LARGE PAYMENTS PAID TO VETERANS

Few people in Canada realize the large amount of money which Great Britain spends each year in payment to Imperial War pensioners in this country, according to Sir George Chrystal, K. C. B., who was in Ottawa this week visiting the Canadian headquarters of the British Ministry of Pensions.

Sir George stated that a sum between five and six million dollars was paid out each year by the home government to Imperial pensioners and their dependents residents in the Dominion. Canada is the only part of the Empire which has a headquarters for payment and this was rendered necessary by the large amount of pensioners.

Some idea of the colossal burden the Motherland is bearing in connection with the post-war care of its veterans can be gauged by the fact that the sum of more than \$4,500,000,000 has been spent in war pensions since the Armistice. This sum exceeds the whole pre-war national debt of Great Britain. The present expenditure is approximately fifty-three million pounds a year or slightly over a million pounds a week.

There are in Canada and the United States about 1,200 war pensioners who are paid from Ottawa while the total number in receipt of pensions in England and abroad, including dependents, is in excess of 1,250,000. The annual bill for pensions had dropped from \$550,000,000 in 1923 to \$225,000,000 at the present time. The cost of operations for the Pensions Ministry is only two per cent of the total expenditure.

One of the big phases of the work in the Motherland is the care of disabled and sick veterans in the great hospitals owned by the ministry and in general hospitals. Every class of injury and affliction has been obtained in orthopedic surgery and in the treatment of mental cases. Hundreds of plastic surgery cases which entailed horrible disfigurement had been successfully treated and men who before had never dared to go abroad were now gainfully employed in congenial occupations.

PLOWMEN ARRANGE CLASSES

Further arrangements for the Plowing Match to be held on the farm of Peter E. Reicheld, one mile north of Fisherville, on Thursday October 30, 1930, were made at a meeting of the directors of the Haldimand County Plowmen's Association held at the Court House last week.

The prize list was revised and improved with the addition of one new jointer class in sod. One other rather important addition is the fact that skimmers are being asked for in the tractor classes and any width of share may be used in the jointer classes. The list of prizes finally agreed upon is as follows:-

Class 1. High Cut in Sod. Open to those who have never won first prize in this class prior to 1930. The winner to have an opportunity to protect cup in 1931.

Class 2. Plain Plow in Sod; no attachments allowed; Open to Haldimand County only.

Canada Vitrally Concerned In Empire Economic Conference

The most important economic conference in the history of the British Empire is scheduled to take place in London during October and November.

The exact date of its commencement will be announced as soon as Premier Bennett can indicate with some certainty the time of concluding the special session of the Canadian House.

An important, if not complete revision of the attitude of the United Kingdom towards tariffs is embodied in the proposals to be laid before the conference and the success or failure in securing acceptance of these proposals lies, by common consent, mainly in the ability of Canada's new prime minister to sell his idea to the people of the Mother country.

Success, or failure, in the endeavor is of the first importance to Canada and to other sections of the Empire, as well as to Britain. Success means that through the working out of a system of mutually beneficial preferences, the British market for wheat and dairy and food products will be retained for Empire products, while overseas dominions will give to British manufacturers their markets for such goods as must be imported.

A century-old aversion in Britain to protective tariffs—particularly on foodstuffs—is the barrier which Mr. Bennett must break down to achieve his objective. There are indications that economic conditions are working in his interest; that the feeling is growing, that cheap food is dear, if there is no money to buy it.

Canada's offer is the promise to open the Canadian market to British industry—in non-competitive fields, on a basis which will stimulate industrial prosperity there, in return for preferential treatment by Britain for Canada's grain and other agricultural products.

The effort to sell the idea to the Britisher will be followed with the keenest interest by the farming population of the Dominion. Unless it succeeds the Canadian farmer will, within a very few years, be subjected to much more pressing competition from the 28-cent-per-day labor of Soviet Russia, where scientific farming methods are only now making their influence felt in production and where an area greater than that available in Canada awaits the plow.

Information reaching Canada indicates that Mr. Bennett's task is not as hopeless as it might have been even a year ago. Free trade in Britain has always boasted kindred advocates in labor and, strangely enough, in the great financial interests. President Tom Moore of the Canadian Trades and Labor Congress recently returned from Europe to announce that in Britain he found among labor a decided trend in favor of protection.

Almost simultaneously a conference of the foremost British bankers went on record as to the futility of Britain sticking to free trade while the rest of the world piled up tariff barriers. Those influences may provide an opening for the thin edge of the Bennett wedge. In any event the conference is fraught with the greatest significance to agricultural Canada.

Re-Opening United Church

For the past month Wesley United Church has been in the hands of the decorators. Services were held in the S.S. Room, but last Sunday they held their re-opening services, Rev. P. E. Deeth, having charge of the services. The special speaker for the morning service was Rev. S. K. Bradshaw, Simcoe, and for the evening, Rev. S. E. Trumble, Hamilton. These men are both very outstanding speakers and their messages last Sunday were very inspiring and helpful as well as being very appropriate for the occasion. The choir, under the leadership of Miss Meta McMurchy, rendered special selections at both services.

The weather for the day being in keeping with such a special occasion there were large congregations at both services, which proved very satisfying and pleasing to the officials of the church.

St. Johns A. F. & A. M. Lodge Enroute Toronto

H. W. McKey, Master of St. Johns Lodge, No. 28, A. F. and A. M., and his degree staff of Hannibal, Miss. passed through Jarvis, Ontario, today, enroute to Hamilton to confer the Third degree for Acacia Lodge, A. F. and A. M., No. 61. The Missouri Masons occupied a special sleeper attached to a Wabash train.

This is the first time that a Masonic lodge from the Mississippi Valley has been invited so far east to confer the degrees.

St. John's Lodge has conferred degrees in many cities and towns throughout Iowa, Illinois and Missouri and has taken part in many tri-state meets. The trip which is now being made is the direct result of a tri-state meet, held in Springfield, Illinois, last year, in which the degree staff from the boyhood home of the world's famous philosopher and humorist, Mark Twain, exemplified the Missouri work. The degree staff from the fourth industrial city of Missouri is practically the same that represented the "Show Me" State at the Springfield meeting.
