**A BAD HABIT WHICH SHOULD  
 BE STOPPED**

All babies acquire habits very readily, regardless of whether the habits are good or bad. A baby who is rocked to sleep a few times soon refuses to go to sleep without such attention. The "comfort," of all habits, is the most filthy and inexcusable.

No mother would think of exposing her baby to any communicable disease, but she does so if she allows the child to use a "comfort." The "comfort" may fall to the floor or sidewalk, it may be touched by other hands, it may rub against other things, flies may walk over it or, in many other ways it may become soiled with disease germs and carry them into the mouth of the child.

When a child is given the "comfort" to send him to sleep, it generally drops from the mouth when the child is asleep, and frequently it becomes the resting-place for flies which may have come from a filthy place. When the child awakes and cries, the mother rushes to the baby and places this soiled thing in his mouth.

The baby cries for the "comfort" because it has become a habit. If he were never given one, he would never want one. It is not natural for a child to have something in the mouth all the time. Sucking a "comfort" does not soothe the child after a few minutes. It tires him and makes him irritable. Like the constant chewing of gum or sucking a dry pipe, it causes an unnatural flow of saliva. The swallowing of this and the movement of the jaws cause an uncomfortable feeling like a hard lump back of the throat.

Continued use of the "comfort" alters the arch of the mouth and frequently causes projecting upper teeth, with a short, tight upper lip. This often means that the jaws are not of normal shape or appearance, and proper chewing of food is difficult, if not impossible. There is only one place for any and all styles of "comforts"—the fire or the garbage pail, never baby's mouth.

**COUNTY COUNCIL**  
 (Continued from Page 1)

System have been given special attention and we hope to have them back to normal condition in a very short time.

Contracts have been signed for the supplying of stone on the greater part of the metal bases, and we expect to be able to start construction program on May 1st.

Your Committee has given the matter careful consideration and has made changes in the duties of the foreman, which we think will enable them to give the county a better service.

Would recommend that we purchase one-half acre of land adjoining Road No. 5 at the Cranston cut from Miss Janet Cranston for the sum of \$75.00.

**Quebec Annual Folk Song and Handicraft Festival**

1. Photograph from a painting showing a group of epicures as to be described in the "L'Ordre du Bon Temps" at the Quebec Festival. 2. The "Chateau Frontenac," one of the finest hotels in the Dominion, belonging to the chain of the Canadian Pacific Railway.

Announcement of the dates of the second Canadian Folk Song and Handicraft Festival to be held in Quebec this spring, has been made in Montreal by the Canadian Pacific Railway, under whose auspices the event is being promoted. From Thursday, May 24, until Monday, May 29, the ancient city of Quebec will be crowded with music lovers and travellers from all parts who will foregather to witness, take part and compete in the festival, to which famous composers have especially contributed, and in which great conductors, musicians, and singers will appear, beside the French Canadian habitant singer to commemorate whose unique folk music the celebration is being held.

Individuals of international repute associated with the London Conservatory of Music, the Metropolitan Opera of New York, the Paris Opera, the Chicago Grand Opera, the Boston Opera, the Toronto Conservatory of Music, and the Dominion College of Music at Montreal, will be participating in one role or another. Ottawa, Montreal, and Quebec will each contribute singers and musicians to render the attractive chanteys, folk-songs, and music, typical to the French Canadian habitant, upon which the whole musical scheme is based. From a musical viewpoint, the feature of the affair will be the production of the thirteenth century troubadour comic opera, "Le Jeu de Robin et Marion," of Adam de Halle, said to be the first

composition of this nature known in the history of music. This ancient comic opera is, strangely enough, highly relevant to the folk songs and music of the French Canadian habitant of today, as it is incorporated many of the folk ballads of the period and the French Canadian immigrants drew their music and have preserved it, little altered by the passage of time, unaffected by the developments of that music in the old world.

Of equal attraction will be the specially composed ballad opera, "L'Ordre du Bon Temps," based on a society of good cheer founded by Champlain at Port Royal in 1608. There will be many other musical and dance numbers to be produced in the auditorium theatre and at the Chateau Frontenac.

The officials of the National Museum, the National Gallery, and Canadian Archives at Ottawa, have combined to assist the festival in every way and have supplied materials to form part of the exhibit of handicrafts and domestic industries depicting the life of the habitant. These will be elaborated on by a number of skilled crafts-women.

The festival will be of the greatest musical significance and will be contributed to and directed by musicians and connoisseurs of folk songs, and singers of international repute. It will be under the direction of Dr. Marius Barbeau, of the Victoria National Museum at Ottawa, and Mr. Harold Eustace Key, musical director of the Canadian Pacific Railway.
