THE BUSY STORE JARVIS, ONT.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN.

THE OPEN-FACED SNEEZER

We read almost daily in the press
the sad results of carelessness of pe-
destrians and motorists, but we feel
dom, if ever, read of the sad results
of the carelessness of "open-faced"
sneezers.

Nevertheless, the "open-faced"
sneezers are more dangerous than the
careless motorist. A person is guilty
of criminal negligence who is care-
less and lacks consideration for others;
who, without any thought,
sneezes, showering particles of ma-
terial from his nose and throat all
around him.

A man who strikes another is guilty
of assault. Public opinion, as ex-
pressed in the law, does not allow
of such assaults, and requires that
the person who commits one be pun-
ished. A far more dangerous as-
sault is committed by the care-
less sneezer. Public opinion should re-
cognize this and stop it.

Disease germs pass out in the
secretions of the nose and mouth.
A sneeze casts a germ-laden spray
for ten feet. If the sneezer covers
his nose and mouth with a handker-
chief, the danger is practically ended.
If the desire to sneeze is too sudden
to allow of using the handkerchief,
the head can at least be lowered and
the spray directed to the floor, not
into other people's faces.

In addition to those actually ill,
many persons carry disease germs
in their nose and throat. People
with colds continue to go about their
business. For these reasons, the
sneeze may be the means of spread-
ing disease, and, for these reasons
also, an end should be put to the
"open-faced" sneezer.

Questions concerning Health, ad-
dressed to the Canadian Medical As-
sociation, 184 College St., Toronto,
will be answered. Questions as to
diagnosis and treatment will not be
answered.

EDUCATIONAL TOUR (Continued from Page 1)

a dairy within the plant. The en-
gines that run the machinery are
necessarily large and strong. We
watched them in action a few mo-
ments, before leaving for a tour of
the Stock Yards.

Owing to the mild weather the
Stock Yards were not the most pleas-
ant place for an outing. This was
felt most keenly by those who left
rubbers and overshoes at the start-
ing point or on the train, believing
that anywhere in the city one could
walk on dry sidewalks. When one
knows that there is an average con-
sumption of 150 tons of hay a week,
you get an idea of the amount of
live stock that are directed into these
yards. Hogs, sheep, bawling calves
and mature cattle stared at us as
we marched through. After passing
through the horse stables we were
addressed for a few minutes by an
official of the Union Stock Yards. He
explained the value of them, as well
as the importance of the commission
men, who do practically all of the
buying and selling.

After this we returned to Swift's,
where we were their guests at a
splendid dinner. We heartily enjoyed
this as we were very hungry after
our miles of walking. They placed
a piano at our disposal, players were
recruited from the boys, and, bot-
before and after we dined, lusty
voices joined with the piano in mak-
ing the dining hall ring with music.

We boarded the street cars again
and were taken to the City Dairy.
Here we were given a short lecture
on the purifying of dairy products.
Then we were led through and saw
the milk being put through the pro-
cesses and bottled. Before leaving
we were treated to ice cream and
judging by the jam to get to the
counter, this part was most pleasing.

From the City Dairy we walked
to the Parliament Buildings. Here
the Economics classes joined us and
filled the government chairs; the boys
took the opposition. Of course, these
would not hold all and when all were
seated, little space was left in the
galleries. Here we were addressed
by several well known figures, in-
cluding the Hon. John S. Martin, Min-
ister of Agriculture. He stressed the
importance of education such as we
were getting at these Short Courses,
and said that in the past boys and
girls were educated too much for the
professions and too little for the
farms. We were all impressed by
the strength and grandeur of the
Parliament Buildings and considered
a visit to them, a visit worth while.

Sooner than we desired, it was an-
nounced that the special street cars

Here and There

Winnipeg.—The British boy im-
migration scheme has been adopted
by the Manitoba Provincial Govern-
ment, and about fifty boys will be
brought here this year for place-
ment on farms in the province. Hon.
A. Prefontaine, Minister of immi-
gration, announced. First, the boys
will be placed at the Manitoba
Agriculture College for preliminary
training in farm work.

Calgary.—Two commercial air-
plane transport projects are being
developed in Calgary. One calls
for the use of airplanes carrying
twelve persons each, to be used prin-
cipally for passenger, freight and
mail traffic between Calgary and
Edmonton; the other calls for lighter
machines, two or three passengers,
for Calgary-Edmonton and mountain
flight purposes.

All the way from Camrose, Alta.,
to Glasgow, Scotland, unaccompan-
ied, a distance of approximately
5,000 miles in the record of Donald
James Campbell, nine years of age.
He took the All-Red route of the
C.P.R. across the Dominion to Saint
John, where he embarked on the
liner Montclare bound for Glasgow.
He is visiting his aunt, who lives in
Busby, Glasgow.

