**NOTICE TO CREDITORS**  
IN THE MATTER OF THE ESTATE  
of William Henry Brennan, late  
of the Township of Walpole, in the  
County of Haldimand, Farm-  
er, deceased.

NOTICE is hereby given in pursu-  
ance of R.S.O., 1927, Chapter 150,  
that all creditors and others having  
claim or claims against the estate of  
the said William Brennan, deceased,  
who died on or about the 21st June,  
1916, are required to deliver or send  
prepaid to Arrell & Arrell, Caledonia,  
Ont., the solicitors for the Adminis-  
tratrix, on or before the 7th July,  
1928, their names and addresses and  
a full statement of particulars of  
their claim or claims and the nature  
of the security, if any, held by them.

AND FURTHER TAKE NOTICE,  
that immediately after the said 7th  
day of July, 1928, the Administratrix  
will proceed to distribute the assets  
of the said deceased among the par-  
ties entitled thereto having regard  
only to the claim or claims of which  
notice have been then received, and  
the said Administratrix will not be  
liable for the said assets or any part  
thereof to any person or persons of  
whose claim or claims he shall not  
have had notice at the time of such  
distribution.

DATED at Caledonia, this 5th day  
of June, A.D. 1928.  
JESSIE JEANNETTE BRENNAN,  
Administratrix.  
By Arrell & Arrell,  
Her Solicitors.

**MacLean's Magazine**  
Twice a month—24 issues a year.  
\$2.00 for 1 year  
\$5.00 for 3 years

In 1927-8 the editorial plans for  
MacLean's includes the printing of  
five booklength novels, ten novel-  
ettes, 100 short stories, 250  
articles of Canadian National inter-  
est.  
In short, approximately, 355 main  
features.  
Approximately 300 that is to say,  
30 per cent. of the editorial content  
of MacLean's Magazine, is of  
material which is contributed by Cana-  
dians.  
This is a big buy for only \$2.00 for  
one year.  
Send your orders to  
THE JARVIS RECORD, JARVIS

**FERTILIZER NOTES**

We believe it interesting to you  
that Scottish Special Fertilizers, af-  
ter only seven years use in Ontario,  
have achieved such marked success,  
that the Ontario farmer has uncon-  
sciously proven not only to us, but  
also to himself, that he required a  
quality product in a commercial fer-  
tilizer. In other words, he knows a  
square deal when he gets one, and  
thus his returning each season, makes  
possible our policy practised in the  
Old Country for over one hundred  
years. Namely, of mixing, curing,  
maturing and analysing each ton un-  
der the supervision of our chemist,  
for months before shipping.

In case you are ready to buy be-  
fore called upon, it will put you un-  
der no obligation to call me at 3-33  
Jarvis, Walter H. Hill, Agent.

Over 700,000 school children of  
Canada have received invitations to  
attend the Canadian National Exhi-  
bition as guests of the management  
on Young Canada's Day.

**HEALTH SERVICE**  
of the  
**CANADIAN MEDICAL ASS'N.**

**SCARLET FEVER ANTITOXIN**

During the past few years there  
was discovered a scarlet fever anti-  
toxin which gives the same satisfac-  
tory results in the treatment of scar-  
let fever as have been secured in the  
treatment of diphtheria with diph-  
theria antitoxin.

Scarlet fever is caused by a cer-  
tain disease germ which gives off a  
poison or toxin. It is this toxin  
which, in some cases, kills, and which  
in all cases does more or less damage  
to the various organs of the body.

The scarlet fever antitoxin counter-  
acts the toxin. Given early and in  
sufficient quantity it not only cures  
but prevents the damage which may  
be so serious.

Those who are responsible for the

care of children should appreciate  
that the life of the child, when at-  
tacked by sickness, may depend upon  
prompt treatment. Certainly, in two  
diseases, scarlet fever and diphtheria,  
every hour's delay endangers the life  
of the child.

In Canada there were 362 deaths  
from scarlet fever during 1926. This  
loss of human life is, of course, seri-  
ous. In addition, there is a much  
larger number who recovered, some  
of whom are more or less perma-  
nently damaged.

Scarlet fever antitoxin, like diph-  
theria antitoxin, should be made free-  
ly and readily available throughout  
Canada for the saving and conserva-  
tion of human life.

Questions concerning Health, ad-  
dressed to the Canadian Medical As-  
sociation, 184 College St., Toronto,  
will be answered. Questions as to  
diagnosis and treatment will not be  
answered.

