Ten Years in Hospitals

How would you like to spend ten
years of your life in hospitals? Per-
haps you would be glad to if you had
no other home most of the time and
the hospital offered the only chance
of staying alive. Mrs. Patrick has
been living this way for years. Her
trouble? Common enough—consump-
tion. And she is poor and almost
helpless. Her present stay at the
Toronto Hospital for consumptives
has done her so much good, however,
that she believes she will stay out
for good when she leaves. She is
anxious to get away to a quiet life
in some small town, perhaps to open
a small millinery shop. The excellent
treatment she has been getting has
put her life and health in Mrs.
Patrick's hands. She has been in
hospital out of course, and so
she has lost her last cent in the
search for a cure. A contribution from
you would be greatly appreciated.
Such may be sent to Hon. W. A.
Charlton or A. E. Ames, 223 College
Street, Toronto 2, Ontario.

CREAMERY MONOXIDE

The manager and government in-
spector made a tour of inspection on
Monday.

Bill wondered why his gas bill was
so high during the week he was in
Toronto. Ask Laird.

Fitz seemed to have met his match
when the chief took things into his
own hands.

Stewie chauffeured the National to
Selkirk with a load of coal on Mon-
day.

Len says he certainly enjoyed the
soil snap he had while working on
the butter table.

Laird has been having a few holi-
days from the office, which were
scarcely appreciated, as he spent
them in the dental chair. However,
the shining row of gold which he is
now able to display, is some com-
pensation for the agony he endured.

Spring is here — the boys have
started housecleaning. Thorne is
handling the cream factory and the
Chief the casein plant.

The girls are taking over the su-
pervision of the flower beds, there-
fore, the flowers will bloom early
this year.

Newt and Fitz were guests at the
Pantagos one night last week. That's
how the drivers put in their time.

Mr. J. I. Flatt paid us a recent vis-
it of inspection.

Passersby have been having to de-
tour when they passed here on ac-
count of mud, but the General has
been out repairing the default, and
pedestrians will find it much more
pleasant hereafter.

It has been rumored that Newt is
going to start a taxi service from
Shaver's Corners to the factory.

Here's a problem — The General
says a thermometer will read the
sum in the wind as it will out of
the wind. If you think it won't, ask
the General.

Laird says he is glad the warm-
weather is here. It's a cold job to

stand at the back door of the church
waiting for the choir to come out.

The sudden cold snap brought a
temporary ending to the houseclean-
ing activities.

Stewie has a new job as doorman.
His duties are to close the doors when
anyone goes out and leaves them
open.

Muriel made the purchase of some
all day suckers for some of the staff
the other day.

We are pleased to report Len back
to his old job on the porch, after a
hard earned rest.

Our celebrated pianist, Prof. L.
E. Marshall, I.O.U., N.S.F., honored
the Short orchestra by several ac-

companiments on Thursday night of
last week.

Ambition was sure lacking last
Friday morning for some of the staff.

NEPTUNE TO VISIT WORLD CRUISERS

The certificate shown above will be issued to all passengers aboard the Empress of Canada who appear
before Neptune, as did these passengers on the Empress of France last year, who are shown in pictures
and 2.

When to travel upon the sea was to venture in great
danger it was usually thought wise by the voyagers
to propitiate the god of the waters by making gifts to him
before setting sail, and oftentimes, when Neptune dis-
played his wrath at sea, human sacrifices were made to
him. To our superstitious ancestors the son of Saturn
and Ops had great power over the waves, especially those
of the sea, and had, therefore, in his hands the welfare of
all vessels and their human and other freight. The
worship of Neptune was early introduced into Rome,
and July 23rd, "Neptunalia," was his feast.
As science reduced the terrors of the sea, and
education and higher civilization erased the sometimes
terrible superstitions from the minds of the world, so the
worship of, and sacrifices to Neptune ceased, but even to
this day he is venerated by many Latin and Scandinavian
sailors and no ship crosses the equator without some
recognition being made of him. Usually this takes the
form of a burlesque performance in which those who are
making their first "crossing of the line" are initiated into

the mysteries of the deep.
The unique photograph reproduced above was taken
aboard the Canadian Pacific "Empress of France" while
on a "Round the World" cruise last year. Neptune
boarded the great liner in the early morning of the day
on which the "line" was crossed, and held court. He
was attended by the Royal Barber and other high
officials who assisted in the initiation ceremony. Most
of the passengers were summoned to his august presence
and were tried for their misdemeanour, punishment or
praise being awarded without favor. Those who pro-
duced evidence of having been "initiated" before were,
of course, exempt from trial.
This year, when Neptune boards the Empress of
Canada, which leaves New York on a Round the World
cruise on January 26th, his secretary will issue to all those
who pass before the God of the Waters, certificates to
that effect, which will be countersigned by Captain S.
Robinson, R.N.R., who commands the vessel, and which,
besides being valuable souvenirs of the trip, will exempt
the holder from further trial.
