SHAKES OF PROPAGANDA

Open discussion of governmental programs and policies is as desirable as it is legitimate, whether before legislative committees and administrative commissions, or in an appeal to public opinion. But when the purposes of such discussion are subverted and resort is had to disguise and intrigue and to camouflage of ulterior motives, the lobby and the propagandist become undesirable and menacing. Particularly offensive and reprehensible is such trickery when directed against international relations, or when the declared program of a government is the object of undermining strategy.

The activities of William B. Shearer, lobbyist for the big-navy interests, come under the latter description, according to his own admissions. He has revealed enough of his insidious activities, and their inspiration to warrant the projected senate investigation and justify President Hoover's order directing Attorney General Mitchell to conduct a separate inquiry.

From these inquiries the public fully expects to learn that American interests, actuated by hope of private gain, were largely responsible for the break-down of the last armament reduction conference and for the failure of the League of Nations commission to decide upon a disarmament policy. If such was the case, it will prove embarrassing to the United States, which will be placed in the position of having thwarted her own scheme for world disarmament.

America's enemy within is the clique or interest which would deny the people the right to know to whose voice they are listening and a reasonably fair opportunity of judging the motives of the appeal.

FREEDOM FOR STUDENTS

An eastern college across the border this year is experimenting with a scholarship for seniors, which not only pays the student all his expenses during his senior year at college but leaves him free to pursue culture as he pleases, or not to pursue it, if he pleases to do that. It is not even compulsory upon him to attend classes.

Almost unqualified liberty is aimed at. It is frankly a blow aimed at the schoolmaster relation, which many think redounds to the benefit of the master, not the pupil.

Much ink has been spilled about the subject of academic freedom, but nearly always with reference to the freedom of the professors to do various things, sometimes obviously absurd or ridiculous. It is not time to consider seriously the subject of the freedom, within academic precincts of the student to develop his intellectual powers in the way he personally wants to?

This idea, in American education, is revolutionary. Not even graduate students are granted enough liberty for the graduate student, while he may choose what he will study and how many years he will take to study it, is pretty well restricted in other ways. If a degree be his object, he must conform to a course of study laid out for him by the university, even his thesis is written on an assigned theme.

The American system of education, even in its highest branches, rests on the theory that the student must be guided, that he is not fit to be trusted with liberty. He is not even free to think for himself.

BASEBALL CLIMAX NEARS

With the championships of the two major baseball leagues decided, freedom, tense and expectant, looks forward to the world series. Its importance can be likened to that of children on Christmas eve.

From now until the Philadelphia Athletics and the Chicago Cubs on a common field of combat decide which is the world's best baseball the U. S. will be a nation divided against itself. No one is entirely indifferent to the "series" and everybody is picking the winner.

Every day during the baseball season the diamond attracts millions, but the king of American sports most dramatically shows its tremendous grip upon the nation during the play-off of the world series.

For four or more days beginning October 8th a large portion of the nation's populace will be found each afternoon in the stands at Chicago or Philadelphia and in front of newspaper and other bulletin boards in every city, town and village of the land. A visitor from a land where war is the favored sport would liken this scene to the waiting for news from the front.

Until after the last game has been played it will be treason in the eyes of the true fan to wish both teams luck and to hope that the best team win.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN.

TUBERCULOSIS IN CHILDREN

At the last annual meeting of the Canadian Public Health Association, Doctor R. M. Price reported the results of a research which is of public interest. This research was concerned with the important subject of the spread of bovine tuberculosis, this is, the type of tuberculosis from which cattle suffer and which also attacks children.

From the report, the following statements are quoted: "The incidence of bovine infection in man, therefore, depends upon the amount of tuberculosis in cattle from which the milk is obtained, and the amount of raw milk consumed by children." "In Canada, about 5% of cattle tested react to tuberculin." "The younger the individual, the greater is the probability of the infection through the milk consumed, and the more likely is the case to be due to the bovine type."

In a group of 148 children studied, the bovine type of tuberculosis was found in 20 of them. Of the 128 children who showed infection with the human type, most of them gave a history of living in contact with a case of pulmonary tuberculosis. In many of the bovine cases, there was a history of the use of raw milk, and in most cases, the relationship to milk was shown.

