Future to Offer  
Rustless Fords?

Rustless steel, which the Ford  
Motor Company of Canada, Limited,  
is introducing this year in exposed  
metal parts of the new models, is  
one of the miracles of modern science.

The problem of rust increased in  
direct proportion as man's use of iron  
and steel increased, until of recent  
years the cost of rust in the aggre-  
gate yearly waste has amounted to  
staggering figures.

The introduction of chromium plat-  
ing was heralded by many manufac-  
turers as a great step towards the  
conquest of corrosion.

Rustless steel, of course, is more  
expensive than plated metals. But  
the economies of mass production  
have made its use possible in the low-  
priced Ford cars.

Spain Comes to Paris

Paris—An army of animal lovers,  
armed with smoke bombs and tin  
whistles, organized an automobile ex-  
pedition from mid-Paris recently and  
moved against Melun, 25 miles south  
of Paris, to stop a bullfight.

The Path  
By BETTY GOURRE  
The path that leads to my castle of  
dreams  
is narrow, winding and steep;

It winds and twists as it leads me on  
And each curve brings new hardship  
it seems;

A man somewhat under the influ-  
ence of good-fellowship attempted to  
pass through the revolving door of a  
restaurant.

"A Miracle!"

Grippe now walks well thanks to Kruschen  
"For over eight months I was laid up with  
rheumatism, unable to move when I was advised  
to try Kruschen Salts. It is almost a miracle,  
but without a word of a lie I was able to be  
taken to the front door in less than a week! In  
a few days I was out with the help of crutches,  
and in a short time I was walking well. This  
is not a one-week testimonial, but four years.

Original letter on file for inspection.  
Kruschen Salts is obtainable at drug and  
department stores in Canada. I will close my letter  
hoping you will publish it for others to see.
