Assam tea are known by
supers as the finest tea
grown—a fact which explains
why Red Rose Orange Pekoe
has become so deservedly
popular in Canada. For Red
Rose Orange Pekoe is chiefly
composed of Assam tea,
which accounts for its dis-
tinctive quality and value.
Every package guaranteed.

Mice and Turtle Pets

Healthiest Cat and Dog in List of Prize Winners

New York showed what it thought
of its pets when 200 children
brought dogs, cats, rabbits, mice and
a turtle to the pet show held at the
Bellevue-Yorkville Health Centre.

The healthiest pet and the cleanest
cat and dog won prizes for their own-
ers. Ruth Scholtz, who owns Mura-
trope the turtle, felt a little hurt when
Murgatroyd didn't get the prize for
the healthiest pet, and the judges, at
a loss to know how to tell which was
sturdier, a healthy dog or a healthy
turtle, gave her a consolation prize
for the strangest pet.

The other prize-winners were, for
the cleanest dog, Nicholas DeCarlo;
for the cleanest cat, Geraldine Hal-
ford; for the healthiest pet, a cat,
Irene McCormack, and for the best
all-round rabbit, Loretta Burns. The
winners each got a bathing suit, and
every entrant received a pencil box.

The show was a feature of the Bel-
levue-Yorkville health demonstration's
safety and health campaign that is
being conducted through July and
August. Each week the children pre-
sent a stunt which teaches some form
of health or safety lesson. Among
the judges were "Uncle Robert"
Correy, radio entertainer, and Mrs.
George Adams, of the New York
Women's League for Animals. Dr.
Leverett D. Bristol is in charge of
the demonstration.

GOLDEN JUBILEE YEAR

CANADIAN NATIONAL EXHIBITION TORONTO ONTARIO

Aug 24th Sept 8th 1928

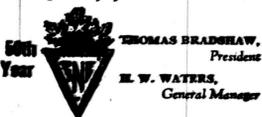

The world's largest spectacle; at-
tracting more people than any fair
or exposition; displaying almost
every known product; costing an-
nually to stage over \$1,000,000;
and representing a land and build-
ing value of \$15,000,000.

At the 1928 Canadian Na-
tional Exhibition, every-
one will witness the most enter-
taining and diversified pro-
gramme of all time to fittingly
mark this 50th Anniversary
year.

Here are a few of the hundreds of fea-
tures: H. M. Royal Air Force Band
(England) and other noted musical
organizations; 1,500 performers on world's
largest stage; Famed 2,200 Voice Ex-
hibition Chorus; First showing 1929 Motor
Cars; First International Air Craft Dis-
play; Exhibits from the world over, and
the outstanding; Sporting Event of the
year—

The Third Wrigley Marathon Swim

for the World Championship, and \$50,000
prize; and an Amateur Sports Programme
including an Olympic.

Canadian Studebaker Reorganized

The new Studebaker Corporation of
Canada, Ltd., recently separated from
the parent company, will be directed
by D. R. Grossman, formerly sales
manager for Studebaker in the Do-
minion. Having been associated with
Studebaker in Canada for the past six
years, Mr. Grossman is well-known to
the Dominion's automotive leaders.

"The motive behind the reorganiza-
tion is to be found in our desire to
build Canadian automobiles for Cana-
dians," says a statement. "The Stude-
baker Corporation of Canada, Ltd., is
Canadian. We will use more and
more of Canada's great supplies of raw
materials. Not only will our consump-
tion of these commodities be in-
creased, but new commodities will be
added to our purchasing agent's order
list."

"The expansion of the Walkerville
plant is a further step towards the
Canadianization of Studebaker in the
Dominion. We will hire more skilled
and more unskilled labor. We hope
to build and sell more automobiles
than we have in the past. Directly,
this plan contributes to greater
Canadian prosperity by reason of in-
creased employment given Canadians
in the Walkerville factories. Indirect-
ly, many others in Canada will benefit
by reason of more extensive pur-

D. R. GROSSMAN

chases of materials and equipment
produced in Canada, to be used in
the Walkerville factories.

"The expansion of our manufactur-
ing program in Canada will also in-
clude a considerable increase in ex-
port shipments from the Walkerville
plants. With the accumulation of
more Canadian element in our Walk-
erville built cars, we will be enabled to
ship automobiles to Great Britain un-
der the preferential tariff, as well as
to New Zealand and certain other
British possessions overseas. On ex-
port shipments from Canada into Brit-
ish possessions giving a preferential
duty on Canadian built cars, owners
in these countries profit directly by
the increase of Canadian element in
the cars.

