DEVELOPING SLOWLY Ottawa, May 29 .- Air mail carried during the first quarter of the year, unding March 31, amounted to 144,-\$96 pounds as compared with 145,378 pounds for the corresponding period of last year.

A large increase in po expected for the second quarter as the prairie air mail service was only inaugurated in March.

During the first three months of his year 958 scheduled trips were completed along with 101 special trips in the Mackenzie river district. There were, in all, 1, 231 scheduled trips of which 148 were partially completed, and 125 cancelled because of weather conditions.

The system of estimating air mail b different in Canada from the Umited States. Air mail in Canada may be carried a part of the way across the continent, then shipped another section by rail before it is again picked up by the planes. The flights are considered as one, while in the United States the poundage is considered twice in such cases.

If your Birthday is within these dates you may find it of interest to know some of your characteristics or that of your friend.

Gemini people display superior skill in the use of their hands. Handicraft appeals to them and the nervous energy of their hands finds expression in transforming the creation of their brains into realities. They have original ideas but can adopt themselves to almost any condition of affairs.

These people are keen in observing defects in any one or any thing and so they develope a very sarcastic and critical mind.

Gemini people are very crafty and schrewed. They are great schemers and plan to put everything to their advantage. They are great admirers of Education and in high mechanies are capable of great attain-
