Take a Ride and you will know

ONE of the most spectacular achievements in automotive history is the manner in which today's "Bigger and Better" Chevrolet is increasing its margin of leadership as the world's largest builder of automobiles.
Come, take a ride! Learn the reasons why people prefer Chevrolet.
Know Chevrolet performance! Wherever hills are steepest, the fame of the Chevrolet motor is greatest—because it is built on the valve-in-head principle, which provides all the power advantages of overhead direct firing.
Chevrolet's delightful smoothness is achieved by the use of invar-strut alloy pistons, and by the accurate balancing of reciprocating parts.
Chevrolet flashes out and away when you open the throttle because it offers the advantages of light invar-strut pistons, large valves, and carburetor equipped with an acceleration well. Come, take a ride—today!
