I CALLED OF GOD, Gen. 12: 1-5. Abram, as he was first named, had come originally, with his father, his wife Sarai, and his nephew Lot, from the city of Uron on the lower Euphrates River, to Haran, an important place more than five Lundred miles to the north-west. Here the road from Nineveh to Carchemish was joined by the road from Damascus, and Haran was therefore a meeting place of caravan trade from the east, the west, and the south, whose merchants many centuries after the time of Abram are mentioned as still trading with the great seaport of Tyre (Ezek. 27: 23).

So writes one of the best known interpreters of the book of Genesis, "God's voice is to be thought of not as something external, but as heard within Abram's inmost soul." What conditions of life in Haran may have affected the mind of Abram at this time and made him more receptive of the divine call we do not know. When cloths or chamois are to be used in cleaning windows, it is an excellent plan to wipe the panes first with a wad of dampened paper, that of the tissue toweling type being especially good for the purpose. This removes most of the grime so that the other cleaning agents do not get oiled so quickly. Some women follow this plan by merely rubbing with a dry piece of old taffeta silk, which leaves the windows bright and clear. Many home makers who use chamois for this purpose do their window washing between times of loading the washing machine on wash day. Instead of taking the time to wash out the chamois, this arrangement does that work for them by merely dropping the skin into the machine, whence it emerges ready for the rest of the windows or for drying. larity more and more every day.