"This move is a result of Stude-
baker's faith in Canada," said Mr.
Grossman. "We believe there will
be wonderful developments in this
country and through this expan-
sion program, we will naturally be-
come a part of those developments."

Cute in a Baby- Awful at Three —and it's Dangerous

by Ruth Brittain

Thumb sucking does look sweet in a
baby, but it is disgusting in the three-
year-old and sometimes it hangs on
until fifteen or sixteen. The habit
may cause an ill-formed mouth or in-
duce adenoids, and it always inter-
feres with digestion. Pinning the
sleeve over the hand; attaching mit-
tens, or putting on cardboard cuffs,
which prevent bending the arms at
the elbows, are some of the ways to
stop the habit.

Another bad habit—irregularity in
bowel action—is responsible for weak
bowels and constipation in babies.
Give the tiny bowels an opportunity
to act at regular periods each day.
If they don't act at first, a little
Fletcher's Castoria will soon regulate
them. Every mother should keep a
bottle of it handy to use in case of
colic, cholera, diarrhea, gas on stom-
ach and bowels, constipation, loss of
sleep, or when baby is cross and
feverish. Its gentle influence over
baby's system enables him to get full
nourishment from his food, helps him
gain, strengthens his bowels.
Castoria is purely vegetable and
harmless—the recipe is on the wrap-
per. Physicians have prescribed it
for over 50 years. With each pack-
age, you get a valuable book on
Motherhood. Look for Chas. H.
Fletcher's signature on the wrapper
so you'll get the genuine.

A TIRED-OUT FEELING Is a Sure Sign That the Blood is Thin and Watery.

"I am glad to have an opportunity
of testifying to the benefits I de-
rived from the use of Dr. Williams'
Pink Pills," writes Mrs. Lawrence
Kennedy, St. Joseph, N.B. She fur-
ther says: "Some years ago I was
working as a stenographer, and be-
came badly run-down. I always had
a tired-out feeling, had no appetite
and suffered terribly from backache.
Almost every month I had to remain
from the office for a day or two. I
was advised to try Dr. Williams'
Pink Pills, and I have reason to be
glad that I followed this advice. Be-
fore I had been taking the pills very
long I began to feel much better.
Continuing their use my strength
came back, I regained my appetite
and the terrible backache from which
I had suffered disappeared. I have
been married some years now and
have two fine healthy children, a
girl and a boy, and am in the best of
health. All this I owe to Dr. Will-
iams' famous Pink Pills, and I trust
that these few lines may help some
other weak, run-down people."

All weak, run-down people who will
give this blood-building tonic a fair
trial will find through its use new
health and strength. You can get
the pills from any dealer in medicine,
or by mail at 50 cents a box from The
Dr. Williams' Medicine Co., Brock-
ville, Ont.

Hedin Plans Two More Years in Wastes of Asia

Sweden's Foremost Explorer Returns to Stockholm to Replenish His Equip- ment

Stockholm.—After more than a year
and a half of hardships and adven-
tures in the interior of China, Sven
Hedin, Sweden's foremost living ex-
plorer, has just returned to Stockholm
for a brief visit. While in Sweden he
will add more members to his expedi-
tion, purchase new instruments and
a number of motor cars which he has
been commissioned to buy for Govern-
or Yang, of the Mongolian Province
Hsin-tschiang, and also make arrange-
ments for airplanes to carry him fur-
ther into the uncharted wastes of Asia.
Dr. Hedin, who is a member of the
Swedish Academy, is determined to
continue his scientific researches for
another two years. He has left all the
members of his expedition in or about
Urumtchi, the capital of the Province
Hsin-tschiang, and during his absence
the explorations and compiling of data
continue.

Aside from Dr. Hedin, the members
of the party comprise Swedish,
Danish, German, Chinese and Mon-
golian scientists. About 6,177 square
miles, which previously were white
spots on the map, have been carefully
charted and 52,480 feet of film have
been taken. A collection of some 13,
600 numbers, consisting of ancient
arrows, hammers and other parapher-
nalia, has been found.

Due to the friendly assistance of
Governor Yang, the expedition was al-
lowed to proceed uninterrupted.
Yang, said Dr. Hedin, rules his prov-
ince with an autocratic hand and has
managed to stay out of the strife be-
tween the other warring lords. His
regard for the Swedish scientists was
heightened by an operation which Dr.
Hummel, the physician of the party,
performed on him. In Urumtchi a
house was given over to the expedi-
tion to be used as headquarters, and
in many other ways the Mongolian
ruler showed his interest in the ven-
ture.

