DOMINION DAY

In every country there is one national or patriotic holiday that commands universal observance. Usually that day commemorates some great turning point in the nation's history; some crisis passed safely through.

First among the national holidays of Canada is Dominion Day. It is symbolical of the most eventful day in the Dominion's history. To every true Canadian it is more than just another holiday.

July 1st, 1928, ends the sixty-first year that has elapsed since the formation of the Dominion of Canada was proclaimed, and the sixty-first year of uninterrupted Canadian economic growth and political stability.

The British North American act of 1867 that brought into being the Canadian Federation proved to be the open sesame that admitted the provinces to the more than six decades of national achievement since elapsed.

Politically and economically, Dominion Day is as significant to Canadians as Independence Day to the people of the United States and the anniversaries of the French, German and Russian revolutions to the people of those nations. The union of the provinces was as necessary to the development of Canada as the union of the states of the United States was to the growth of that nation.

Remember Dominion Day!

SUNSHINE

The Boy Scouts, Camp Fire girls, and other exponents of the outdoors are enjoying benefits of life in the open. They see the canyons of the world in a new light and understand nature better. They meet friends in the same cause, swap stories and form congenial companionships. Every student of the outdoors gets new object lessons, makes new resolves and forms new habits of character with the day of sunshine.

Sunshine is the test of summer life. It ripens the grain and fruit and gives strength to the camper. All nature has a smiling face. The sun causes the plants to grow, the flowers to open and the fruits to mature. Sunshine invades youth to get out, amid the fields and forests, drink in the pure air and enjoy the healthfulness of exercise in the open.

There are profits in sunshine that one does not always reckon on when planning an outing in the open. It creates beauty and attractiveness and the eye adds to efficiency and usefulness. It helps in fitting one for future work and inculcates a desire for keeping young in order to continue enjoying the playfields of youth. Yes, there are countless benefits to be derived from mingling with the outdoors. The sun paints smiles on the cheeks of humanity in uncreasable lines.

ECONOMICAL ADVERTISING

Competition for business is keen and likely to remain so. This year and the years following are a time to buy advertising economically, to match in advertising the increased efficiencies of production.

Newspaper advertising is low-cost, productive, localized advertising. It is the logical aid of business at a time when volume is large, when hand-to-mouth buying puts a premium upon flexibility and control. Newspaper advertising permits more spread because it has four-wheel tracks.

Newspaper advertising can be focused without waste upon the markets of the greatest buying nation on earth. It reaches the greatest number of people and its seed is sown in fertile soil. That is, the magnificent flying newspaper advertising space

knows it is covering his trade area and reaching the maximum number of old and prospective customers in that territory.

The Record is leader in this rich market for advertised goods. Readers look to it for shopping information and news of the commercial world, and its advertisers look to it to apprise the public of shopping advantages and opportunities they offer.

Newspaper advertising, and newspaper advertising alone, can sell everything from patent medicine to automobiles. It has done it, is doing it and will continue to do it.

RECORD RAMBLINGS

In this age, a wise chicken doesn't cross the road.

A grade crossing just will not stand for being double crossed.

The nice thing about not getting what you want is you still think you want it.

The more you live as if you were the only person in the world the more you are out of it.

American currency is in demand in continental Europe. In that respect Europe is quite American.

Some people marry for better or worse while others marry so they can get some sleep.

Even if a loaded truck hasn't the right of way never knock it off the road with a light car.

The lengths of a mile vary in different countries, and also in different means of transportation.

The trouble with asking questions and learning is everybody looks as if you were so ignorant.

There are so many people who really need sympathy it just isn't right to waste any on yourself.

Some men won't buy labor saving devices for the home because they think they married one.

A good doctor has to know almost as much about medicine as he knows about human nature.

JULY ROD AND GUN AND CANADIAN SILVER FOX NEWS

A pleasantly varied bill of fare dealing with some more unusual phases of life in Canada's outdoors features the July issue of "Rod and Gun and Canadian Silver Fox News" which has just been published. While Ozark Ripley contributes one of his splendid fishing stories, Bonnycastle Dale, in view of the recent discussion, this month deals with natural phenomena in Canada which have been mistaken for the fabled sea serpents.

Robert James continues his interesting series of "Tales from the Wardroom Mess" with sketches of life in the north and the Swampy Cree. Other articles deal with many subjects from song birds to wild cats and jack rabbits and fish, dogs and guns. The "Canadian Silver Fox News" section, capably edited by J. R. Barr, contains a usual quantity of interesting and instructive articles relative to the industry.

"Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor, Ltd., Woodstock, Ont.
