RUPTURE
EXPERT HERE
 F. H. Seeley, Chicago and Phila-
 delphia, nationally famous expert, will
 himself personally be at the Ethersby
 Hotel, and will remain in Simcoe on
 Thursday only, September 13, from 9
 A.M. till 5 P.M. Mr. Seeley says:
 "The Spermatic Shield will not only
 retain any case of rupture perfectly,
 but contracts the opening in 10 days
 on the average case. Being a vast ad-
 vancement over all former methods—
 exemplifying instantaneous effects—
 immediately appreciable and with-
 standing any strain or position, no
 matter the size or location. Large or
 difficult cases, or incisional ruptures
 (following operations) specially sol-
 icited. This instrument received the
 only award in England and in Spain,
 producing results without surgery, in-
 jections, medical treatments or pre-
 scriptions, with distinguished person-
 al patrons of all nations. His method
 has always been most satisfactory."
 —Late Dr. Edward Shippen, former
 Medical Director, U. S. Navy.
CAUTION—All cases should be cau-
 tioned against the use of any elastic
 or web strap with understraps, as
 same rest where the lump is and not
 where the opening is, producing com-
 plications necessitating surgical oper-
 ations. Mr. Seeley has documents from
 the United States Government, Wash-
 ington, D.C., for inspection. He will
 be glad to demonstrate without charge
 or fit them if desired. Business de-
 mands prevents stopping at any other
 place in this section.
N.B.—Every statement in this notice
 has been verified before the Federal
 and State Courts.—F. H. SEELEY.

COLORED MOVIES IN
YOUR OWN HOME
 George Eastman of Rochester, N.Y.,
 inventor and manufacturer of cam-
 eras and films, has announced and
 demonstrated a system of color pho-
 tography whereby any amateur pho-
 tographer can take moving pictures
 which reproduce the colors of the
 spectrum. The demonstration was
 given at Rochester before a distin-
 guished audience which included Thos.
 A. Edison, Prof. Michael I. Pupin and
 Hiram Percy Maxim.
 Mr. Eastman terms the process "koda-
 color," and demonstrated it on a
 screen suitable to the home movie.
 Because of technical difficulties the
 screen had to be small, 16 1/2 x 30 inches,
 such as is used for the ordinary black
 and white movies already made for
 amateurs. The problem of working
 the process for theaters will depend
 upon whether enough lighting power
 can be placed behind the film. From
 the viewpoint of the amateur photo-
 grapher the new process means that
 he can have colored moving pictures
 in his own home at a comparatively
 low cost.
 The discovery signifies that by it a
 permanent record may be made which
 will show not only figures in a photo-
 graph, but the colors in which they
 appear. As yet Mr. Eastman may not
 realize the importance of this in-

SEPTEMBER BOB AND GUN
 and Canadian Silver Fox News.
 Containing a full summary of the
 of an account for game in the provin-
 ces of Canada for 1928, the Sep-
 tember issue of "Bob and Gun and
 Canadian Silver Fox News" marks
 the first approaching hunting season.
 Four fine stories of deer and game
 shooting give a pleasant forecast of
 the annual pleasure of the fall hunt.
 "Bob and Gun and Canadian Silver
 Fox News" is published monthly by
 W. J. Taylor, Ltd., Woodstock, Ont.

Here and There
 (124)
 The Provincial Government of
 British Columbia has arranged to have
 the Boy Scouts undertake the re-
 foresting of 1,000 acres of land in
 the Bear River and Canadian Silver
 Fox News area. A similar programme was carried
 out on a smaller scale in the Wa-
 verly district, Halifax county, last
 year.

The vicious dog fish of the Pac-
 fic coast has at length found his
 niche in the scheme of economic
 usefulness, judging by a new in-
 dustry getting under way in Van-
 couver. Dog fish oil is the basis of
 a preparation for keeping away
 mosquitos, black flies and other in-
 sect pests which molest man and
 beast alike. Several barrels a day
 of dog fish oil are being used in
 the manufacture of the preparation.

A Pacific Coast mariner whose
 name is well known throughout the
 country has announced his inten-
 tion to retire from active service.
 Captain James D. Troup, veteran of
 55 years of continuous service on
 Pacific coastal waters, 36 years of
 which he spent in British Colum-
 bia, has relinquished his position
 of manager of the British Colum-
 bia coast steamship service of the
 Canadian Pacific Railway. His
 place has been taken by Captain
 C. D. Neroutos, formerly assistant
 manager.

Golf in the heart of the Canadian
 Rockies is becoming so popular that
 a miniature course has been opened
 at Castle Mountain Bungalow Camp
 in Vermillion Pass on the Banff
 Windermere Highway. This new
 course is probably the highest,
 smallest and most effectively sit-
 uated of any golf links in the Brit-
 ish Empire. The ingenious lay out
 of the course is the handwork of
 Stanley Thompson, internationally
 known golf architect, who also de-
 signed the recently enlarged links
 at Banff.

Another recruit has joined the
 ranks of the famous Centred Cows
 at the Carnation Milk Farms at
 Seattle, Washington, the Canadian
 Pacific Railway supply farm at
 Strathmore having sold one of the
 prize heifers to the Carnation Milk
 company. The animal, bred at the
 C. P. R. farm, is the first Holstein
 female from the prairie provinces
 to be accorded the grand cham-
 pionship at the "A" circuit shows
 in the west, an honor which had
 previously been won by cattle
 either from Ontario or from the
 Pacific coast.

So notorious a reputation has the
 fisherman won for himself as a
 piscivore that he must needs
 enter his fish in competitions with
 fully signed and witnessed affi-
 davits. The latest record catch to be
 reported to the General Tourist
 Department of the Canadian Pacific
 Railway is a six and a quarter
 pound speckled trout hooked at
 Pine Portage near Nipigon River
 Bungalow Camp. It is the largest
 so far to be entered for the local
 fishing trophy, although many fine
 fish have rewarded anglers in the
 neighbourhood this summer.

The Japanese coronation cere-
 monies in November will probably
 result in a demand for more motor
 cars from this continent, said J. A.
 Langley, Canadian Trade Commis-
 sioner in Tokio, who sailed recent-
 ly from Vancouver aboard the
 Canadian Pacific ship Empress of
 Asta. The forthcoming coronation
 procession in which ox teams and
 other picturesque means of locomo-
 tion have participated in the
 past will probably be largely mor-
 torized on this occasion, he said.
