Here and There

Living Births in Canada during 1926 totalled 232,205, the birth-rate for the nine provinces being 24.5 per thousand of population. Deaths at all ages numbered 167,215 in the Dominion, a rate of 11.4 per thousand. Excess of births over deaths in the year was 124,987. A total of 68,570 marriages were reported during the year.

The general cool weather for this season of the year in British Columbia and the amount of moisture about has saved a great deal of timber from destruction by fire. So far this year there have been only 216 forest fires in the province, as compared with 570 for the similar period of last year. The present condition of the woods are excellent.

As a sign of agricultural progress in the west and industrial prosperity here, the International Harvester Company, Limited, have just sent two of the largest trainloads of threshers ever shipped to the west over C.P.R. Lines from the east, the first train consisting of 43 cars with 111 threshers and the other of 40 cars containing 165 threshers.

The ratepayers of Victoria have endorsed a by-law providing for civic support of a proposal for the establishment of a British Columbia industry here, by a vote of 2,137 to 663. The city was thereby authorized to guarantee bonds of the concern to the extent of \$200,000 after \$500,000 had been raised by British motion picture distributors and exhibitors.

A thriving new industry in Southern Alberta, which is making progress and is full of promise, is that of the raising of pole ponies. Three ranches are engaged exclusively in this industry and ranchers and farmers are coming increasingly to engage in it as a side line. About five cardinals or one hundred pole ponies leave Southern Alberta annually for the United States.

The Development Branch of the Canadian Pacific Railway in co-operation with Macdonald Agricultural College is conducting experiments on the farm of Donald Fraser at Plaster Rock, N.B., to ascertain whether gypsum, of which there are large deposits, has special value in connection with potato culture. Members of the staff of the college are supervising field tests on the farm.

The itinerary of the party of one hundred British newspaper men who will arrive at Quebec August 12, provides that during the month they are in Canada the Britishers will visit practically every corner of the Dominion and, besides visiting every city of importance, have an opportunity of studying at first-hand Canada's natural resources and investment possibilities. They will travel across Canada and back on Canadian Pacific lines.

Ottawa, Ont. - Canada's total wheat yield for the season 1927 is forecast at 325,075,000 bushels by the Dominion Bureau of Statistics. The estimate for the three Prairie Provinces is 305,062,000 bushels and for the rest of Canada is estimated at 389,758,000 bushels, of which 226,297,000 bushels is assigned to the Prairie Provinces. Barley is estimated at 88,830,000 bushels, of which the Prairie Provinces are expected to furnish 71,724,000 bushels. Rye is given at 12,169,500 bushels, of which 10,664,000 is allotted to the Prairie Provinces. For flaxseed, 5,319,300 bushels is estimated, of which all but 107,000 bushels is allotted for the Prairie Provinces.

AN APPRECIATION

To the Officers of The Walpole Farmers Mutual Fire Insurance Co. Jarvis.
I hereby desire to express my thanks to your company for the promptness in settling in full my claim for loss of my barns and contents. The fire occurred on Tuesday, August 23rd, and I had my check in full on Saturday, August 27th. May the Company still continue to prosper as it has done for the past 60 years.
