Here and There

(115)
The Maritime Livestock Market was organized in March, 1927, to market Maritime livestock—chiefly hogs, lambs and some cattle—for 7,000 members of over eighty clubs in the three Maritime Provinces. The report of the first year shows \$552,627 received for 22,417 lambs, 48,818 hogs, 20 calves and 414 cattle.

An extension to the air express services maintained by the Canadian Pacific Express Company has been announced, and a new air line will be opened early in September between New York, via Albany, and Montreal. Lines are already operating between Rimouski, Montreal, Toronto, and Ottawa.

A name of unusual distinction will be added to the Canadian Pacific's Royal Family of ocean steamships when the fourth 20,000-ton vessel of the new "Duchess" class is launched in Scotland. She will be named the "Duchess of York," and will be christened by Her Royal Highness the Duchess of York herself, the ship's name being recently changed from the "Duchess of Cornwall."

Despite the doubts of nervous tourists, the grizzly bear is more attracted by the sight of a huckleberry bush or a stream full of fish than the prospect of a juicy specimen of humanity, and the splendid crop of huckleberries now in British Columbia will probably contribute to a successful hunting season during the month of September and the early part of October.

Port William, Ontario. — Three grain elevator corporations with large interests at the Head of the Lakes are involved in a merger of several powerful Canadian terminal and line elevator companies, the new company being known as the Canadian Consolidated Grain Company. A total of 12,000,000 bushels of elevator capacity will be owned and operated by the new company.

Betty and Buster Bruin, two little black bear cubs, have sailed from Montreal for Italy where they will be presented to the Marquis de Pinedo, the famous Italian round-the-world flier. They are woolly babies, scarcely larger than a child's toy teddy bear, and of an amiable disposition. They were obtained by Mr. E. Roncarelli of Montreal, through the General Tourist Department of the Canadian Pacific Railway, and are similar to the little bears sent over by him a few years ago to Mussolini.

The Dominion Government is going in for pigeon breeding with the object of training these birds for purposes of communication. The Department of National Defence is to have charge of the work. The Civil Service Commission has announced an open competitive examination for a pigeon-loft manager in connection with the civil Government air operations of the Department of National Defence, to organize and administer a pigeon communication service.

The Canada Goose makes remarkable migratory flights but it is not generally known that civilization has so far effected his habits that sometimes he travels by railway. A pair of wild geese enjoying this modern luxury passed through the Windsor Station, Montreal, under the proverbial wing of the Canadian Pacific Express in a specially constructed crate. There are a number of bird sanctuaries throughout Canada and the United States where piloned geese are kept to reassure their comrades that all is safe and secure for them to stop and rest on their flights north and south.

Norfolk County Fair, Simcoe, recognized as giving the most for the money of any County Fair in Ontario.

THE JARVIS RECORD, JARVIS

Three Attractive Features

The annual riding and camping expedition of the Trail Riders of the Canadian Rockies has many attractive features, but at the top of the list were undoubtedly the three charming maidens photographed above who took part in a 250 mile ride, joining up with the main group that visited the Lake of the Hanging Glacier. They are Kitty Miskey, Betty McCullough and Betty Hall, all of Philadelphia.