All previous records in connection
with the westbound movement of
grain to Vancouver over Canadian
Pacific Railway lines were broken
during the first two weeks in Janu-
ary, according to E. Cotterell, super-
intendent of transportation, west-
ern lines of the company. Deliver-
ies at Vancouver by the Canadian
Pacific during the fortnight in ques-
tion totalled approximately 22,500,
600 bushels of grain.

Calgary.—Farm land values in
Southern Alberta are tending to be-
come firm as the result of the series
of good crops, and more inquiries for
farm acreage have been received in
the last few months, according to
real estate men, than in any similar
period in the past five or six years.
Farms offered for sale last spring
at \$15 per acre and bringing no of-
fers are selling now for from \$20 to
\$25 per acre. The demand for farms
both for purchase and rental is de-
cidedly strong.

In recognition of the fine work
by officers of the Canadian Pacific
Railway and the Canadian National
during the last summer tour of the
second triennial Empire Mining and
Metallurgical Congress, presenta-
tions of gold and enamel cuff links
were made recently, to fifteen em-
ployees of both companies, at a
dinner held in Montreal. E. W.
Beatty, president of the C.P.R. and
Sir Henry Thornton of the C.N.R.,
were both present.

Snowshoe week in Quebec got
off to a good start when several
thousand members of the Raquette
Clubs paraded the streets of the old
city and later some 1,300 snow-
shoers in full winter festival cos-
tume made an attack on the walls
defended by the garrison and illu-
minated by a brilliant fireworks
display. The chief center of inter-
est there is the International Dog
Derby, which is to be staged shortly
and for this, visitors from the entire
Dominion and the United States are
flocking to Quebec, taking the
Chateau Frontenac to its full
capacity.

we were waiting to carry us to Sun-
side Station. Soon after reaching it
we were on our way. But we did
not go directly home. We stopped
at Hamilton and had supper at the
Royal Connaught hotel.

Complimentary tickets had been
given us by the management of the
Pantages Theatre and these furnish-
ed us with a pleasant way to bring
to a close a perfect day. We arrived
in Jarvis shortly before midnight.

At home, we have memories of
rushes for street cars, all trying to
get on at once; class yells, each coun-
ty trying to outdo the other; gay,
yelling lads rushing across busy
streets, apparently forgetting traffic.
We had a wonderful time, and a won-
derful education. We saw what hap-
pens to our livestock after they reach
a big centre. We saw our city coun-
sins at work. And that is a good
thing. Too often we think that the
fellow in the city is having an easy
time, and knowing what we do, will
mean a better understanding, and a
friendlier feeling between city and
country. We were pleased with what
we saw, but, we came home more
contented than ever with our farms
and our country life.

This trip to Toronto, this educa-
tional tour, is truly a very important
part of our Three Months' Course.

MacLean's Magazine

Twice a month—24 issues a year.
\$2.00 for 1 year
\$5.00 for 3 years

In 1927-8 the editorial plans for
MacLean's includes the printing of

A Real Game of Patience

Have you ever played a game called
"Patience"? It whittles away an idle
hour very pleasantly and, of course,
you can throw down the cards and
say "I may time you please."
There is a place, however, where
you play another kind of "Patience."
You can't leave off when they wish.
George is at it—he is an inmate of
the Toronto Hospital for Consump-
tives at Weston—has been there for
three years now. For a chap who
used to lead an active outdoor life
this is hard. A few months ago, his
wife and her mother died leaving his
little five-year-old son to the care of
relatives.
How George does wish he could get
his health back again so that he
can look after his boy and his wife
and so on. But he can't. He has
wished—and so on. He has wished
and so on. He has wished and so on.
Wouldn't it be a help to the
kind of work that our subscrip-
tion to the "Patience" is a help to
the kind of work that our subscrip-
tion to the "Patience" is a help to
the kind of work that our subscrip-
tion to the "Patience" is a help to

CANADIAN HOMES AND GARDENS

The finest magazine ever published
in Canada
\$3.00 for 1 year—\$5.00 for
2 years

For Lovers of Homes and Gardens
Readers of Canadian Homes and
Gardens, indeed, are constantly ex-
pressing appreciation of our pic-
tured and storied pages; it has sur-
prised and pleased them to find so
broad a development where the home
life of the country is concerned.
We are continually receiving let-
ters which recognize the service that
Canadian Homes and Gardens ex-
tends; warm appreciation of our
helpful inspiration in the creation
and building of homes, in the de-
velopment of the garden charming.
Should be on every Canadian library
table.