**LOCAL AND GENERAL**  
(Continued from Page 1)

Rowan; Rev. and Mrs. W. T. Brown,  
Buffalo, N.Y.; Mr. D. Duff, Cayuga;  
Dr. Fred Williamson and Mrs. Walter  
Bates of Hamilton.

charge of the Girls School-Home in  
Battleford, Sask., under the auspices  
of the Woman's Missionary Society  
of the United Church of Canada. This  
school-home consists of 45 girls or  
young women, over which Miss Brand  
presides.

Monster Garden Party in the  
evening of July 2nd at Caledonia. Ye  
Old Village Quartette of Toronto,  
who have appeared in front of the  
Grand Stand at the Canadian Nation-  
al Exhibition six years in succession,  
before 600,000 people, will supply the  
program. The associating artists are  
Miss Margaret Smuck Elocutionist;  
Fred Alexander, Concertmaster; Harry  
Bennett, Comedian; Ruthven Mac-  
Donald, Humorist.

stock, Ont.

**Mountain Resort Acquires New Charms**

1—Alone in its world is the Banff Springs Hotel. 2—An interior view of the new swimming pool built in the hotel.

Acknowledged by the most dis-  
tinguished as the finest resort  
hotel on the American continent  
the Banff Springs Hotel, opened  
by the Canadian Pacific Railway  
Company on May 15, inaugurates  
a new era for visitors to the Rocky  
Mountains. This internationally  
famous center has been in process  
of rebuilding during the past two  
winter seasons, and now stands  
complete, magnificent as to con-  
struction and furnishings, and  
beyond comparison to beauty of  
surroundings.

The Banff Springs Hotel is so  
constructed as to blend, in the  
beauty of its architecture, with the  
newly opened peaks of the mountain  
scenery. Built of native stone  
carried from the base of Mount  
Rundle and trimmed with Tyndal  
stone from Manitoba the building  
itself, complies with all the tenets  
of dignity and good taste.

The Banff Springs provides  
accommodation for 1100 guests, and  
in addition to a large number of  
suites of marked beauty and com-  
fort. The layout of the public  
rooms and lounges has been care-  
fully thought out, and these rooms  
are especially appealing in point of  
design and richness of furnishings.  
The main lounges are things of  
beauty in themselves, and the  
view, down the valley of the Bow

River, is alone worth a trip to  
Banff.

The building of this great hotel  
or rather the rebuilding, has been  
going forward for several years,  
but the construction work has  
not interfered with the comfort of  
the summer guests. The work has  
been carried on during the winter  
months. Enormous wooden shells  
were erected and heated through-  
out with steam, and the work done  
out with steam, and the work done  
with the same ease as if at the  
height of summer. It is interest-  
ing to note in this connection that  
this system of construction in-  
volved a monthly consumption of  
coal of more than 700 tons.

**British Columbia's Mineral Wealth Revives**

1. The colossal smelter at Trail, B.C., the home of the Consolidated Mining & Smelting Company.  
2. Mining class in Vancouver. Note the women prospectors.  
3. A typical mining scene at the 400 feet level.

The old mining days of British  
Columbia, that were as rich  
in output as in romance, are be-  
ing revived. There is a new re-  
cord in mineral production in  
this most highly mineralized area  
on the North American con-  
tinent, in which every conceivable  
mineral is found. In all phases  
of mining—prospecting, develop-  
ment and production; lode  
mining, placer-mining, and coal-  
mining.—the current year is  
witnessing a healthy and vigor-  
ous activity.

The largest increases recorded  
are in lead and zinc, and the pro-  
vince possesses the second great-  
est lead-zinc mine in the world.  
Copper, too, shows an increased  
production, while the every day  
progress of that great company

the Consolidated Mining and  
Smelting Company in Trail, B.C.,  
reads more like a wonderful ro-  
mance than a reality.

A most significant feature of  
the present activity in mining is  
the way in which many partially  
developed properties and also  
prospects which have been lying  
dormant are now being develop-  
ed. Substantial progress has  
been made in building main  
trunk motor roads through the  
province, while material, aids  
are being given in the working  
of mineral properties by assist-  
ing in the construction of branch  
roads to them. New trails are  
also continually being built to  
open up newly discovered min-  
eralized areas for the prospector.  
The British Columbia Chamber  
of Mines has been promoting the

welfare of the mining industry  
for the last thirteen years. The  
Chamber has on exhibition an in-  
teresting collection of the great  
variety of minerals mined in the  
province. There is also co-oper-  
ation with the various prospec-  
tors' associations of British Col-  
umbia.

Many towns of the province  
have branch chambers of mines  
and the classes in mineralogy  
and geology as well as the min-  
ing lectures have been largely  
attended. It is of interest to  
learn that there are a few  
women prospectors attending  
these lectures as will be seen  
from the picture. Research  
work, too, with regard to mineral  
deposits is carried on continu-  
ously by the development branch  
of the Canadian Pacific Railway.
