### Here and There

(179)  
The Canadian Pacific has decided on a new ferry service between Steveston, on the mainland, and Sydney, on Vancouver Island, according to Captain C. D. Nereutos, manager of the B. C. Coast Steamship Service. The new service will begin early next summer, being inspired by the increased demand for short water hauls.

Tourists to Victoria, the capital of British Columbia, this year numbered 370,000, according to the Victoria Publicity Bureau. Tourist travel from Canadian points and from the west coast of the United States to Vancouver Island and Victoria, via the U. P. R. and the coastal steamship service, show an increase over last year.

New York newspaper cameramen want cow-boys to do their stuff on the parapets of sky scrapers and are not content with ordinary portraits, but the somewhat bitter observation of Guy Wadick, manager of the Calgary Stampede, who returned to Canada recently from participating in Tex Rickard's radio in Madison Square Garden, New York. "They wanted real action for photographs," he said, "and we had to lasso policemen from the top of buses on Fifth Avenue to please them."

Grain storage facilities of the harbor of Vancouver, B.C., which now exceed 10,000,000 bushels, will be largely increased next season, it is believed, in view of the fact that storage bins are already nearly full and the westward flow of grain may have to be reduced in consequence. It is being reported currently that the Alberta Wheat Pool, the Midland-Pacific Terminals and other groups will add storage capacity to existing terminal houses.

Over 175,000 trees have been planted along the main highways of the province of Quebec during the past two years by the Roads Department, in following out its embellishment scheme, which includes cooperation from residents along the roads. "Since the beginning of the season," states an official bulletin, "the Minister of Roads has been insisting on the importance of beautifying roadsides. Tourists can now travel throughout the province on modern and perfectly maintained roads."
