**Westinghouse Radio**

*All tell you why I'm going to buy a Westinghouse*

"Those new Westinghouse Sets are great! I was over at Bill's last night to hear the radio he's been talking so much about. Oh boy, its some set. There's a such difference between it and an ordinary set as there is between this car and my old bus.

"When you think it over, its just what you'd expect from Westinghouse. They were the pioneers of both Alternating Current and Radio so you'd expect them to build the most advanced models operating on the lighting circuit.

And another thing, Westinghouse have selected the most competent radio merchants in town as Westinghouse Dealers. We will gladly demonstrate the 1928 Westinghouse models and explain the many improvements that make them better.
