Not sick, and not well, either
If people so troubled only knew Warner's Safe Kidney and Liver Remedy

That's the dangerous part of kidney disease—no pain to warn you just that dull feeling of not being just right. "Oh, it will pass in a few days," has been the bitter truth too late to save themselves. Too late! Why have you not yet? But the time to save your health is while you still have it. Cleanse out those brain-dulling poisons from your blood—wake kidneys and liver up to their proper duties. That's what you have them for—keep you healthy. For more than 50 years Warner's Safe Kidney and Liver Remedy has been used by grateful families who have written in to say that it put them back on their feet again. Why have you not tried it? This safe, herbal remedy, so pleasant to take, was originally a doctor's prescription. It is as good today as it ever was. We can do you to visit your druggist for a bottle of Warner's Safe Kidney and Liver Remedy now. Costs little—and health is worth much. Warner's Safe Remedies Company, Toronto, Ontario.

Warner's Safe Kidney and Liver Remedy
A pessimist is a man who judges the unemployment situation by the number of persons who are preparing to run for office this year.
During its lifetime, the oyster produces about 50,000,000 eggs. It's a good thing for quiet seaside resorts that oysters don't cackle.

This Tonic Does More Than Bring Back Health

A safe, powerful alternative is needed regularly by every person who has any manifestation of blood disorder. For only by purifying and toning the blood can good health be restored.
Buckley's TRU-BLOOD is a proven corrective for weak, deficient or impure blood. First successfully used as a doctor's prescription, TRU-BLOOD is highly recommended for the prompt elimination of all skin affections such as pimples, blackheads, blotches, ulcers, rashes, abscesses, eczema, boils, salt rheum and all troubles arising from impoverished or below-par blood.
A characteristic tribute to the benefit of TRU-BLOOD is the following: "I used two bottles of TRU-BLOOD last Spring. It built me up, and gave me new life, and as long as I live I shall never be without it."
TRU-BLOOD is more than a purifier of the blood. Use TRU-BLOOD and skin troubles will disappear. The complexion will become clear, smooth, colorful. Buckley's OINTMENT is a magic aid to TRU-BLOOD in permanently banishing disgusting blemishes. Good druggists everywhere carry both.

New Vegetable Hints

Tender asparagus does not have to be scraped, but the scales on the stem should be removed. Wash in cold water and drain thoroughly. Tie in a bunch, stand up in a tall kettle and fill to within one inch of the tips with boiling water. Cover and cook gently for 15 minutes, leaving the tips to cook in steam. All one teaspoonful of salt, cook another 5 or 10 minutes, depending on the thickness of the asparagus. Lift out, drain, and remove to hot plate. Save the water for soup or sauce.
To vary the flavor of plain boiled greens, cook with a dash of seasonings, such as caraway seeds, fresh or dry chili, ground ginger, celery seed or curry.

Celery is the non-waste vegetable and is not an extravagance even when high priced. Every bit of it can be used; the inner white stalks raw, the larger outer stalks as a cooked vegetable, the leaves can be cooked as greens or, like the root, thrown into soups, stews or sauces to add aromatic flavor. Even the water in which celery is cooked is excellent for stock or sauces.
Water-Cress Dressing:—1 cup French dressing, 5 sprigs minced water-cress, 1 tablespoon chopped olives, 2 tablespoons pearl onions. The cowslip is a common enough swamp and water plant, familiar to lovers of the outdoors. Those who enjoy getting food off the land will appreciate its special qualities.
The young leaves make an excellent salad served with any variety of French dressing. Unlike other wild greens, the cowslip is not suitable for cooking, but the flowers are excellent for flavoring soups and stews. Cowslip buds, when salted and pickled in vinegar, can be served like capers or nasturtium buds.
If dandelions disfigure your garden, cut 'em and eat 'em. This is probably the most common of the edible weeds, flourishing as it does on elegantly manicured lawns as well as in fallow pastures. It is only in recent years that we have admitted the value of the dandelion... for its pleasing flavor, not to mention its low cost. It is now attained the dignity of special cultivation for commercial use, and may be bought in most city markets, spring, summer and fall.
Natural sweetness of peas is developed during cooking by adding a few of the empty pods.
Rarely, however, is one served tomatos in the manner most commended by epicures, which is—scald, peel, chill, slice, sprinkle with salt and pepper.
—From "The Book of Green Vegetables," by Mollie Gold and Eleanor Gilbert.

Among the jurors summoned was a woman who wished to be excused. "Well, madam, why don't you want to serve on this jury?" asked the judge. "I'm opposed to capital punishment." "But this is merely a case in which a wife is suing her husband for an accounting. It seems she gave him a thousand dollars to pay down on a handsome fur coat and he is alleged to have lost the money at poker." The woman juror spoke up promptly: "I'll serve. Maybe I'm wrong about capital punishment."

My little niece is a funny little girl. The other day when she put on her shoes she complained of them hurting her feet. Her mother examined her shoes, and said: "Why, Daphne, you have got them on the wrong feet!" Daphne began to cry. "Well, mamma, they are the only feet I've got," she said.

The Customs House officer sat in the parlor of his snug home, awaiting news of the important event that was taking place in the next room. Suddenly a nurse burst into the room bearing in her arms a small bundle. "It's a boy," she said, "and everything has gone splendidly." "Oh, has it?" replied the officer, absent-mindedly. Then in stern tones he addressed the bundle: "Have you any wines, spirits, perfumes, tobacco, silk, operaglasses, watches...?"

Witticisms are the last things one expects to find in dictionaries. But there is a decided levity about a modern standard work's definition of a sea serpent as "an enormous marine animal of serpent-like form, frequently seen and described by credulous sailors, imaginative landmen, and common liars."

