WOMEN'S MISSION CIRCLE THANKOFFERING MEETING

The Women's Mission Circle of the Victoria Baptist church held a Thank-offering meeting in their church on Wednesday evening, April 17th. The President opened the meeting with a praise and prayer service. Two young women of the choir, soloists, rendered some very fine messages in song. Mrs. Brooker brought us a message from Bolivia. Then the meeting was turned over to Miss Stillwell, the Director of our women's work of our Norfolk association. Miss Stillwell in speaking said: "Our command, 'Go ye,' did not mean merely in the homeland, but unto the uttermost parts of the world; and Christ promise, 'Lo I am with you always even unto the end of the earth,' was sure." She said she was glad of the work being done among our new Canadians and that they were a real credit to us, and if they kept on progressing in knowledge at the rate they were going, it would take the old Canadians (ourselves) all our time to keep pace with them. She said our greatest need was workers for our foreign field and money to send them and carry on the work. She spoke of the work being done in India, the change in the lives of the Telugu people since the gospel had been given to them and how they were making sacrifices to help themselves, and yet there were millions who had never heard the Gospel. She said she hoped, if we remembered any part of her message, it would be to pray for workers and money to send them. In closing her address, she quoted these lines:

Christ has no hands but our hands,
To do His work today;
He has no feet but our feet,
To lead men in the way;
He has no tongues, but our tongues,
To tell men how He died;
He has no help but our help,
To bring them to His side.

We are the only Bible,
The careless world will read;
We are the sinners' gospel,
We are the scoffers' creed;
We are the Lord's last message,
Given in deed and word;

What if the type is crooked,
What if the print is blurred;
What if our hands are busy,
With other work than His;
What if our feet are walking,
Where sin's allurements is?

We appreciated very much Miss Stillwell coming to us for she brought us a very practical and interesting message.

The meeting was closed with a hymn and prayer by the pastor of the church. Then lunch was served in the basement and we all enjoyed a social time together.

GOVERNMENT GOES IN FOR TAGGING OF FISH

Experiments Will Be Carried Out On Wholesale Scale by Ontario Dept. Of Game and Fisheries—Will Pay 25 Cents for Every Tag Returned.—Station Will Be Established at Port Dover.

EFFORT TO TRACE MIGRATIONS

A fish tagging policy has been adopted by the department of game and fisheries in the interests, particularly, of Lake Erie commercial fishermen, and will be put into effect immediately. With it the department hopes to trace the migration of fish in this lake and by doing so to devise ways and means of improving the decreasing catches which, in recent years, have drawn so much complaint from the fishing industry in general.

Special Station at Port Dover.

Actual tagging will be done by departmental officials and a special station is to be established at Port Dover for the purpose. Tagging will be carried on all this summer, altho the bulk of the work will come in the fall months when the fish are spawning. Some tagging of whitefish and blue pickerel was done last year, but what the department will attempt this season will be on a wholesale scale.

Selected fish from pound-net catches at Port Dover will be tagged and then liberated. The department in enlisting the co-operation of all fishermen in the scheme and is prepared to pay 25 cents apiece for every tag returned. The tag to be used is of a non-corrosive material, has the letters O.D.G.F. (Ontario department of game and fisheries) stamped on one side and a serial number on the other, and will be fastened to the underside of the fish at the base of the tail.

Instructions Given.

Special instructions as to how returns of tags are to be made to the department are now being mailed to all commercial fishermen not only on Lake Erie, but throughout all the Province.

Since the first of the year the department has had 860 applications for fry and fingerlings of various varieties for restocking purposes. To date these appeals have been met with distribution by the department over the Great Lakes and Lake Nipigon of 227,500,000 whitefish fry and 22,685,000 herring fry. Figures on game fish fry and fingerling distribution are not available at the present time.

The Gateway of C. P. R. Connections to New York

At the heart of New York, at 42nd Street is the New York Central Station where Canadian Pacific trains from Montreal and Toronto arrive and depart. The above is a photo of the New York Central building which is a part of the station building and is one of the outstanding buildings in a city of wonderful buildings. Standing almost forty stories high at the head of Park Avenue, it rises well above the high buildings surrounding. It is of gold relieved by brilliant reds and greens and when lit by a battery of flood-lights at night it is one of the beauties of New York and can be seen for many miles around.
