### OMNIPOTENT POWER

The great mystery of "Life" has ever been a great problem to every one. Teachers, Lawyers, Professors and men of keen intellect have tried for years to produce a practical definition of Life and the Power that lies behind it. That which baffles them is the unseen power that controls life.

Humanity has always believed in, only, that which you can see with the physical eye or touch with the hands. Physical beyond that causes a doubt to arise in their minds. But Education has been a great teacher and has taught all those willing to learn that the greatest powers in the world today are things unseen to the physical eye. Paul of Tarsus was one man who recognized this power after his trying experience on the road to Damascus. Before that he was all for himself. It was by his might and power that he went everywhere prosecuting the Church and throwing innocent people into prison, but the blinding light of God's Omnipotent Power brought him to a lowly attitude. He was like a child who had lost its way. But the willing and honest heart of Paul desired to know what this power was that had overcome him, and he grew in the knowledge from whence this power came. Then he made this statement, that "Unseen things are the real things."

Many people make the statement with pride in their heart that they have seen the King or the Premier. They may have seen the clothes they wore or the eyes through which their soul looked, but know man has seen the real King or Premier, only God. The real man or woman is hidden behind the exterior. That is why the Great Philosopher said "Judge not" You may meet one person who is everything their appearance portrays while the next person may have a character or career so black that it would make you shudder to know the evil contentions of their soul. "Be ware of those dressed in sheep's clothing." Many foolish women of today meet, what they term the king of Broadway, dressed in the latest fashion, a smooth talker, and who promises the foolish ones, cars, wealth and all the luxury that they want, while all the while his heart is full of evil designs. By the power of money he hopes to win his desires while the foolish ones gaze upon him with admiration, and think he is grand. There is only one power that can be relied upon to-day—the real power, that never deceives or fails—the Omnipotent Power of God.

The unseen things are mysterious to us. Electricity is a mighty power yet we cannot explain it. We can see it burn as it passes through the filament of the globe, but what is it? The mystery of the radio waves bring us into another field of mystery. We can go to the broadcasting station and see the artist when he speaks into the microphone, see the broadcasting tower, but you cannot see the waves that instantaneously carries the voice to your receiving set. A marvelous power unseen to the naked eye.

"Unseen things are the strongest." Science reveals to us that the unifying power that holds steel together is called cohesion. We cannot see it yet it holds together great steel structures. Year after year science keeps revealing to us some new power. It is not a man-made power but the omnipotent power of God. It has been revealed to us through the pages of history that all those who became endowed with the omnipotent Power accomplished great things in life.

They did not rely on their own strength but drew their source of power from the broadcasting station of G. O. P. (Gods Omnipotent Power) If the men who rule and govern our country were endowed with this power what a wonderful change would take place. So let us give recognition to this power and give it full swing of our actions and speech.

## News of the Countryside

From The Record's Correspondents

### SELKIRK

The Women's Institute meeting on the first Thursday afternoon in August will be "Grandmothers' Day" and the annual picnic combined, held on the lawn at the home of Mrs. J. P. Hare. Members and their families are invited. Bring lunch.

Master Howard Saunders is recovering nicely from a tonsil operation last Monday.

### MAIN STREET APPLE SAUCE

Nobody knows which way the Main Street Apple Sauce Editor voted, anyway he is still with those employed and on the payroll.

### LOST—ONE SHIRT

An excited sheik last week went dashing madly round looking for a certain shirt. That nowhere could be found.

He looked through the wash room Attic and basement too. He stormed and raved at everyone until his face was blue.

Now Georgie is the kind of boy that leaves his clothes on the floor and wonders why they can't be found. When dressing to see Ver-a-dore

The shirt was found at last. Just one hour late. Then he hurried off to Hagersville. To keep his heavy date.

### LOST IN THE COUNTRY

A funny thing that happened. Just last Thursday night. A little girl went driving in a roadster. Oh! so bright.

Now listen, Dorothy dear, Next time that you do roam. Be sure to wear a little bell. 'Twill help to bring you home.

### NINE-NINETY

Means

### A Pequegnat Clock Value

8 Day Movement  
Cathedral Gong  
Tambour Style  
Walnut or  
Mahogany Finish.  
Made in Canada  
Fully Guaranteed

\$9.90

Smith's Jewelry

	\$154,965.00

(Continued next week.)

## Three Generations of Golfers

Golfers, like poets, are born, even though, unlike poets, they are also made. But when a six-year-old girl makes a par-four hole in seven including a drive across the Spray River, and when her mother, further, her grandfather is the professional at the Banff Springs Golf Course—why then, you have to allow a little something for heredity. The above data cover the facts in the case of Lois Dalgleish, 6-year-old daughter of Mrs. Peggy Dalgleish and granddaughter of William "Bill" Thomson, professional at the Banff Springs Golf Course since 1910. "Start them young" is a good rule in any sport, but is particularly applicable to golf. Lois' mother began her golfing career at six but Lois herself commenced at four, when her grandfather purchased and spent hours of patient training with her—hours result in that a child of barely school age is doing what many adults and in fact many golfers cannot do, namely, making par four holes in seven strokes while her putting is beautiful to watch. Lay-out shows the spectacular drive across the Spray River which features the Banff Springs Golf Course; the three golfing generations; Lois swinging for the drive across the river; and Lois putting—true as a die.
