EDITORIALS

ELIMINATION

How many things there are in life that become, what we think, essential things, yet when we come to measure them up with the real things of life we find that these supposed to be essential things are only chaff, useless, unprofitable habits and ambitions. We drift into a craving appetite for many things which we knew at the beginning were wrong yet we foolishly consoled ourselves by saying that other people did this or that and it was alright. Then after years of experience and development we find our little desires have grown into big ones and have become our masters. The reality of life has left us, our morals have become undermined.—Our life so full of unnecessary chaff that when it comes down to the part of elimination of the bad, which is to be cast aside, behold we have nothing left! Oh what a house cleaning our brain and soul needs!—What a purging! Did you ever take an old piece of tarnished silverware and you debate in your mind whether it is worth cleaning up or just throw it out into the junk pile. Have you ever seen people whose morals of life were so tarnished that they are ready for the junk pile.

Many people are able to throw off all the chaff and junk in one great decision of determination to free themselves and by God's help they do. They take a new lease on life; they have passed through the door of what is termed as conversation.

Many people fail to grasp the meaning of the great Teacher and Philosopher who said "Ye must be born again." He is not referring to the physical but to the mental condition. The Elimination of all that is detrimental to your development of a better life.

Have you ever noticed how the little spot of decay or rot in wood and fruit will keep spreading until it has devoured all that is good! Surely when we realize that the germ of deterioration is eating away our mental abilities.—Our future hopes.—Yes our whole outlook on life becomes deplorable and discouraging and we become the victim of despair. What is the result?—We become outcasts from the society of educated and clean living people; friends get disgusted with us.—Our conversation is so rotten and shallow that we are not fit to associate with human beings! A dogs love for his master is far superior to such a life. Show me the man or woman who keeps eliminating the unnecessary chaff of their life as soon as they discover it and I will show you a person who is on the right road to a life of active power and success. A life that will leave a memory of true love.—Their names will go down through history as people who lived to make this world better.

If we were to turn loose on our government what a lot of chaff and junk we would dig out and throw away but before we can do that we had better throw away some of our own junk.—Clean up our own house first then we will have the right authority to turn loose on others.

The Record office has been trying to clean house ever since its re-opening but the great trouble is to find the bottom. We aim to build a good solid foundation that will stand all future storms. We just got nicely started to build when some one will come in with some trouble that happened in the past so we have to dig down a little deeper to find the bottom. Some people come in and say they do not want the Record any more! What is the matter? Are the Editorials too strong for the weak minds? That is the kind of

News of the Countryside
From The Record's Correspondents

SELKIRK

Mr. David Keen and daughter Annie, of Hagersville, and Mr. and Mrs. Amos Porter, of Wolpole, were visitors at O. J. Beams.

Miss Marion and Dorothy Hoover are spending a week in Toronto.

Mrs. J. D. Hoover returned from a few days visit with her sister Mrs. John Effinger, of Buffalo.

Mr. and Mrs. A. E. Hoover visited relatives in New Dundee.

Mr. and Mrs. W. T. McFarlane and family spent Sunday in Burlington. Mrs. McFarlane remained with her mother, who met with an accident last week.

Mrs. Eckhardt returned to her home on Saturday after spending the winter with her daughter in Niagara Falls and Brantford.

J. Hilborn, of Preston, visited here during the week.

Floyd Miller, of Tonawanda spent the week-end at his home here.

We have another very sad and sudden passing out to record, that of William Wardell, on Sunday night after a few hours illness. Although not in robust health for a few years he was back and forth to his farm on the lake shore near Woodlawn Park, and was around as usual until Sunday afternoon, when he was taken violently ill. Mr. Wardell was in his 71st year and leaves a sorrowing wife and one daughter, Mrs. John Winger with whom they made their home.

A meeting of the W. I. members is to be held at the home of the President, Miss Edith Smelser, on Friday evening. Important business calls for a good attendance.

Mrs. B. Mitchell returned from a visit to Hamilton.

Mrs. Eastbury was quite married on Friday May 9th, to Alfred Francis, of the Hydro Commission, Toronto.

The Hasenpfer Club held a most enjoyable closing night of the seasons sociable gatherings in the Odd Fellows rooms. There were many invited guests and the prizes were won by Miss Dorothy Hoover and Mr. Chas. Ross.

Several places in town are looking much clearer since the truck loads of rubbish have been carted out of town by the management of the W. Institute. Every place in town from the Cemetery to the Amusement Hall, show the effects of a live working Institute. Much praise and thanks is due their organization. Boost it don't knock it.

Mr. Elliott Hare, of Hamilton, and D'Orsey Hare and family, of Dunnville, spent Sunday with their parents Mr. and Mrs. Henry Hare.

Mrs. Chris Hoover, of Toronto, is spending a few weeks with her nephew E. G. Hoover.

