

Ask Equal Honors

Freedom League Contends More Women Are Entitled to Knighthood and Peerage

British women, a great number of whom rose to distinction in 1927, are asking for more honors of knighthood and peerage as public recognition of their work.

Out of 193 honors granted by King George V, at the beginning of 1928, only twenty-five were conferred on women, and these were of the low rank. The Women's Freedom League, in view of women's records of accomplishment, considers this an unfair restriction on their public activities.

"Peerages have been given to two Conservative members of Parliament and a former Governor of Nigeria," the league declared in a formal statement. "Why was the Duchess of Atholl, the parliamentary secretary to the Board of Education, not given a similar distinction?"

Of thirty men who won knighthood, twelve, according to Miss Francis A. Underwood, secretary of the league, were granted it for political and public services; two of the men were distinguished surgeons and one a journalist; but no woman in these spheres was given an equivalent honor.

"There are a great many women just as deserving as men, and we particularly think that women should be made privy councillors," Miss Underwood said. "I do not see why women should not be given peerages, baronetcies and knighthoods. There should be no distinction whatever now that men and women are doing the same work."

"It is the privy council which has decided that women should not be admitted to the diplomatic and consular and Indian civil services and if women went on the council I think this would be altered."

British women have just had an exceptionally successful year. More women were chosen for the office of Mayor than in any other year. The election of Lady Iveagh brought the number of women members of Parliament to seven.

Miss Elizabeth Scott, the woman architect, won the attention of the artistic world by her success in designing the winning plans for the Shakespeare Memorial Theatre. Lady Bailey was coupled with Lindbergh in the awards in the field of aviation. She created a height record for women in a light plane.

Miss Sackville-West gained the Hawthornden prize for her poem "The Land." Miss Gertrude Trevelyan won the Newdigate prize; Miss Helena H. Harrison, the Earl Grey fellowship for work in botany, and Miss C. F. Elam, the Robert Madfield scholarship for the Second Empire Mining and Metallurgical Congress in Canada.

At the lesson in grammar—"Willie, tell me what it is when I say 'I love, you love, he loves.'" Willie—"It's one of those triangles where somebody gets shot."

"It's a shame that I have to sit here mending your old clothes." "Don't say a word about it, my dear—the least said soonest mended."

Authors are said to be careless of their money. They can always write for some more.

Don't Make a Toy Out of Baby

Babies Have Nerves

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

ISSUE No. 17-28

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood is Enriched

The most urgent need of all who suffer from any form of indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. This accounts for the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of Mrs. George W. Johnson, Lequire, N.S., who says:—"I have no hesitation in recommending Dr. Williams' Pink Pills. I was greatly distressed with indigestion. Always after eating I suffered from pains in the stomach and other distressing symptoms. I tried different remedies, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills, which I readily did, and I am feeling very grateful ever since to the person who gave me the advice. The very first box helped me and before I had taken a half dozen boxes I was restored to my former good health and all traces of this distressing trouble disappeared. It is now about a year since I took the pills, and I have not been troubled with indigestion since. I have taken every occasion to recommend Dr. Williams' Pink Pills to those in need of a medicine and shall continue to do so."

A little booklet, "What to Eat and How to Eat," will be sent free to anyone asking for it. You can get the pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Carbon Monoxide Dangers

New York Sun.—(Surgeon-General Cumming says that those who use the sidewalks are in no danger of carbon monoxide poisoning.) But if this investigation showed to be almost negligible a danger which often has been discussed it revealed another and real one. Samples of air taken in repair shops and garages in fourteen cities almost uniformly showed more than two parts of carbon monoxide to 10,000 parts of air, and nearly half the samples showed twice that proportion. In such proportions carbon monoxide constitutes a hazard.

West and East

New York Evening Post.—The King of Afghanistan has had his tonsils removed. Pretty soon the only difference between an Oriental and an Occidental will be the ultra-Western fashions worn by the Easterner.

Doctor—"You say you have dreadful pains—are they worse at night?" Patient—"Probably—but I cannot tell." Doctor—"Why not?" Patient—"I am always asleep then."

"Bow ties are artistic," said Trent. "And show a man's natural bent." "Well, though not artistic," said Beggs. "The same thing is true of bow legs."

"You used to call your wife 'Kit-ten'?" "I know, but she has grown up since then."

The doom of warfare sounded when patriots began to rob the home folks instead of the enemy.

The westbound contestant is Ryu-kichi Matsui, an alumnus of Keio Gijuku, Shiba, Tokyo, and the east-bound contestant Toichiro Araki, lecturer on scientific management in Yokohama Higher School of Technology. They were chosen from 370 candidates from all walks of life, many of whom had never been abroad before and were immediately rejected on that account.