The success of the expedition is due
to a large extent to F. A. Larsson,
business manager and caravan leader.
Larsson, who is a resident of Mongolia
and for many years has been an ad-
viser to the Chinese Government on
Mongolian affairs, has had conferred
upon him the popular title of "Duke
of Mongolia."

Blondes More Susceptible To Circulation Diseases

London.—Blondes, in London at
least are being pushed aside by
brunettes.

According to London medical ex-
perts, golden-haired beauties will in a
comparatively short time be scarce,
owing to their predisposition to cir-
culation diseases, to which they offer
less resistance than the dark-haired
types.

"The Italians and the Welsh and
races of their type thrive in places
like London, and the fair-haired races
tend to die off," says Dr. C. J.
Thomas, of the London County Coun-
cil medical department, who collected
statistics on the subject.

Dr. T. Jenner Hoskin, heart special-
ist at the Royal Free Hospital, con-
firms this statement in pronouncing
that "rheumatism prefers blondes
and children with blond or red hair
are more prone to rheumatism and
heart trouble than the darker types."

He: "You had beauty and brains
when I married you, Jane." Jane:
"Well, I might have had beauty, John
but I surely didn't have brains."
"What would you do if I knocked
you down?" "I'd take the count."

Canada's Great Use of the Air

Planes Help to Conserve and
Develop Her Vast Na-
tural Reserves

Each year aviation is playing a
larger part in the conservation and
development of natural resources in
Canada. Aerial transport is solving
many problems of forester, geologist
and explorer. The 1928 program of
the Royal Canadian Air Force in civil
operations for Government depart-
ments includes:

Provision of twenty hours flying
time for emergency fire periods in
British Columbia; continuation of the
air patrol in Alberta, intensification
of aerial patrols over 14,500,000 acres
of forest in Saskatchewan, continua-
tion of fire prevention and suppression
covering 40,000,000 acres in Manitoba;
photographic surveys in the Nelson
River watershed in connection with
possible pulp and paper development
and in the Saskatchewan patrol area
for the preparation of maps for the
use of air patrols.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most
dangerous to children. The compli-
cations of that season, which are
cholera infantum, colic, diarrhoea
and dysentery, come on so quickly
that often a little one is beyond aid
before the mother realizes he is ill.
The mother must be on her guard to
prevent these troubles, or if they do
come on suddenly to banish them.
No other medicine is of such aid to
mothers during hot weather as
Baby's Own Tablets. They regulate
the stomach and bowels and are ab-
solutely safe. Sold by medicine deal-
ers or by mail at 35 cents a box
from The Dr. Williams' Medicine Co.,
Brockville, Ont.

Hon. Ian Baird, an Oxford student,
son of Lord Stonehaven, Governor-
General of Australia, who arrived in
Canada a few days ago on the White
Star liner Albatross, to spend his sum-
mer vacation "mucking" in mines at
Amos, P.Q., and Timmins, Ont.

Yankee Explorer—"Do you know,
Pat, that one day in Africa, it was so
hot, that the sun singed the hair off
my head?" Pat—"Begorra, an' that's
nothing! One day in ould Ireland,
it was so hot that we had to feed the
hens on ice-cream to keep them from
laying fried eggs."

Every Home Needs Minard's Liniment
Does a man ever get the last
word? asks a contemporary. Some-
times—in his will.

What many people call indigestion
very often means excess acid in the
stomach. The stomach nerves have
been over-stimulated, and food sours.
The corrective is an alkali, which
neutralizes acids instantly. And the
best alkali known to medical science
is Phillips' Milk of Magnesia. It has
remained the standard with physi-
cians in the 50 years since its in-
vention.

RED ROSE TEA "is good tea"

The Orange Pekoe
is extra good
In clean, bright Aluminum

The farmer is a lucky man;
He sweats upon the land,
And then to pay the mortgage off
He runs a hot dog stand.

And the city man who buys a car
Has a problem on his hands;
For, just to keep the payments up,
He dines at hot dog stands.

And lives of all the hot dog men
Are not all cream and custard;
Just when they start to make some
yen,
Up goes the price of mustard.

Mrs.—I won't be long, dear. I'll be
ready in a minute.
Mr.—Well, for goodness sake do
pick out a minute that's not more
than half an hour away.

Can anyone imagine an experience
more embarrassing than to wake up
and hear burglars singing in the
cellar?