The young people of the Disciple Church are putting on their play in Wainfleet this week. It is to be repeated here in the near future.

Mr. Nelson Evans and wife, of Ottawa, are spending a week with his parents Rev. H. M. and Mrs. Evans. Mr. Evans is a little improved in health, but not able to be out.

There was hardly a private driveway in town that didn't contain from one to three visiting autos over Mothers' Day.

THE EVANGELICAL LADIES AID

The Evangelical Ladies Aid of Selkirk, met at the home of Mrs. J. Schwyer, on Thursday evening. There were 20 ladies present. This being the last meeting our President Mrs. Grenzabach could be with us. Vice Pres. Mrs. Schwyer took charge of part of the meeting. After the business a farewell address was read.

elimination some people are doing. Well we can thank God there is only a few like that so we can only feel sorry for them and hope in the near future they will be strong enough to read a good instructive Editorial.

However we might tell our side of elimination. We had to take our mailing list last week and eliminate all those who refused to take note of our request to pay up their subscription for arrears also this year in advance. So if you are not getting your Record their is a reason, elimination of the careless ones. We want real wide awake subscribers who appreciate the best. We received a phone call the other day from some one who wished to compliment the Record as being the best paper they have seen printed in this office for twenty years. I wish to thank these people who send in compliments, it all helps to carry on with our song, "Happy Days are here again."

By Mrs. W. O. Lint.

Dear Mrs. Grenzabach, In behalf of the Ladies Aid we have called this meeting to-night, to express our appreciation of your valued services in this particular branch of your work in our community. It is to you that we owe a debt of gratitude for your faithful and persevering efforts in our midst. As President of the Ladies Aid you have been a capable and efficient leader. We do not know of all the hours you have put in at our disposal and will never realize quite fully the extent of the planning and promoting you have done in carrying on the work of the Aid. While we may not have shown all the appreciation that was due you we never-the-less have appreciated it and as a slight token of that we ask you to accept these gifts hoping they may find a place in your home and be a reminder of your friends here. Our best wishes for your success in the new field, go with you and we trust that the giver of every good and perfect gift may abundantly bless you, to the end of life.

Signed in behalf of the Ladies Aid.

Mrs. Alice Schwyer
Lennie Cronk
Mrs. O. H. Lint
Mrs. Wm. Messner presented the gifts:—A Luncheon cloth and a Pyrex dish. A dainty lunch was served and an enjoyable half hour in social chat.

ROCKFORD

Mother's Day was very fittingly observed in our Services on Sunday. A large congregation listened with intense interest to Rev. Trueblood's splendid sermon on "The Dreams our Mother's dreamed for us." He paid many tributes to our Mothers, who do so many things for us, expecting little appreciation and too often receiving none. He said three fourths of a mothers joy is sorrow, caused by unthinking, careless, pleasure seeking children. What a world of sorrow would be saved our Mothers if before we acted, we thought of and gave some consideration to the wishes and dreams they have for us.

The regular meeting of the Mission Band will be held next Sunday after Sunday School.

A number of the Villa Nova and Townsend Centre L. T. Legions met with the members of our local branch in the church on Saturday afternoon. A good program followed by games and lunch comprised an enjoyable afternoon's entertainment.

The W. M. S. of this church, together with the W. M. S. of Salem, will meet on Thursday afternoon at the home of Miss Marjorie Smith.

Miss Ethel Burch, of Toronto, spent the week-end with her grandparents, Mr. and Mrs. Thos. Smiles.

Miss Fanny Edwards spent Sunday as the guest of Miss Marjorie Smith.

Mr. and Mrs. Chas. Campbell, of Hagersville, and Mr. Alvy and Miss Ida Irwin, of Waterford, spent Sunday afternoon with Mr. and Mrs. Ralph Kenny.

Mrs. W. E. Hambly visited her mother, Mrs. Gage at Bloomsburg on Sunday.

Mr. and Mrs. Len Herron and family drove through the Blossom district on Sunday.

Mr. and Mrs. Mack McVicar and Jake and Mr. and Mrs. Lloyd McVicar of Windham Centre, spent Sunday with Mr. and Mrs. Wm. Lerner.

Mr. and Mrs. Wm. Stringer and sons, of Hamilton, called on friends here on Sunday.

Mr. and Mrs. J. Martin and son, also Mr. and Mrs. Hugh Johnson, of Binbrook, attended service on Sunday evening and listened to their old pastor, Rev. Truthblood.

Mr. Nathan Miller underwent an operation in the hospital recently. We hope her condition will continue to improve.

VARENCY W. I. MEETING

Varency W. I. ladies are invited to Nanticoke for the summer meeting, to be held at the home of Mrs. Geo. Vokes, on May 28th, at 2:30 p. m. Miss E. M. Collins, of Ancaster will be the Departmental Speaker. All the ladies are urgently requested to be present.