An Unsightly Skin Needs This Corrective

"It is working marvels with me," wrote a grateful man who, suffering from painful and disfiguring eczema, got complete relief, and regained a clear and healthy skin, by using TRU-BLOOD.

As its name implies, TRU-BLOOD is a true blood tonic. It removes the underlying cause of eczema, pimples, blackheads, itching itches, boils, carbuncles and every other skin trouble due to impure or impoverished blood.

So many have benefited from taking TRU-BLOOD, you should try it. Get a dollar bottle at your druggist's today, and prove, for yourself, its worth.

Buckley's OINTMENT is highly recommended for speeding up the healing and softening of the skin. TRU-BLOOD drives out the poisons—the ointment heals magically. Try the combination treatment.

Clears the Skin

Year Round Delicacy on Tap

1.—Collecting the sap out of the buckets attached to the trees.
2.—A sugaring party indulging in the frolic of taping.

Every season has its joys, but in Eastern Canada the spring brings not only the warmth bearing breezes and pleasant reminders of coming summer activities, but also the actual maple sugaring time which demands great attention immediately following the melting of the snow.

For the purpose of giving everyone an opportunity to participate and enjoy to the full the pleasure parties usually organized into the maple tree districts, the Canadian Pacific operates trains covering week-end periods. The visitors go into the maple bush and see all the details of collecting the sap, boiling it, and the method by

Two Chosen to Tour the World

Japanese Students Begin Long Race, Taking Opposite Directions

Tokyo.—Two young men of Japan one traveling east, the other west, left Tokyo early this month for a race around the world.

They will be allowed \$1,500 apiece for the journey; only regular transportation lines may be used; in certain defined cities, city halls, embassies and press association offices must be visited; the trip must be completed within a fixed minimum of time, and the contestants must wear blue serge suits and felt hats.

The contest is under the auspices of the Jiji Shimpo, a Tokyo daily newspaper, and is undertaken with the hope of ascertaining just how rapidly the world may be circled by existing means of transportation.

Linton Wells at present holds the record of having gone around the world in 28 days, 14 hours and 36 minutes and no effort will be made to break that record, since it was achieved by the use of special airplanes and special private means of travel.

New York, London, Paris, Berlin and Moscow must be touched. The Jiji believes that the trip will require about 35 days, and that the man going eastward will have the advantage because of flying conditions.

The trip must be made for not more than \$1,500, which the Jiji Shimpo will pay. This will permit first class accommodation everywhere. The winner will be given a prize of \$1,500, and the loser one of \$500 provided he returns to Japan within a specified time.

Patriots and Suckers

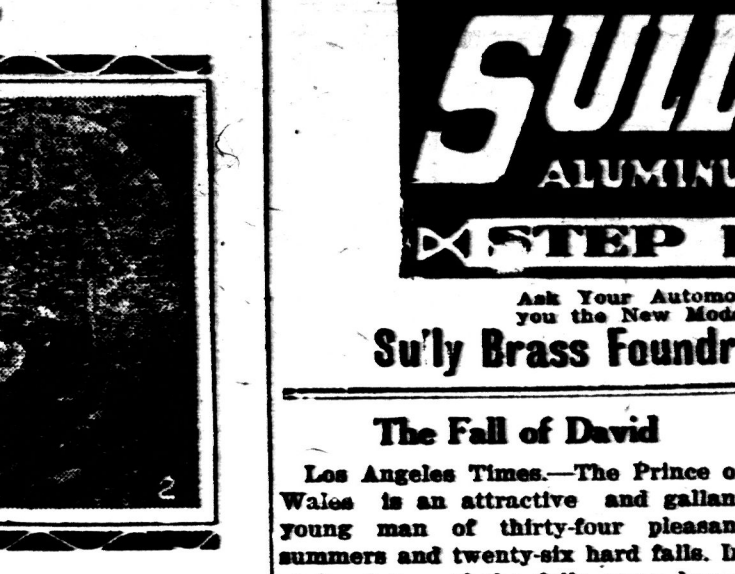

New York World.—It has been rather convincingly proved recently that the two organizations which have made the loudest claims to patriotism are rotten to the core. We refer to the Thompson gangs, with their cry of America First, and the Knights of the Ku-Klux-Klan, with their insistence that they are the guardians of 100 per cent. Americanism. Is it a mere coincidence that these two conspiracies against law and order and human decency should have made the most brazen use of the American flag? It is no coincidence. . . . The swindler who wraps himself in the flag or puts on the mantle of the prophet is very often able to hypnotize his victims with sacred words while he picks their pockets.

St. Lawrence Waterway

Louisville Courier-Journal.—As to the proposed seaway being a major issue in the Presidential campaign, it has not reached the stage where it will command such a position. Engineers have decided that the undertaking is practicable. Estimates of the probable cost have been made. The St. Lawrence route has been held more feasible and more economical than an all-American seaway, but distribution of water power and of the cost is still highly controversial. At the present and discussion in Congress of another enormous appropriation measure would be harmful to the Administration.

