TOURISTS ARE NOW A LEADING INDUSTRY

The value of the American Tourist traffic to Canada may be gauged by the recent statement of Herbert M. Bratter, of the finance and investment division of the United States Department of Commerce who says that last year 16,350,000 Americans visited this country.

The American tourist movement to other countries does not begin to approach the gigantic scale of the traffic in Canada. "Tourism" is now the 4th greatest industry in Canada.

The accident happened while he was driving along the Nanticoke road. Just how it happened no one seems to know, but it looks as if he was going pretty fast and the car got out of control. The car was badly wrecked and Mac is lying in Simcoe Hospital at death's door, with a fractured skull, a broken shoulder and leg also many face and body bruises.

VOTE FOR MARK SENN, A Farmer

Vote for a Government that will protect Canadian Farms and Canadian Industries First

MARK SENN
Conservative Candidate
For Haldimand

Canada wants a Canadian tariff to suit the needs of Canada.

Not a Washington made tariff.

Rt. Hon. MacKenzie King, Liberal Premier of Canada, says he will not give a 5c-piece for unemployment to a Tory province.

Cast your vote for a Conservative Government and you will have a Government that will be fair to every part of the Dominion, giving equal rights to all.

The King Government instituted the New Zealand trade agreement that has flooded our markets and cold storage houses with New Zealand butter.

Millions of dozens of eggs have been imported from China and the U. S. A. No provision has been made in our trade agreements that they should give our farm products a preference.

The Conservative party, under the leadership of Hon. R. B. Bennett promises to protect Agriculture and industry against this unfair competition.

IT'S TIME FOR A CHANGE