MAN CAN'T SLEEP, GETS NERVOUS, HATES PEOPLE

"I could not sleep and got so nervous I hated everybody. Since taking Vinol, I can sleep 10 hours and feel full of pep all day."—Julius Bender.

For 30 years doctors have prescribed Vinol because it contains important mineral elements of iron, calcium and cod liver peptone. The very FIRST bottle brings sound sleep and a big appetite. Nervous, worn-out people are surprised how QUICK Vinol gives new life and pep! Tastes delicious. J. M. Schreiber, Jarvis.

Creamery Nonoxides

Thorne fainted the other day when he found the office staff had the weight sheets ready for him.

The Manager is thinking seriously of having the office equipment moved out under the shade tree for the benefit of the office staff.

John and Dan J. sure made the rest of coal look like a butter box filled with cinders when they commenced unloading.

Fletcher makes a great deal better time with the truck than Fitz did, which goes to prove he must have done a certain amount of loafing.

Charley is thinking seriously of putting in a more complete equipment for the benefit of those who desire baths, and cold showers during working hours.

If Stoney had been home sick another day, it is doubtful if the wheels would have turned very much longer. If Newt would get his face colored he would certainly make a wonderful crauffeur for his newly painted truck.

Fletcher's delay in getting home from Ingersoll the other day, put several more gray hairs in the Managers head.

By the looks of the stone drive behind the factory, someone must have spilt a bottle of acid, or white mule.

Father Johnson was busy as usual this week, washing the separator in the afternoons.

Owing to Stoney's absence the fore part of the week, Thorne was forced to put in a thirteen hour day, much to his chargin.

If Stew wouldn't look at his watch to see if it was quitting time so often his watch pocket wouldn't be worn out.

One of the big business men of the Village was mistaken for the Crute, Sunday evening last.

MAIN STREET APPLE SAUCE

It looks as if we won't be stuck for a hard ball catcher as Morgan Hewson says he is in real shape to catch anything in his reach this year.

Why listen to Amos and Andy over the radio when you can pay them a personal visit at J. M. Schreiber and John Browns.

Tommy says that Wilfred may know how to cut hair but he has got nothing on him when it comes to cutting a raw steak for a black eye. You had better wear glasses Wilfred.

Our friend Dave and his trusty steed paid a flying visit to Delhi Monday last.

Up the ladder Tommy goes careful not to stub his toes, But when his brush he sought to ply A fright he got at being so high. Then at the top he took a spell And down he came with a cry & yell! They called on Druggist John for aid And so on Tommy he plied his trade.

Found on Main Street one good vest with four pockets and two arm-holes. Alf is very anxious to find the owner. Don't worry Alf just put it in storage till next fall and the owner will likely claim it then.

Official Opening of New Armouries

Invitations have been issued for the At Home and Dance, on Friday, May 16th, by which the new Armouries in Dunnville will be officially opened.

In the afternoon there will be a reception from three to six o'clock, when it is hoped all will come in to inspect the new quarters. There will be an excellent programme, supplied by local and out of town artists. Tea will be served.

The visiting artists are the Favorite 4 Entertainers of London. Commencing at nine in the evening the officers will hold a dance. Various numbers and presentations will be given by the out of town artists during the evening.

The officers are sparing no effort to make this a splendid and colorful event, and it promises to be a day which will be long remembered by the county.

The kiss of the sun for pardon, The song of the birds for mirth, One is nearer God's heart in a garden Than anywhere else on earth!

WESTINGHOUSE DEVELOPES NEW INSTRUMENT

An instrument capable of making revolving objects appear motionless and yet so compact that it may be carried in a suitcase was demonstrated recently, for the first time at Bettis Field, Pittsburgh, Pa. By means of this apparatus, called the strobloglow, propeller quiver and cracks and engine valve action is visible to the naked eye. Because of the importance of having the propeller and engine in perfect condition it is said to be probable that the strobloglow may be made part of an aeroplanes required inspection before flight.

The strobloglow, invented and developed by D. D. Knowles, L. R. Peters and W. E. Bahles of the Research Laboratories of the Westinghouse Electric Company, makes objects appear motionless by means of flickering lights regulated to flash at intervals corresponding to the speed of the moving object.

Because of its compactness it can easily be taken to the moving object which engineers desire to observe.

With it, the amount of slip of a belt moving on a pulley, the vibration of meshed gears in factory machines, and the movement of valves in gasoline engines may be observed. In short, anything that moves may be made to appear motionless.

The difference in revolutions per minute between motors, turbines, discs, or other units, revolving at approximately the same speed can be counted with the strobloglow.

The advantage the strobloglow has over previous instruments is its ability to be used on the job instead of trying to duplicate conditions in the laboratory. The only requirement for its operation is sufficient darkness to render the flickering lights visible on the moving objects.
