by Mr. and Mrs. Pond of Rochester. Large crowds gathered on both occasions, many returning from their distant homes and all report a very enjoyable reunion.

Bob Meickle and friend, Jack Eaton, of Toronto, made a bicycle trip to Jarvis on Wednesday. They will visit for a few days with the former's aunt and uncle, Miss Annie and Robt. McNeil.

Wesley United church congregation was highly favored by the presence of Mrs. C. T. Fish, of Chicago, who sang very acceptably at the Sunday evening service. Mrs. Fish was visiting friends in the congregation. She is the soloist in the High Park Baptist church in Chicago, Ill.

Here and There

"It is a good thing we left the tent flap open or he would have ruined the tepee into the bargain," said Belmore Brown, well-known artist who has been painting and sketching in the Rockies for a number of years. He was forced to return to Banff when a bear ransacked his provisions. Brown took the cases out of the tent so he could open and devour them at his convenience. It was possibly the same bear that tore the tent to bits a previous year when Brown thought he could safeguard his supplies by closing his tepee.

Dr. Wang Chung Hui, member of the judicial department of the Government of China, who arrived at Vancouver recently on the Empress of France, en route for the court of international justice at The Hague, of which he is a deputy judge, said when interviewed that China was now completely united and the Nationalist government firmly in the saddle. The main problem now before the government was that of transportation, he added.

Canada's national wealth is increasing at a rate of nine hundred million dollars a year, according to a computation recently made by the Dominion Bureau of Statistics. Ontario leads in total wealth with \$9,560,775,000. Other provinces follow in this order: Quebec, Saskatchewan, British Columbia, Alberta, Manitoba, Nova Scotia, New Brunswick and Prince Edward Island. While eastern provinces lead in absolute wealth, the western provinces rank highest in wealth per capita.

Canada, it was stated at a recent convention of the International Circulation Managers at Ottawa, has the largest foreign trade per capita in the world, the two greatest railways and the cheapest electricity. Canada ranks third in the production of the world's gold, third in silver, first in nickel and first in asbestos. More paper is handled in Canada than anywhere else.

A fast 20-foot quarter mile race track built up and surfaced like a good tennis court will be ready for the 46th annual Dominion track and field championships to be held at Banff next Labor Day. The infield has been specially prepared and resown and the grand stand enlarged. This will be the first time the Dominion championships have been held in Alberta since 1922.

Situated in the heart of the Rockies and of a huge natural game reserve and refuge, the animals at Banff are naturally very tame. Recently a bull elk who had been following with keen interest a game of golf played by Lou Crosby, charter member of the Banff Golf Club, poked up the ball after it had been played onto the 14th green, chewed it and finally dropped it in a bunker. Mr. Crosby is willing to take his affidavit that this occurred as described.

Opening of the Pines Hotel at Digby, Nova Scotia, late in June marks the interest taken by the Canadian Pacific Railway in Maritime Provinces tourist traffic. The hotel is handsomely appointed with special swimming and golf facilities and is a centre from which many interesting trips through the Evangeline country and all over Nova Scotia can be made.

Being Brave Doesn't Count

The man who will fight his weight in wildcats is as helpless as a babe in arms to ward off the menace of lightning.

Rely on yourself, if you will, to protect your loved ones and your property from danger with which you can cope. But don't leave them subject to the dangers of lightning any longer.

Let us rod your home and buildings with the DODD System of Lightning Protection.

Then you never can be "burned out" by lightning. Your property will not be injured. Your family always will be safe.

This protection is worth a thousand times what it costs if lightning strikes your home just once.
