### Here and There

**(23)** Work on the Royal York, new hotel of the Canadian Pacific Railway in Toronto, is ten days ahead of schedule and there is now every probability that it will be completed by May 1, next year. It will tower 325 feet above the sidewalk, being the tallest building in the British Empire.

A. Allerton has been appointed general manager of hotels and bungalow camps east of Fort William, operated by the Canadian Pacific Railway; and H. F. Mathews, general manager of hotels and bungalow camps from Fort William to the Pacific. The appointments were consequent on the death of C. E. E. Usher, late general passenger traffic manager of the railway.

**Palle Hold.** 15-year-old Danish boy, who is travelling round the world in 46 days, passed through Montreal and the east of Canada recently on his way to Vancouver, whence he will sail by Canadian Pacific All-Red route to Yokohama. The exploit is in commemoration of the hundredth anniversary of the birth of Jules Verne, whose book "Round the World in 80 Days" has always been a favorite with boys.

**Fort William.** Elevator capacity at Fort William will probably total 100,000,000 bushels by 1920. Present storage capacity of the twin cities is recorded as 72,540,000 bushels and between 3,000,000 and 10,000,000 bushels will be added before the 1923 crop is garnered. Expansion in the following two years will take about 20,000,000 bushels, one of the largest terminal building projects either in the history of the lake-head ports or any of the other centres of the continent.

**Winnipeg.**—So many applications have been received from farmers in Manitoba to engage the services of "maths who are being sent out from Great Britain under the Boy's Progress scheme, that the Provincial Government has requested the authorities to increase the number from 50 to 100. Hon. Albert Prefontaine, Minister of Agriculture, stated that 175 farmers have filed applications for boy help. It is expected that the first batch of youthful immigrants will reach Manitoba late in March.

Substantial reductions in express charges on packages up to 15 lbs. in weight originating in Europe and with Canadian destination have been announced by the Canadian Pacific and Canadian National Express companies. These cuts run as high as \$1.77 and for the purpose of the change Canada has been divided into three zones, Maritime Provinces and Quebec; Ontario and Prairie Provinces and British Columbia. Within these zones charges are the same no matter how widely separated points within them may be.

**Wetaskiwin.**—Wetaskiwin district has the distinction of being the home of a Shorthorn cow which holds the record for all Canada in the production of milk and butterfat as a three-year-old. She is owned by J. O. Harvey in the northwestern part of the city, and a letter from Ottawa advises that the production of this cow has never been equalled in Canada. Gladys No. 20699 produced 10,404 lbs. of milk and 509 lbs. of butter fat in a test extending over 305 days. She is now undergoing her test as a four-year-old and is averaging about 88 lbs. of milk a day.

### COMMITTEE FOR ERADICATION FOR BOVINE TB MEETS

A meeting of the Niagara Peninsula Restricted Area Committee for the eradication of bovine tuberculosis was held in the county buildings of Welland on Thursday last with a good attendance of representatives from Welland, Lincoln, Wentworth and Haldimand counties. A campaign to make this a free area is now in full swing and the canvass during April and May is expected to be successful. This will be a great advantage to farmers and stock owners in this district and should receive full support. Testing will commence in June.

### DIRIGIBLES THE AIR LINERS

Dirigibles again are coming into public notice. The air followers are beginning to realize the truth in the statement that the bigger you make an airplane the less efficient it is; while the larger you make dirigible the more efficient it becomes. Dirigibles are the ocean liners and trains of the air. Airplanes are the motor cars and trucks. Twenty years from now both will be commonplace.

### NEWS ITEM

A large number of the crowd were perfectly camouflaged against the wall, which was also plastered.

### Here and There

**(22)** Forty-five years of faithful service to the Canadian Pacific Railway were honored recently when George A. Fowler, former lumber agent of the company, was presented by George Stephen, freight traffic manager, with a purse of gold, contributed by Mr. Fowler's colleagues in the railway's freight traffic offices east of Chicago in the United States and east of Fort William in Canada.

**Fergus.**—A special train of 35 cars left for Vancouver and points en route the other day with over 11,000 consignments of washing machines and barn equipment. This trainload, the largest of its kind ever to originate in Canada, is from a Fergus firm and was handled by the Canadian Pacific Railway as a special train, stopping at Fort William, Winnipeg, Saskatoon, Calgary, Edmonton and other centres. Nearly all the consignments were for rural communities.

Immigrants are beginning to pour through the port of Saint John and Montreal en route to Ontario and the West. With the arrival of Canadian Pacific liners Montpelage and Montclair recently, in the neighborhood of 600 settlers of the best type have been distributed. Among these were British farm laborers going to selected farms under the scheme of the Canada Colonization Association, and many more will be coming in during the next few months.

**Toronto.**—In accordance with his promise to Western Ontario tobacco growers, Hon. W. R. Motherwell has appointed a commission to investigate all phases of the tobacco-growing industry, for which two of the commissioners have already been named. The probe will extend to every phase of the industry, from seedling to marketing, and one of the most important features will be the effort to ascertain the best method of operating a proposed co-operative marketing pool.

**Port Arthur.**—Eventually Canada will produce a 1,000,000,000 bushel crop of wheat and will have no difficulty in finding a market for it, predicted Hon. T. A. Crerar, President and General Manager of the United Grain Growers Limited, and formerly Minister of Agriculture for the Dominion. Referring to the development of Western Canada, Mr. Crerar said there was no country in the world where so great a development had taken place in the past few years and there was no country having such great possibilities.

In order to meet the increasing popularity of the Canadian Rockies among tourists, and also to aid in developing trans-continental travel, the Canadian Pacific Railway will run a quintette of trains across the Dominion from Montreal, Toronto and Chicago to the Rockies, Vancouver and Victoria this coming summer. These trains will be "The Trans-Canada Limited," "The Imperial," the Toronto-Vancouver Express, and "The Mountaineer" and "Soo-Pacific Express" from Chicago. The Trans-Canada and the Mountaineer will be all-sleeping-car trains.

**Vancouver.**—"Maizie," the famous white Leghorn hen owned by the University of British Columbia farm, officially known as Hen No. 6, the world's champion layer with 361 eggs in a year, is proving a substantial revenue producer for the University of British Columbia. Last year the sale of pedigreed poultry stock from Maizie returned to the University \$2,225. Two of her cockerels fetched \$500 each when sold to Ohio poultry raisers, while another cockerel sold in New Jersey for \$300. The University receipts on sale of pedigreed British Columbia stock totalled \$7,225 for the year.
