World's Grain Exhibition

Visitors to Saskatchewan fairs this year have been kept well informed on matters relating to the World's Grain Exhibition and Conference to be held at Regina in 1932. A portion of the space used by the provincial department of agriculture has been used by the provincial committee working in co-operation with the field crops branch for this purpose. An immense three section screen upon which facts relating to the 1932 event were set out in attractive lettering formed a pleasing and effective background to displays of sample grains. The whole arrangement attracted a great deal of attention from fair visitors whose inquiries were courteously answered and to whom prize lists were distributed.

CREAMERY MONOXIDE

Since Johnson has charge of the porch during Thorne's absence, he has been making Stoney, his under-study do some tall stepping.

Owing to the fact that Thorne was packed and shipped to Hamilton Hospital on Friday last to have his tonsils removed, Stoney and Johnson have been getting a taste of some real work.

Since a number of the boys were not at work on account of sickness last Tuesday morning, Muriel very kindly consented to do Laird's work while he relieved out in the plant.

The staff were all very sorry to learn that Bert had to be rushed to the hospital to undergo a very serious operation last week.

Leota reports that she had a very pleasant visit with some friends in Selkirk on Monday morning.

Fitz says he doesn't mind helping anyone, but he would much rather help those who help themselves, when after all his hard work Stewie said he makes a poor painter.

There is a possibility that the Post office Department will make it compulsory to place a return address on letters and parcels sent through the mail. If this order is carried out it will mean a saving in the neighborhood of \$500,000 annually to the government.

And Now—The Quebec Festival!

Habitant artists, born and bred on the soil of the Province of Quebec, and celebrated artists from cosmopolitan centres of culture will rival one another in recovering the spirit of old France and old New France at the Quebec Festival of French-Canadian Folk-Songs and Handicrafts, which, the Canadian Pacific Railway announce, will be held at the Chateau Frontenac.

Among the many delicacies which will be served at this annual banquet of French and French-Canadian culture, will be two ballad operas, "A French-Canadian Wedding" and "The Order of Good Cheer," the first depicting a joyous country ceremony of a hundred years ago, and the second being a page from the history of Champlain's first

settlement at Port Royal in Acadia, in the early years of the seventeenth century. The charming folk-songs of old Quebec, of the "voyageurs" and the "coureurs du bois" of the backwoods, will be sung by the famous Bytown Troubadours; groups of Quebec and Montreal children will perform traditional country dances of old French provinces and of Quebec; and a hundred other entertainments of a varied and delightful nature will be provided by noted artists of the Gallic race from Canada and other countries as well during the three days of the Festival; while there will be constant exhibitions of handicraft work with spinning-wheel and loom by Quebec women, whose tapestries and clothes are famous and sought for all the world over.