"How much do you think I made
in commissions last week?" said one
drummer to another.
"Half."
"What do you mean by half?"
"Half of what you're going to tell
me," was the knowing reply.

A pretty quotation contributed by
W.E.H.:
"Men are oaks.
Women are vines.
Children are flowers."

So when the ship was sinking, Mrs.
Green declared she was going to stay
by her husband's side?
Yes. She thought it would be just
his luck to be shipwrecked on some
island with a beautiful girl.

MEMORIAM
Take her up carefully,
Lay her to rest,
Tenderly, prayerfully,
God knoweth best.

Angel, most beautiful,
Emblem of love,
Came from the Heavenly
Realms above.

The disrepute into which corsets
have fallen was well illustrated at a
recent college dance.
Speaking of the one girl in the
place who wore 'em, one young man
said: "Well, I'm going over and
dance with Old Ironsides now."

When we write the truth it isn't
so necessary to keep a carbon copy.

Do something every day that will
make your work easier each day
thereafter.

Nerve is what a skinny girl has to
have to abide by present fashions.

Football Coach: "And didja carry
ice like I told ya, last summer?"
Halfback: "No, I gotta better job
selling electric refrigerators."

Lynching has decreased consider-
ably in America, we read. And yet
they still have a number of saxo-
phonists over there who are simply
asking for it.—Punch.

Folks' Ignorance Saddens Bermuda

World Appears to Know Nothing of Island's Ban on Autos

Hamilton, Bermuda.—Local resi-
dents are somewhat downcast over
what they consider the amazing igno-
rance of others regarding Bermuda's
prohibition of motor cars.

Every now and then someone writes
a letter to The Bermuda Trade De-
velopment Board asking about auto-
mobile roads, the cost of gasoline, and
whether cars have to be crated for
shipment to the island paradise.

Bermuda has always forbidden au-
tomobiles, motorcycles, railways, and
street cars, following a very brief test
during which a single automobile
known as "The Scarlet Runner" ap-
peared on the roads and struck con-
sternation into the hearts of the in-
habitants. That was in 1907, and no
cars have been allowed in Bermuda
since then.

The latest evidence of dense igno-
rance concerning Bermuda is revealed
by a letter received by the Chief of
Police of Bermuda offering \$50 re-
ward for recovery of a 1926 Ford tour-
ing car taken by the wife of the man
who wrote the letter.

During the summer, especially,
visitors express themselves as being
pleased with Bermuda's ban on mo-
tors, because at home during the sum-
mer when windows are open, the
noise of passing automobiles is even
more annoying than at other seasons.
Bermuda is enjoying its largest sum-
mer season.

French Airwoman Beats World's Light Plane Record

Paris—Mlle. Maryse Bastie, one of
France's few airwomen, recently beat
the world's distance record for light
craft, flying from Le Bourget to Trop-
tow in Pomerania, a distance of 1,270
kilometers (788.67 miles) in eleven
hours.

Mlle. Bastie had as a passenger
Maurice Drouhin, who will pilot
Cousinet's Rainbow in the proposed
transatlantic flight. He gave Mlle.
Bastie her first lessons in flying.

During the flight she used a Cau-
dron plane with a 40-horsepower
Salmson engine.

The one place where the immortals
are never seen is at the top table.—
Sir James Barrie.

The Purity of Cuticura Makes It Unexcelled For All Toilet Purposes

Keep Handy.

Keep a bottle of Minard's
handy. It is a universal
remedy.

MINARD'S "KING OF PAIN" LINIMENT

HELPED DURING MIDDLE AGE

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont.—"I am willing to
answer letters from other women, to
tell them the benefits of the won-
derful good Lydia
E. Pinkham's Veget-
able Compound. I cannot
did me. I cannot be
thankful enough for
the benefits I re-
ceived during the
Change of Life. I
do housework and
my troubles made
me unfit to work.
A friend advised
me to try the Ve-
getable Compound. I felt great relief at
once, began to regain my appetite, and
my nerves got better. I will recom-
mend your medicine to all with trou-
bles like I had."—Mrs. JOHN BRUNSON,
162 N. Christina St., Sarnia, Ontar'o.

When Pain Comes

One spoonful of this harmless, taste-
less alkali in water will neutralize in-
stantly many times as much acid, and
the symptoms disappear at once. You
will never use crude methods when
once you learn the efficiency of this.
Go get a small bottle to try.

Be sure to get the genuine Phillips'
Milk of Magnesia prescribed by physi-
cians for 50 years in correcting excess
acids. Each bottle contains full direc-
tions—any druggist.
