5,000 FACTS ABOUT CANADA

Frank Yeigh's popular compilation, "5000 Facts About Canada," for 1928, is out, having reached its improvements, including an illustrated section and 25th year. The edition is marked by many tables showing the marked progress of the Dominion in a quarter of a century, while the stirring story of our national development in a single year is strikingly shown in a series of crisp paragraphs in 50 chapters, ranging alphabetically from "Agriculture" to "Western Canada." No publication sells Canada—not only to Canadians but to the world—more effectively than this tabloid encyclopedia, and one can well understand that it has a large circulation. It may be had from leading news-dealers or by sending 35c for a copy to the Canadian Facts Pub. Co., 588 Huron St., Toronto.

Here and There

(65) Actual sales of Canadian Pacific Railway farm lands for the first three months of the year have been double those of the corresponding period of 1927. Enquiries for farm lands generally have increased in the same proportion.

Quebec, Quebec.—The mineral production of the Province of Quebec for the fiscal year ending June 30, 1928, will be well in excess of \$30,000,000 if the activity continues, according to a statement from the Provincial Department of Mines, just issued.

Saint John.—The Maritime Provinces can find a good market in South and West Africa for their manufactured and natural products, according to J. S. Tyrer, who recently returned from there. A vast trade, he claimed, could be worked up in salt fish.

Vernon.—For the first time in the history of bee-keeping in British Columbia one bee-keeper in the Okanagan Valley has exported a full carload of honey from his own hives. His 250 colonies gave him an average of 175 pounds of honey per colony.

Ottawa.—A survey will be made this year for a Canadian air mail route between Montreal and Winnipeg. This will consist of determining the best routes and locating landing fields. Recent announcements of four air mail contracts between points in Eastern Canada forecast more extensive operations along this line at an early date.

Midland, Ont.—For the first time in the history of this progressive town, a through Canadian Pacific train left here early in May for Toronto, and the first C. P. R. through train arrived from Toronto later in the day. A bottle of champagne was broken across the tender of the C. P. R. locomotive as it pulled out of Midland.

Ski-ing in July and August will be a prominent feature of the combined winter and summer camp to be operated in the Canadian Rockies under the shadow of Mount Assiniboine by Marquis N. de la Albizzi. The winter sport is made possible by the fact of a huge glacier that runs down the slopes of the mountain. Summer sports of variety will also be possible at the camp, which is one of the beauty spots of that part of the Rockies traversed by the Canadian Pacific.

Toronto.—Premier G. H. Ferguson announces that the Government has signed a contract with the Canadian Pacific Railway for the supplying of two additional cars to be used as "travelling schools" in the outlying districts of the province. The cars will be equipped in Winnipeg and both will run out of Fort William, operating between that city and Superior Junction. At present two cars are in operation, both in Northern Ontario. They are children of trappers and railway workers, etc., receive instruction in these travelling schools, but not in classes held in the city.
