ROCKFORD

(Continued from Page 1)

ford, took tea on Sunday evening at the home of Mr. Harry Paskins.

Mr. and Mrs. Ira Caswell and family spent Sunday with the Misses Bauslaugh in Waterford.

Mrs. Elizabeth Buck of Simcoe, accompanied by Mrs. Clarence McIntyre and sons Bobbie and Kenneth, of Duluth, spent Sunday at Mr. Harry Paskins. Mrs. McIntyre is the daughter of Robt. Paskins of Edmonton, formerly of Renton.

Mrs. Arthur Phillips and baby spent Sunday with her parents, Mr. and Mrs. David Petheram.

Mr. and Mrs. John Phillips, Messrs. David and Arthur Phillips, spent Sunday in Niagara Falls with the former's daughter, Mrs. Arlie Wilson, who is seriously ill.

Mr. and Mrs. Geo. Ward of Simcoe, and Mr. and Mrs. Peter Bauslaugh, of Mt. Zion, took tea on Sunday evening with Mr. and Mrs. Stanley Anderson.

NEW CITY APPEARS

(Continued from Page 5)

we finally decided to go through with the idea of a lighting institute in New York City.

"With the complicated mode of the present day demands for light, that particularly includes artificial illuminating problems and its attendant bad features in the way of working conditions, utilitarian conservation of human eyesight and the many traffic and industrial lighting problems, a Lighting Institute in New York has become essential.

"In brief, the purpose of this Lighting Institute," said Mr. Allen, "is to show lighting and the proper application of light in a manner that will be of as much interest to the suburbanite, or the farmer, as it will be to the metropolitan urbanite or airport floodlight electrician. Nothing has been overlooked nor done in a haphazard manner for the sake of effect. Everything one will see in the way of illumination in the Westinghouse Lighting Institute has been done for a very good reason — to demonstrate Lighting and the proper application of light."

One of the most interesting sections of the Institute is the transportation room in which is located an aviation field. There can be seen all the activities on an airport in full operation under day and night conditions. Every detail of illumination is shown from the elaborate floodlighting system to the illuminated wind-sock on the top of the hangar. This field is so arranged that it represents an area of 250 square miles. There the aviator can work out all of his many problems for safe night flying.

In another section of the Institute is found a model school room having accommodation for 35 people. It shows what hardly exists today: that is, adequate lighting for the school room—namely, the proper illumination on blackboard spaces, together with a modern general and unit system of ventilation. This room is also arranged for illustrating artificial daylight.

The art gallery of the Institute has many unequalled methods of illumination. In this room will be demonstrated a newly developed lens principle which permits the lighting equipment to be recessed on structural surfaces. This system allows the light to go to higher intensities and can be used in the operating rooms of a hospital where it is easily possible for a qualified surgeon to perform a major operation under the unglaring, high-intensity light demonstrated here, which functions without the least discomfort to the eyes of the surgeon or others in the room assisting him.

THE JULY ROD AND GUN and Canadian Silver Fox News

In line with the season of the year, the July issue of "Rod and Gun and Canadian Silver Fox News," Canada's national outdoor magazine, is devoted largely to the fishing and camping interests of outdoor life.

In addition to the regular Fishing Notes department capably conducted by G. P. Sladen, a couple of splendid yarns by N. Milton Browne and Rene de la Bruere appear in this issue. The contents include many excellent stories and features by Edward Ormrod, Bonnycastle Dale, C. S. Landis, J. W. Winson and W. C. Motley, providing a wealth of entertainment and information for the reader. Fox ranchers will find valuable information in the articles of the Canadian

Silver Fox News section. "Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor, Ltd., Woodstock.

Here and There

(342)

An Indian grave, discovered by accident by Canadian Pacific employees at work near Brooks, Alberta, last May, is considered by experts to be between 300 and 400 years old. It is thought the grave was originally above ground but the passage of centuries had buried the grave below the soil. An irrigation ditch was being constructed when the grave was discovered.

Tri-motored airplanes are being launched in one of the most spectacular fights in the history of aviation. War has been declared by the Canadian Government on the spruce bud worm and the airplane is to be the principal arm of the service. Planes each carry 1,600 pounds of powder, and will dust it while flying low, over the tree tops.

The blueberry industry is showing much improvement in Yarmouth and Shelburne counties, Nova Scotia. Last year there were only 4,000 acres of crown land burned for blueberry growing; this year 10,000 acres have been burned. Value of crop last year was \$65,000 and it is estimated that the crop's value could be increased to half a million dollars.

The province of Alberta has adopted Old Age Pensions, the funds for which are provided by co-operation between the federal and provincial governments. The scheme has now been adopted by all Canadian provinces from the Quebec boundary westward.

Though crops in several parts of Western Canada would be benefited by rains, crop outlook on the whole is very promising. Reports from all parts of Saskatchewan are generally encouraging. The Alberta report is good, especially the Peace River country where present prospects indicate one of the best crops on record. About 25,000,000 acres are sown to wheat in Canada this year. Last year the Dominion harvested over 533,000,000 bushels of wheat, the largest crop in the country's history.

The fourth annual midsummer gathering of the Swedish-Canadian League held a two-day convention at Lac du Bonnet, Manitoba, recently and decided to build a home for Old Swedish folk at Winnipeg. Another feature of the gathering was a pageant of old Swedish folk-dancing and songs presented in old-time costumes. Many of the dancers were the same who appeared at the Regina festival held earlier in the year at the Saskatchewan hotel in that city.

A list of extraordinary accidents that recently been published concerning motorists at level crossings and included the following:—One driver parked car on tracks and went to sleep. 44 motorists drove into the sides of moving trains. 33 drove into the sides of standing trains. One tried unsuccessfully to drive between railway cars while they were switching. Seven went for a drive along the tracks and met express trains. One driver left his car on the tracks while he went to search for something he had dropped on the road; when he returned there was nothing left of the car. Eleven found out too late that their brakes needed relining.

MAYFAIR

Monthly

\$3.00 one year
\$5.00 two years

Mayfair reflects from all over the world and all through Canada the current of Canadian social and sports life which converge in Mayfair. It is the mirror of moving life, ever stimulating days, interesting people, and the changing panorama of vivid events.
