THURSDAY, OCTOBER 11, 1928

THE DAY OF REST

Man wisely sets apart one day in seven as a period of rest and change. Sunday is the day to emerge from the rut and groove of life and do something different.

All life has a tendency to run down if not recreated. Perpetual motion does not exist anywhere. Purely as a matter of health and mental hygiene, Sunday is an incomparable boon, a means by which tired nature may pause and take a fresh start.

Make Sunday a day of rest. To do so does not mean to permit the day to go to seed through inactivity. It is the common tasks and common pleasures that should be put aside and something uncommon taken to fill their places.

This applies to the man who takes his business problems home with him for settlement or solution over Sunday. It applies to the student who pores over his lessons on the Sabbath. It applies to the home-maker who employs the seventh day to catch up with the interrupted work of the week.

Efficiency experts have proven that a man can do as much work in an eight-hour day as he can in a ten-hour day. The two extra hours, are not production hours due to the bodily and mental poisons of fatigue.

Emulate a famous lord chancellor of England who used to throw off his robe at the end of the week and say, "Ie there, lord chancellor," and go home to his family and his hobbies.

The man who works on Sunday, or who works seven days per week, is not getting anywhere. Nor is he adding a dollar to his bank account that will not be demanded of him sooner or later to pay damages for a broken contract with nature.

COLUMBUS DAY

Christopher Columbus discovered America on October 12th, 1492. But present-day musical hits are listed among the old sweet songs.

Most persons will retain a nodicum of faith in humanity until a conscience fund reports a deficit.

Em Honey—"Well, it seems funny 'n it is, but it ain't."

"I am afraid, doctor," said Petunia to a physician, "that my husband has some terrible mental affliction. Sometimes I talk to him for hours and then discover that he literally hasn't heard a word I said."

"That isn't an affliction," was the reply; "that's a divine gift."

NOW WILL YOU BE GOOD? Ten cents straight will be charged for all obituary notices to all business men who do not advertise while living.

Delinquent subscribers will be charged fifteen cents a line for obituary notices. Advertisements and notices sent in by mail will be charged as we are unable to send them without any charge whatsoever. Better send in your advertisements and pay up your subscriptions, as cholera is abroad in the land.

Inked means to preserve food. That was monotonous, and... great demand to... food. Columbus did not bring European spices that they craved, but his discovery gave them potatoes, melons, tomatoes and other foods which imparted needed variety to their fare.

But it is not for the material blessings that he brought the world but to the glorious example that he gave of courage and perseverance that the day of Columbus' great achievements should be remembered. He remains a model to be held up for the emulation of men in his daring to question the science of his age, in his willingness to face the terrors of the unknown. His triumph over ignorance and superstition has encouraged bold spirits everywhere to stand up for what they believe to be the truth and to face danger, if necessary, to prove their theories.

THE IDLE WORD

The idle word that stings is as old as human speech. Spoken thoughtlessly or spoken in a moment of irritation, it says more than the speaker meant. At least it says more than he would have said if he had taken second thought.

These idle words go deep, deep into the heart and memory of the one to whom they are addressed. There is no way in reaching this harm by laws and courts. There is no way of resolving that one will never say the thing that causes needless hurt, except by resolving to build up a habit of one's life of saying only kindly things until quiet reflection has shown the need of something else.

This is not a text for weaklings. A counsel of meekness to the point of being trodden upon. It was not a weak man who prayed, "Set a watch before the door of my lips," nor a fool who wrote, "She openeth her mouth with wisdom, and in her tongue is the law of kindness."

RECORD RAMBLINGS

There are too many light heads back of headlights.

There is much about crime in the newspapers—and in the Bible.

Many a moon will pass before the present-day musical hits are listed among the old sweet songs.

Motorist—"Is it very far to the next town?"

Em Honey—"Well, it seems funny 'n it is, but it ain't."

"I am afraid, doctor," said Petunia to a physician, "that my husband has some terrible mental affliction. Sometimes I talk to him for hours and then discover that he literally hasn't heard a word I said."

"That isn't an affliction," was the reply; "that's a divine gift."

(continued on Page 5)

WARNING NOTICE

(Continued from Page 1) It is out with a plough and level it with the harrow. Cracking the stubble little more boxes.

Use a wide-furrow plow, never a narrow. Tractor plows should have a roller coupler and skimmer, pulling ploughs a skimmer and a high shaper or a knife coupler. Sometimes a chain or long wire is also necessary.

Never plough crosswise, but always lengthwise, of the rows.

Plough 6 inches deep, if possible, and run the last furrow before the stubble row as close to it as possible, so that on the next round the stubble will all fall flat into the furrow and be buried completely.

Never plough when the ground is too dry to do a good job.

Spring ploughing usually results in less picking, but fall ploughing, especially after crushing the stubble, saves time for other spring work.

When cultivating in spring, use a disc, and in sowing a disc drill. Toothed implements drag up the stubble.

Rolling in spring before cultivating often helps to lessen the amount of stubble dragged up.

PIOUGHING KILLS THE BORERS ONLY IF THE SURFACE IS CLEAN

They nearly all come up to the surface after being ploughed and, if there are no pieces of corn or stubble to hide in, they perish from exposure or are destroyed by birds, ants, beetles or other enemies.

SWEET CORN USUALLY SUFFERS MOST FROM THE BORERS; HENCE DO NOT OVERLOOK EVEN SMALL GARDEN PLOTS.

The best way to deal with them is to leave them until spring and then pull the stalks up by the roots and all coarse weeds and burn them; then plough or spade the ground.

Every person, whether he receives this notice or not, is required to comply with the Act. The inspector has been instructed to enforce the Act without fear or favor. Nothing but thorough work will control the borer.

L. CAESAR, Provincial Entomologist. Issued by the Ontario Department of Agriculture.

HEALTH SERVICE of the CANADIAN MEDICAL ASSN.

APPENDICITIS Appendicitis is a public health problem because the public need to be told of the early symptoms so that they may promptly secure proper treatment which will greatly reduce the present death-rate of this disease.

In the majority of cases, appendicitis causes a condition that a physician will readily diagnose. Pain towards the centre of the abdomen, followed by nausea and vomiting, is usually the first symptom.

The pain varies in intensity; it may be of a gripping character. Later, the pain usually moves to the right lower part of the abdomen, and the abdominal muscles in that area become hard and tense. This is Nature's effort to protect the inflamed part.

When any person—child or adult—has pain in the abdomen, even when the pain is not accompanied by nausea or vomiting, the family physician should be sent for at once. The only

A Big Enrolment at Robinson College WATERFORD About sixty young people have already enrolled with the Robinson Business College, Limited, of Waterford—and new students are entering every week.

MUSICAL TYPEWRITING A SUCCESS In order to get perfect rhythm in typewriting a special equipment of graded musical phonograph records has been installed this year, and our students are exhibiting remarkable enthusiasm in this very important subject. This College is becoming known far and wide for its superiority of instruction in Commercial, Shorthand, and Secretarial work, and we have students coming from a distance of two thousand miles solely to attend our institution. STUDENTS MAY ENTER ON ANY SCHOOL DAY Special Courses for Ex-Teachers and High School Graduates, as well as for those not so far advanced. If you want to make sure of a seat, you should arrange for a reservation NOW. Telephone 98 Waterford or communicate with the Principal, O. U. Robinson, for full information concerning Courses and Rates.