Girl Friend—"Are you troubled with pyorrhea?" Doctor's Stenog.—"Only when I have to spell it."

Minard's Liniment for Backache.

The method of tapping is to place the receiving can on the taps, thus allowing the sap to drip into them, with all cans being properly protected against unsanitary, and foreign substances. On sugaring parties the members taste the maple sugar delicacy by taking a stick, placing it in the boiling syrup and then letting it harden and cool in the partly vanished snow.

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take ill-tasting oils when they need a laxative medicine. Don't you find that the child's dread of these medicines often do more harm than good?

Baby's Own Tablets are the most pleasant substitute for these nauseous medicines. They are the very medicine the child requires and are so pleasant to take that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed free from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted from its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, refreshing sleep. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dutch Clergy Condemn Olympics

Dutch Religious Body Asserts Atmosphere of Games is Not Conducive to Prayer

Amsterdam.—Hostility to the forthcoming Olympic Games has arisen in Dutch religious circles and a report on the subject by seven Amsterdam clergymen has been made public.

The report, adopted at a recent meeting of the council of the Dutch Reformed Church of Amsterdam, which must not be confused with the better known and older Dutch Reformed (Herforme) Church, says: "Taking all things into consideration there appears to us to be ample justification for decisively opposing the forthcoming Olympic Games. Here everything is opposed to the principle of loving God above all else and loving one's neighbor as oneself. The strongest being is here the most exalted and is raised to the place which God alone should occupy. The neighbor, by craving for notoriety and personal glorification, allows himself to be exploited in order to satisfy the craving of the masses for sensation and emotion."

"Not only the character of the games, but also everything connected with them must compel us with all the earnestness at our command to issue a warning and strengthening word against this glorification of man, against this cult of the herd, which is opposed to practically all God's sacred commands. That in such a sphere the prayer that the Saviour taught his disciples cannot be sent above, needs, after what has already been said, no further demonstration. It, therefore, appears to us to be desirable that the Church councils should, before the opening of the Olympic games, address to the congregations from the pulpits a word of warning and admonition. In this connection it also appears to be desirable to entrust to the servants of God the task of drafting an appeal for submission to, and approval of, the Church councils."

Meanwhile a special committee has been formed by the religious denomination with the task of undertaking an evangelistic campaign in Amsterdam during the games. A number of propaganda meetings already have been arranged and a huge tent, capable of accommodating 1,500 people, has been acquired for the holding of afternoon and evening meetings in the vicinity of the stadium. The members of this church also have been urged not to offer accommodation to foreign visitors to the games.

The Fall of David

Los Angeles Times.—The Prince of Wales is an attractive and gallant young man of thirty-four pleasant summers and twenty-six hard falls. In at least two of the falls some bones were broken, but the Prince goes on taking risks. He has had as high as three falls in a single day and in one case he won a daring and dashing cross-country race after he had sustained a couple of bad spills. The Prince does as much venturesome riding as any man in the Empire and he takes his tumbles with better grace and cheer than any of them. Tom Mix would have a hard day in following the Prince. The English races are a bit trying. In the Grand National steepchase only two horses finished out of forty-three starters. Try that on your harmonica.

Use Minard's Liniment for Corns.

A Bit Old-Fashioned.

The king's recent humorous complaint that the fire in his study smoked recalls the fact that Buckingham palace was bitterly complained of by William IV, when it was built, as "a most ill-contrived house." He declined at first to live in it, and only consented at the request of his ministers. As soon as he was settled in, he began to try to obtain a grant from them for large alterations. The matter did not get very far. A deputation waited on the duke of Wellington, then prime minister, and asked if he would induce parliament to vote the money required. The duke said they could pull down as much as they liked, and when they pressed him about rebuilding, he said, at last: "If you expect me to put my hand to any additional expense, I'll be damned if I will." That was just a hundred years ago, and England's present King still is suffering from the faults of the architect.—From the Daily Chronicle, London.

An elderly millionaire proposed to a pretty girl, "Think," said the old gentleman, "of the motor-cars and gearis and saddle-horses a rich husband could give you!" The girl looked at him critically, and with some amusement. "Oh, a rich father would do just as well!" she said. "Marry mamma! She's a widow!"

Mother—"Why, Bobby, I'm ashamed of you—to be fighting with your little cousin. I thought you loved Stephen." Bobby—"Why of course I love him, 'cause he's my cousin, but I don't like him one bit."

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble which I could hardly walk and I was all run-down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."—Mrs. NELLIE JAMESON, 806 East Canton Street, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition.