The important and most instructive

RECORD RAMBLINGS

We always call it the week end, but it seems to develop a stupendous amount of energy.

Unconventional young bandits in Indianapolis fled the scene last week in a slow, dilapidated car.

The only real objection to eating corn on the cob is a slight tendency to wear the sleeves out at the elbows.

An eye specialist says green has the most sedative effect on the nerves. The yellow on 20's is also a balm.

Another young man, who spent two weeks on the resort porch talking big figures, is now back, writing freight-car numbers on the waybills.

SKUNK OIL

When Father Jones gets "skunked" all Geo. Webb can say is "Snuff sed." "Fishhook thinks they ought to 'jig' 'em both."

practical point is that all of the children who had the bovine type of the disease came from places where the milk supply was not pasteurized. The group studied included a number of children living in the City of Toronto, and not one of these children had the bovine infection. The milk supply of Toronto has been pasteurized for a number of years.

It is hardly necessary to draw conclusions. It is evident that, by pasteurization, we can eliminate the bovine type of tuberculosis, which is responsible for quite a percentage of tuberculosis among children, who use raw milk. Disinfection, disinfection, suffering and sometimes, death are the results of bovine tuberculosis in children. Pasteurized milk is safe and its use safeguard children from many diseases, including bovine tuberculosis.

Questions, concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

THE SEPTEMBER ROD AND GUN and Canadian Silver Fox News

With the approach of fall, thoughts of sportsmen are turning toward the hunting of both deer and feathered game. The September number of "Rod and Gun and Canadian Silver Fox News," just issued, contains an exceptionally fine article on deer hunting by C. N. A. Ireson, which will prove of great interest to the devotees of that sport.

However, this is only one of a collection of equally good articles and features which deal authoritatively with the other departments and adventures in outdoor life and which provide thoroughly good reading for all interested in outdoor life. Open seasons for game throughout Canada "Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor, Ltd., Woodstock, Ont.

Here and There

Honorable George, aged ten, and Honorable John, aged 9, sons of Canada's ranching peer, Lori Rodney and descendants of a famous British Admiral, recently travelled 4,000 miles from Port Saskatchewan, Alta., to England, to enter a public school in the Old Country. They took the long journey unaccompanied, travelling on Canadian Pacific lines and by Montreal. C. P. R. officials looked after them on the long trip.

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the Baldwin administration, who arrived in Canada on the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, crack Canadian Pacific flyer, for Banff and Lake Louise whence he reached his objective and namesake, 11,000-foot peak which he will climb.

Miss Georgia Englehard, daughter of a New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the championship Holstein herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the bull classes with junior and reserve senior championships in female classes and in group classes won first for exhibitors first for young herd, first for progeny of cow, second in breeders herd and second in get of sire.

Judges of piping and dancing at the forthcoming Banff Highland Gathering and Scottish music festival to be held August 30, September 2 have been announced. They are, Colonel Alexander Fraser, Donald E. MacPherson, Murdoch McLeod, George Murray, all of Toronto; William Ferguson, of North Bay; Neil Sutherland, of Regina; and Alexander Hosie of Medicine Hat. Coincident with the Festival, the Dominion Field and Track championships will be decided at Banff Labor Day.

Output of creamery butter in Saskatchewan for the first six months of the year is exactly 45% greater than for the similar period in 1928, according to a report of the dairy branch of the provincial department of Agriculture. In the first half of 1929 it was 6,128,044 as against 4,215,249 pounds in the first half of 1928.

The Canadian Pacific Railway will be represented at Fall Exhibitions in Eastern Canada this year at Toronto, Quebec, Sherbrooke, Saint John and Fredericton by models of the system's scenic, hotel, oriental and general details of the company's travel, express and telegraph activities. There will be a special building devoted to C. P. R. matters at the Toronto Exhibition, while activities dealing with other parts of the country will be shown at other cities. A number of special trains will be run to these exhibitions.