Spain Curb Beggars; Madrid Expects 400
Madrid.—General Martinez Anido, Minister of the Interior and one of the strong men of General Primo de Rivera's semi-military government, is determined to cure the professional mendicancy which shocks visitors to the principle cities of Spain.
More than 400 of these "never-works" have been seized by the Madrid police and sent back to the places of their birth, so that the streets of the capital will be comparatively clear for at least the time they need to find their way back.

A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves Through the Use of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.
It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and rundown organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about and doing my household work left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders.
You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The English Sparrow.
"I understand the mayor of Chicago says every species of bird is welcome in his town as harbingers of spring but one."
"And which one is that?"
"The English sparrow, of course."

Smuts and Status
Saint... John... Telegraph-Journal (Ind.): (When Hertzog recently asserted the right of the Dominion to remain neutral if Britain were involved in war, General Smuts asked: "How can the same King be at war and at peace at the same time in the same Empire?") The King cannot be at war and at peace at the same time in the same Empire. The British family is the world's leading force for peace. It has no aggressive designs. It is the chief pillar of the League of Nations. It will never engage in unjust war. But its defence, should the necessity arise, is and must always be, a matter of common responsibility. General Smuts' question dissipates the fog in which some people seek to envelop an issue about which there should be no manning of doubt. A thing to be avoided in the discussion of Imperial relations is too much talk about rights and too little about duties and obligations.
Five-year-old Joan was at dinner at a neighbor's one day when she was surprised to see the whole family, before eating, saying grace. At last she asked, "What are you doing?" "We are thanking the Lord for giving us this bread," said her hostess. "Don't you give thanks at home?" "Oh, no," answered Joan, "we pay for our bread."
Use Minard's Liniment for Corns.
The Angler—"Didn't have much sport that day. Landed a three-pounder, certainly—but what's a three-pounder?" Bored Listener—"Usually about eight ounces, isn't it?"

Britain Seeks No Advantage in Capital Ships
W. C. Bridgeman Denies It Has Superiority in View, and Regrets "Suspicious"
London.—W. C. Bridgeman, First Lord of the Admiralty, was the chief guest at the annual dinner of the Institution of Naval Architects last night, when he expressed regret that "unfortunate suspicions" should have arisen over the recent British proposal that battleships of the future should be not more than 30,000 tons, their gun calibre not more than 13.5 inches and the life of the ships prolonged. He said that the same proposal made at Geneva last year received a "good deal of sympathy" from Americans and Japanese.
Denying that it was Great Britain's object to secure any advantage in superiority of capital ships which had been settled at the Washington Conference, he declared: "Our intention is merely to arrive at a measure of limitation and economy equally fair to all three countries."
Explaining why the British delegation to the disarmament conference at Geneva raised the question before 1931 when the whole subject of the Washington agreement comes up for review and reconsideration, Mr. Bridgeman concluded: "The reason why we felt it should be raised before then is that if you are to lay down ships in 1931 you require to consider their designs two years beforehand. We have been perfectly frank in stating that we are not attempting to gain any advantage over any other country, and I still hope and firmly believe that we will come to an agreement with the other great naval powers.
"I do not think we lost very much by our failure to agree at Geneva last year. We never quarreled. We left off with mutual respect for one another. We found a great deal of common ground, and we shall look forward with the belief that in the future we will come to an agreement which will be of advantage to all the countries concerned."

A WONDERFUL TRIBUTE
Baby's Own Tablets Declared to be Worth Their Weight in Gold
A mother has only to use Baby's Own Tablets once to be convinced that nothing else can equal them in banishing the ills of her little ones. Once used, always used, as long as there are small children in the home—that is the tribute thousands of mothers pay the Tablets.
Among the many, many mothers who are anxious to tell of their experience with Baby's Own Tablets is Mrs. Griffith, of East Hamilton, Ont., who writes: "Shortly after coming to Canada I began giving the Tablets to my baby boy who was then six weeks old. The result was so pleasing that since that time I have always kept the Tablets in the house. I have two children now and both of them are the picture of health. Baby's Own Tablets are the only medicine they have ever had and I really believe the Tablets to be worth their weight in gold.
Baby's Own Tablets are free from all injurious drugs and can be given to the youngest babe with absolute safety. They are sold by medicine dealers or by mail at 25 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

British Budget Shows Surplus Of \$20,000,000
National Debt Also Reduced Last Year by the Sum of \$69,000,000

London.—Great Britain has reduced its national debt by \$69,000,000, besides balancing its budget. This is evidenced by a Government announcement that the official year ending on Saturday closed with \$24,000,000 surplus. The optimism of the Chancellor of the Exchequer, Winston Churchill, last April in estimating for greatly improved revenues has thus found justification, though his doubtful temporary expedient in exacting 18 months' tax on real estate and 13 months' excise on beer in one year cannot be repeated.
As a whole this forestalled revenue went into the sinking fund. However, confidence prevails in financial circles that the corner is now turned since the heavy cost of introducing the gold standard has been met, and the general strike and coal stoppage have receded into the past. Several facts have now for the first time been brought to light and support this view. One is a report the Ministry of Labor now publishes which shows that of Great Britain's million unemployed, no more than 70,000 have ceased actively to look for work, while the remainder form a fluctuating body in which all the individuals are employed a part of the time.
Another is that the total value of the securities handled on the London Stock Exchange continues to rise, having been higher last month than any time since 1921. The third is that depressed as are conditions in some of the main industries, signs of revival are increasing. In South Wales, for example, where distress has been the greatest, work has been restarted at the Ebb Vale Company's coal pits, which were idle for eight months, also in the Rock Collieries at Glyn Neath, which has been closed since Christmas. Three steel blast furnaces at Swansea, cold for nearly 12 months, also announce their reopening.
