## LOCAL HYDRO POWER UNSATISFACTORY

If the Jarvis Record is a day late arriving at your home, do not blame us. A month ago the Record office called up the Hydro Office over the low voltage of power. They did not believe us when we told them the voltage fluctuated about 40 volts, so to satisfy themselves they put a meter on, that registered the fluctuation at different periods, for hours, it dropped from 25 to 35 volts. At this low rate of voltage it is impossible to operate the Linotype. So this explains the delay in getting your paper to you on schedule time.

We are not the only ones who are complaining about this poor service. It is about time our Board of Trade took the matter up with the Hydro Company to see why we are not getting the service that we pay for.

The mechanical problems in the Record plant are bad enough, but when it comes to a stage of no electric power in this modern age, it is about time something was done to offset this problem.

## AROUND THE WORLD IN 65 DAYS

On Monday last, July 7, a weary traveller stopped at the Turnum for lunch. His name was Captain Eugene Wozier. He comes from Downagiac, Mich. and has credentials showing that he was in active service in the Air Force. Capt. Wozier has accepted the challenge of a wager for \$2500.00 to complete the circle of the globe in 65 days. He had six cents in his pockets when he arrived at the Turnum. He stated to Mr. Parsons that he expects to make his journey over the ocean in the Graf Zeppelin. A newspaper in the States is sponsoring the wager. Word is passed along ahead of him and he receives assistance as he travels along. He will need lots of it before he completes his journey.

## RE-UNION

On Tuesday afternoon, July 1st, Mr. and Mrs. Magnus Banks, entertained a large gathering of former residents of Cathnes County, Scotland, and the descendants of former sons and daughters of that historic old Country. The Clan were summoned for the purpose of bidding a good old Scotch welcome to a very distinguished resident, of the Town of Wick, in the person of R. J. G. Miller, Editor-in-Chief, of John O. Groats Journal.

In an interview with Mr. Miller, relative to conditions in the homeland, he expressed the feeling that the serious unemployment condition was due to industrial stagnation, and the only remedy was for the wheels of industry to start turning. The Islands now contained over one and one half millions of unemployed. There were two things he expressed particular delight in, one was the hearty reception received from his Scotch Canadian friends, and the other a particular liking for oatmeal porridge.
