Dominion Bureau of Statistics. The value in the latter year was \$7,331,785,535.

The maple syrup production of the Province of Quebec will be in the neighborhood of 20,000,000 gallons, it has been officially estimated, this being an average output. The season has been much more advanced than in former years.

The pulp newspaper mill of the New Brunswick International Paper Co., Ltd., will be erected in Dalhousie, it is understood, as it is said that satisfactory arrangements resulted at the conference between representatives of the company and the town council.

A school will be established at the Vancouver Shops of the Canadian Pacific Railway for the purpose of instructing the apprentices in mathematics and drawing. It was announced recently by A. Sturrock, assistant superintendent of motive power, western lines.

"Merry Sunshine," an eight year red poll cow, bred and owned by Gowar Brothers, of Kamloops, has recently completed a 365-day R.O.P. test and established a new Canadian record with 13,517 pounds of milk. This record was made under ordinary farm conditions on a ranch nearly 4,000 feet above sea level, the cow staying out of doors day and night.

A cable from London, England, reads: "Following the perfection of a method for the production of artificial wool from pine needles by Italian and German scientists, a British financial and industrial corporation is in touch with Quebec Provincial Agents Office at Quebec city investigating the possibility of establishing such an industry in Quebec Province.

A great future for tobacco growing in Western Ontario is predicted by the Hon. J. S. Martin, Provincial Minister of Agriculture, who states that counties engaged in this industry have demonstrated that they can grow as fine tobacco leaf as Kentucky or Virginia. A number of experts have been engaged, he announced, to visit new growers and give them all information possible.

Supervising 200 Norwegian settlers, including wives and children, from the districts of Nottodden, Heddal and Valdres sections of Norway, Eric Flatebo, chief clerk in the Canadian Pacific Railway offices at Bergen, saw the settlers off for Winnipeg from the Windsor Station, Montreal, fifty of the party are going straight to relatives. Mr. Flatebo estimates that some 600 persons from the districts named will eventually come to Western Canada.

Via Canadian Pacific Railway recently there was forwarded to His Holiness the Pope an album of photographs of the Canadian Rockies offered by E. W. Beatty, Chairman and President of the system, following the suggestion made by a prominent Canadian citizen who had described the Canadian Rockies to His Holiness in an interview some time ago. A wish for a book showing views of the mountains was expressed by the Pope whose wish was conveyed to Mr. Beatty. The album is beautifully bound in white kid.

Follows Route of Empire Founders

1. View of the lock at the "Soo." 2. The S.S. Anishnabek looking through at Sault Ste. Marie. 3. Transferring from train to ship only takes a minute or two at Port McNicoll. 4. Port McNicoll's fine harbour showing grain boats and steamers in the background.

Centuries before the railways, the automobile, the trolley car, or the aeroplane, the Great Lakes were the highways, and canoes the popular vehicles of transportation, exploration and conquest. Leaving Montreal, Quebec and other points, the great La Salle, Marquette, Hennepin, Radisson and Mackenzie, a gallant crew of explorers and adventurers, passed through the Great Lakes on their way to found Illinois, Indiana and other states of the Middle West. La Salle who went from Quebec to the mouth of the Mississippi and paddled his way back, made the Great Lakes his highway. He and his dauntless companions found and lost an empire. The hardships of these early explorers have been done away with in modern travel on the great Lakes

but glamour or their expeditions and the beauties of their route still remain. Aboard one of the Canadian Pacific lake steamers like the Assiniboia or the Kewadin in the heart of the continent, the fresh water sailor leaves Port McNicoll situated on the shores of the Georgian Bay, passes the entire length, through Lake Huron and the famous "Soo" canal and locks and into Lake Superior. The journey requires only two days and is through one of the most picturesque parts of the Dominion. The Port McNicoll-Owen Sound journey, aboard the Manitoba is another delightful trip. The latter port is beautifully situated between two high walls of rock at the southern end of an arm of the Georgian Bay. This is one of the finest harbours of

the Great Lakes. The journey from here to the "Soo" is honest with scenic beauty, along the rocky coast of the Bruce Peninsula that stretches away to the north towards Manitoulin Island. The great cliffs of this peninsula rise up over 100 feet from the deep clear waters of the Georgian Bay. From Fort William, one of the greatest grain centres in the world, the traveller may proceed westward across the prairies. Few transcontinental journeys can offer such a delightful diversion in travel as the Great Lakes trip. The traveller can board the steamers at Port McNicoll, travel one fifth of the way across the continent and then resume his rail journey at the head of the Lakes.
