

A TIRED-OUT FEELING

Is a Sure Sign That the Blood is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I began taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Heart of Man

The heart of man resembles a secret chamber wherein stands—like the block of white unheven marble set in the studio of a sculptor—a veiled figure. Though the man may not so much as life the corner of the veil, yet he forever and in secret work to fashion and form the figure that lies beneath. And the figure is the soul of the man, and the unveiling thereof is called death; and until the figure be unveiled, the man scarce knoweth what manner of man he is.—Coulson Kernahan.

New York Is Paying High to be on Time

Telephone Company Takes in 35 Cents a Minute for Telling the Hour

New York—This city is paying the New York Telephone Company 35 cents a minute in order to find out what time it is.

Several years ago the telephone company discontinued the practice of telling its subscribers the time of day whenever they wanted to set their clocks or watches. But housewives became tired of calling across the air shaft to learn the time from Neighbor Jones and business men found the numerous clocks that line New York's streets did not always agree.

The result was that the telephone company established a special "time-telling department." It sells time just like a store sells eggs, shoes or overcoats. The charge is 35 cents. If a subscriber calls up Meridian 1212, and a honey-voiced operator replies, "The time is now 3:51," his telephone is charged with a local call. If someone drops a nickel in a toll-box telephone, it doesn't come back to him as it did in the old days when the operator would tell him the hour.

During the first seven days that Meridian 1212 was in operation, there were 77,180 requests for the time, which means that New York residents spent \$3,558 for the knowledge thus retailed. The calls, according to the telephone company's records, reach the peak between the hours of 5 and 6 p.m.

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous.

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless, even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. Lenin's Brain

Scientists are said to have cut out the brain of the late Nicolai Lenin, the Russian dictator, into 31,000 slices and particles. For two and a half years the work of dissecting, analyzing and preserving Mr. Lenin's gray matter has been in progress. The net result, probably, is that they have 31,000 slices and particles. This is usually the way such tasks work out.

Victorious Canadian Athletes Return Home

THE first contingent of the Canadian Olympic Games party received a tremendous welcome when they returned to Canada on the White Star liner, Laurentic. They were guests at civic receptions in Montreal and Toronto, while individual cities planned special celebrations in honor of their individual members of the team. The above photographs show, top, the group on board the Laurentic in which can be seen, fourth from the left, standing, Mrs. Joe Wright, and, extreme right, Joe Wright, Sr., parents of Joe Wright, Jr., who won the Diamond Sculls at Henley. Joe Wright is seen in the centre of the back row, eighth from the right. Fourth from the right standing is Lou Scholtes, winner of the Diamond Sculls in 1904, who went to greet young Joe Wright. Underneath the Scholtes, on the left, is Joe Wright, Jr., on the right is Ethel Catherwood, of Saskatoon and Toronto, winner of the high jump at Amsterdam, where she created a world's record. The four girls are members of the team which won the 400 metres relay event and created a new world record. From left to right they are Myrtle Cook, Jane Bell, Ethel Smith, and E. Rosenfeld. The bottom photograph shows young Joe Wright, displaying his trophies won at Henley to his mother. In his left hand he has the gold cup which is his permanent prize and in his right hand, he has the miniature Sculls, which he holds for one year.

\$500 Reward in Hassell Radio Fake

Radio League Committee Acts at Hartford to Learn Who Sent False Signals

Hartford, Conn.—The Executive Committee of the American Radio Relay League, Inc., at a special meeting voted to authorize a reward of \$500 for information leading to the apprehension of the person or persons who broadcast the messages signed "Rockford Fliers," which are now believed to have been false. Officers of the organization are thoroughly aroused over the suggestion that the messages, purported to have been sent by the missing fliers, Bert Hassell and Parker Cramer, may have been broadcast by some licensed amateur operator as a practical joke. "We have committed ourselves to the task of running down the persons who sent the messages," the league's secretary, Kenneth E. Warner, said, "and will go to any lengths to apprehend and punish those responsible. We are broadcasting the announcement of the reward from every amateur station in the league chain, and we hope, in that way to get something definite and concrete to work on."

Mr. Warner also declared that should the person or persons who sent the fake messages be apprehended, the Radio League will take an active part in the criminal prosecution and will ask that the extreme penalty for the crime be imposed. The maximum penalty for transmitting a false message of distress is five years imprisonment and a fine of \$5,000.

As the Poets Had Said

The road turned suddenly and ascended above the valley. There was a rush of air, and then Nora saw the sea. It was booming against a deep purple cliff lost in green water and pale green spray. . . . They climbed over the cliffs ledge. A light mist lay over the cliffs above the sea, which resounded from below. The high grass between the hedgerows was very wet, the foglows against the stone walls drooping with their load of dew. As she was mounting the stairway made of flat stones over the second ledge, she heard her first lark. The bird had swooped up, and was singing, singing as he climbed higher and higher. She sat on the flat top of the stile, looking up towards the sky and listening to the warblings, fainter and fainter. Just as the poets had told her, singing as all her life she had dreamed they would sing. The three sisters stood waiting for her to climb over the ledge. While she had been sitting on the stile, the larks had slowly gathered in the sky, one after another, singing together, close to the last yellow light.—Wanda Fraiken Neef, in "We Sing Diana."

ISSUE No. 28-29

Bill in India to Curb Bolshevism

Government to Publish Text of Public Safety Measure

Sima, India.—The Government of India will soon publish the text of the public safety bill dealing with Bolshevik agents other than Indian or British subjects of Indian states. The bill provides for the removal of agents not coming under these classes and is expected to provoke a lively discussion in the Legislative Assembly in September.

Agents will be asked to execute a bond giving security for good behaviour until their removal from India, failing which they will be detained in custody. The breaking of such a bond will render the agent liable to arrest without warrant and to maximum imprisonment of a year in addition to a fine, but the prosecuting authority can only be the Governor-General in Council.

No order for removal can be questioned in any court while the officers acting under the law will be protected against legal proceedings for actions performed in good faith. The Government of India declares evidence recently has accumulated of subversive activities and intentions of the Communist international directed against India.

Fur of New Rabbit Is Like Sable

Two of a new variety of rabbits, called sable rabbits, stated to have great commercial possibilities, have been on view at Minehead, Somerset. Mr. G. A. Drake, secretary of the British Sable Rabbit Club, who was one of the judges, said it was impossible to distinguish their fur from real sable, and the white hairs in their coats defied the dyer's art.

"It takes about thirty rabbits to make one sable coat, and I am getting six guineas each for two-month-old sable rabbits. The Prince of Wales is very much interested in these rabbits, and many well-known people are breeding them," states the secretary.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comforting. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day, or night that Baby becomes fretful, or restless. Castoria was never more popular with mothers than it is today. Every druggist has it.