Jarvis Fall Fair September 26-27

SPECIAL PRIZES

FOR JARVIS AGRICULTURAL SOCIETY - 1929

- 1.—By Geo. L. Miller, for best 5 lbs. Buckwheat Honey in comb (honey retained) \$2.50
- 2.—By John Mitchell, one bushel Northern Spy apples (retained) \$2.00
- 3.—George Webb, for best 4 lbs. Dairy Butter (retained) \$3.00
- 4.—Geo. L. Miller, for best 5 lbs. Clover Honey in comb (retained) \$2.50
- 5.—George Mitchener, for best 2 lbs. Dairy Butter (retained) \$2.00
- 6.—By J. A. Burwash, for best 5 dozen Eggs (retained) \$3.00
- 7.—Dr. E. M. Jones, for best bushel Northern Spy apples (retained) \$3.00
- 8.—Thomas Harris, Butcher, for best 5 lb. pail of Extracted Honey (retained) \$2.50
- 9.—J. M. Schreiber, Phm.B., for best bushel Northern Spy apples (retained) \$3.00
- 10.—N. R. Pond, General Blacksmith, for best bushel McIntosh Red apples (retained) \$3.00
- 11.—W. Willis, Barber, for best bushel of Potatoes, any variety (retained) \$2.50
- 12.—J. E. Kindree, Drover, for the best 3-lb. box of Home-made Candy (retained) \$2.50
- 13.—W. J. Huges, Tobaccoist, for best bushel of Potatoes (retained), Box of Cigars, value \$2.50
- 14.—E. T. Carter, Hardware Merchant, best bushel Northern Spy apples (retained) \$3.00
- 15.—J. G. Miller, for the heaviest Dozen Eggs (retained) \$1.00
- 16.—Fred W. Reicheld, Seed Merchant, for best half bushel Alsike Seed \$3.00
- 17.—W. Duxbury, General Merchant & Harness Maker, for best Cockerel and Pullet raised by girl attending Public School in the Township of Walpole, 1 pair City Rubber Boots, sizes 1 to 3, value \$4.50
- 18.—Ivan W. Holmes, The Furniture Man, for best bushel McIntosh Red apples (retained) \$2.50
- 19.—Anderson's All Hour Service Garage, for best bushel Irish Cobbler Potatoes (retained) credit value at service station \$3.00
- 20.—R. A. Nelles, American Hotel, for best bushel Snow Apples (retained) \$2.50
- 21.—R. A. Nelles, American Hotel, for best 4 dozen Eggs (retained) \$2.50
- 22.—R. A. McCarter, Implement Dealer, for best 4 dozen White Eggs (retained) \$3.00
- 23.—S. R. Leatherdale, Grocer & Baker, for the best Cake, Devil's Food, 1st \$2.50
2nd \$1.50
3rd \$1.00
- 24.—D. B. Robertson, for the best Apple Pie (pie retained) \$2.00

your BUILDINGS from
FIRE AND WEATHER

Put it on with
PRESTON
LED-HEAD NAILS
(shown above)
Specially adapted for
use in putting on metal
roofing. The lead on
the head positively
seals the nail hole—
making it weather-
tight and water-proof.
No washers; no more
"threading." Zipper-
free sample on request.

Prevent Spontaneous Combustion
and have a Well Ventilated Barn
Warm, moist air in an improperly ventilated barn produces conditions conducive to spontaneous ignition. Preston Ventilators for the roof, adjustable side-wall windows and spacious doors protect the barn from fire dangers by keeping the air in constant circulation. They are built to keep the elements out. Write for full particulars.

Barn Door Tracks and Hanger
Preston hot-galvanized four-wheel Hangers and birdproof Barn Door Tracks are the best hardware made for heavy barn doors. The Hanger is adjustable up and down, and in and out. This makes erection so easy that hundreds of builders will use no other type.

PRESTON STEEL TRUSS BARN
The strongest barn on the market. There are more Preston Barns in the Province than all other metal barns combined. Fireproof, roomy, well ventilated, handsome. To our knowledge, no Preston Steel Truss Barn has ever been destroyed by lightning or spontaneous combustion. Write today for our big Barn Book.
