No More Pretty Shoes for Dorothy

Dorothy peeps shyly at you through a single eye of pretty dark curls. If you are a man, she is hoping against hope that you might be her Daddy, because she needs to come and see her and bring her pretty shoes, but she doesn't come any more.

Dorothy cannot understand why, if you are a lady she knows you can't belong to her because the nurse says her mother died years ago. It's hard for a wee girl of five to understand all this, and why she shouldn't have the joys that other little girls always have, and, above all, why she should be in the tiresome bed so much!

But the kindly doctors and nurses at the Queen Mary Hospital are very patient with helpless little Dorothy and hope to fight off the dreaded consumption and make her sound and well.

Wouldn't you like to help this work? Your gift to the Hospital will be gratefully received. Contributions may be sent to Hon. W. A. Charlton, President, 233 College Street, Toronto 2, Ontario.

GLORIOUS DAYS IN THE LAND OF MAKE-BELIEVE — THE GREAT TOY DISPLAYS

Everything is going beautifully. Good old Santa has never in this district had such a choice or so many dear little children inquiring about him. And they have asked for so many things that he will be very busy from now until Christmas morn. But he just loves the work. He says that the jolliest thing in life is to make other people happy, especially the children. Bring them to see the wonderful Dolls, the things that fly and things that float, and things that run, and things that "work" in the cunningest kind of ways. Toys that teach, toys that amuse, toys that satisfy.

Enjoy Radio as You Never Have Before

You will never be satisfied with radio sets built on ordinary principles after once experiencing the flawless performance of the new Westinghouse Batteryless Sets.

All the scientific resources and engineering skill of the vast Westinghouse organization have been combined to make these sets the greatest achievement in the radio art.

They embody all the latest improvements, including one-dial control, new Oval-Cone loud speaker and one of the greatest achievements in radio history—the new Westinghouse "AC" Radiotrons, which operate directly from the light socket, eliminating the great disadvantages of so called batteryless sets of the past.

The tone quality of these new sets is perfect. Distant stations are brought in loud, clear and without distortion. One dial control makes them as simple to operate as turning on an electric light. Let us give you a demonstration in your home without cost or obligation.
