Crops, property and livestock destroyed by fire and lightning last year amounted to more than $7,000,000 in Ontario. That's one of the reasons so many farmers are now using RIB-ROLL —the original nine-style roofing. It defies fire, eliminates up-keep, increases property values and lasts a lifetime. Protected against Lightning when properly grounded and equipped with Preston Patented Ventilators—as required by the Lightning Rod Act. Each sheet has seven ribs—a nail every five inches. It is wonderfully easy and inexpensive to lay. Made of the famous "Council Standard" quality. Under the most severe weather conditions RIB-ROLL keeps every building on the farm safe and secure.

Use Rib-Roll Roofing and Preston Led-Hed Nails

RIB-ROLL and PRESTON LED-HED nails form an unbeatable roofing combination. The nails are scientifically designed to use with metal roofing. No punching or threading required. Remarkably easy and speedy to use. The lead on the head completely seals the nail hole—making it rust-proof, weather-proof and water-proof. Write for free sample of RIB-ROLL and PRESTON LED-HED NAILS.

FREE BOOK

"The Preston Book About Barns" is worth money to you. Gives a world of information about modern barn-building. Write for it.

Preston Steel Truss Barns

No barn made equals the strength and fire resisting qualities of the PRESTON STEEL TRUSS BARN. Built with rugged Steel Trusses. Braced against wind pressure from every angle. No center supports or columns. Well ventilated, well lighted. More than 1,000 in Canada—not one lost through lightning. We save your shelves and make liberal allowance for them.

Preston Barn Ventilators

Abolish danger of spontaneous combustion. Use Preston ventilators for roof, side wall adjustable windows and wide doors. They draw out the vapors, make air and assure proper ventilation.
