

Back to School!

September's in the offing with its reminders of school days and school necessities. Time for mothers to consider school clothes, the boots and shoes they'll need, new caps and sweaters, and all those things which mothers, as well as sons and daughters, are interested in for school days.

SWEATERS AND JERSEYS

The change of atmosphere demands warmer clothing. These are the boys' greatest need. We have them in fine wool and cotton... \$1.25 and 50c

LOCAL AND GENERAL

Continued from Page 4

were the guests of Mrs. L. Miller the beginning of this week.

Ruth Hewson, who has been visiting in Providence, E. I., returned home on Saturday. She was accompanied by her brother, Earl Hewson.

Mr. and Mrs. Wm. Simpson are enjoying their annual two weeks' holidays. Mr. F. Newman is acting as agent during Mr. Simpson's absence.

Mr. and Mrs. Chas. Powell and Margaret spent Sunday with relatives at Burgessville. Miss Marie Jarrett returned home with them for a week's visit.

Mrs. Guy Leathong, of Hamilton, was the guest of her parents, Mr. and Mrs. Gideon Snyder, on Monday, and attended the funeral of the late Thomas Harris.

Dr. H. Davidson of Niagara Falls, is spending a couple of weeks holidays with his parents. He will take care of Dr. Leatherdale's practice during this week.

Dr. Leatherdale and Jas. Mitchell left on Wednesday for Toledo, Ohio.

Here and There

Locomotive Number 500, one of a fleet of twenty modern oil-burning engines for use by the Canadian Pacific Railway on passenger and freight service in the mountains of British Columbia, has been released from the Montreal Locomotive Works and was on display in the Windsor Street Station, Montreal, recently. It was viewed by a constant stream of spectators all day, who admired its 98 feet of length, its huge proportions and its generally handsome appearance. This locomotive is the greatest in the British Empire.

The total number of dairy factories in operation last year in Canada was 2,277, comprising 1,265 creameries, 1,307 cheese factories, 235 butter and cheese factories, and 29 condenseries.

The Royal York Hotel, Toronto, was a blaze of color at the recent rose show held there in July. The blooms ranged from the pure white of large dimensions and the smaller varieties to the vivid red of American Beauties and others. The ball room of the Royal York was filled with them at the Ontario Rose Society show. The display gave birth to the project of having the most beautiful rose garden in the world laid out on the Canadian-American border and a committee was appointed to consider the plan and to settle final details at a meeting at the Royal York next month.

Announcement has been made that Americans and Canadians will join in traveling to the World's Poultry Congress to be held in England in 1930. Delegates will meet at Montreal and will travel via St. Lawrence route overseas. It is expected that nearly 1,000 delegates will make the trip.

Canada's wool crop, like the grain harvest, moves across the country in a great wave, not being a simultaneous operation in all provinces. It begins in the sheltered valleys of British Columbia and moves steadily across the Prairies. The shearing is at its height early in June and is about completed by the end of that month. The crop ranges from 15 to 24 million lbs. yearly and is marketed largely through the Canadian Co-operative Wool Growers.

Canadian Pacific farm sheep swept the board at the Edmonton show recently with three champion, including the any age Suffolk ram and ewe. Other wins including nineteen first were credited to the Experimental Farm at Stathmore operated by the Canadian Pacific Railway.

Two employees who have together completed over one hundred years in C. P. R. service were complimented by E. W. Beatty, general manager and president of the company during his recent tour through the Maritime Provinces. They were Charles Hamilton, who was employed as conductor on the special and who started his work in 1876, and Harry... engineer of the special... been in the company's service 48 years.

to accompany Mrs. Leatherdale and daughter home after a visit with relatives in that city.

J. E. Kindree and Petunia motored to Toronto and Brooklyn on Sunday morning. They were accompanied home by Heliotrope, who had spent the past week with her daughter, Mrs. F. Archibald.

A very sad accident occurred on Tuesday of last week at noon on the farm of Mr. Thomas Hewitt, in Seneca, when little Jack Shirton, aged 2 1/2 years, youngest son of Dr. Geo. K. Shirton of Waterford, lost his life by drowning.

Mr. and Mrs. W. J. Glanfield, of Wallacetown, called on Mrs. Josephine Duxbury and Homer Trousdale. Abram Trousdale accompanied them to Midland for a short visit with Mr. E. J. Glanfield and family. They intend going further north for a two weeks' vacation.

There was a noticeable decline in motor traffic from U. S. going through the village during the past week due, no doubt, to the suspension of the ferry schedule from Erie to Pt. Dover. An average of 104 cars per day were carried by the ferry service during August, and about 85 per cent of these were routed direct to Jarvis en route to Hamilton and other points.

At the morning service in St. Paul's church on Sunday last, the rector, Rev. F. C. Walling, intimated to the large congregation present that a celebration of the Holy Communion will be held on Sunday next, September 1st, at 11 a.m., which will be the last one at which he would have the privilege of joining with them for some time. It is expected that a large number of Communicants will avail themselves of the opportunity to participate in this service.

Reeve Marshall reports that Port Dover is considering the passing of a by-law making it compulsory for all milk sold in the village to be pasteurized. Our reeve advocated such a plan when he was a resident in Port Dover some years ago, and the move has his hearty support. Buttermilk fed to the hogs must be pasteurized according to provincial statute, but it is left to the municipalities to pass by-laws enforcing pasteurization of milk for human consumption. There's something wrong somewhere.
