A BRIGHT & PROSPEROUS NEW YEAR TO OUR READERS

医哈哈哈哈哈哈哈

Today brings to a close another year and 1931 has passed into history, and with it a year of many perplexities, a year when the governments of all nations have been faced with many acute problems. When individuals have had to face problems hitherto unknown. When the wheels of industry have been forced to remain idle. When commerce and transportation have been engaging the most brilliant minds in our land. When agricultural pursuits have ceased to pay for the cost of production. Each in turn have had a more or less serious time in an honest effort to maintain the standard of living which had been attained through a period of easy money. But it is easily apparent at the present time that the people have come to realize the necessity for curtailment. In this instance it is the unanimous voice of all, that the foundation of this curtailment must begin with the individual and proceed onward through our various systems of government, municipal, provincial and federal. In times of prosperity people become boisterous in their demands, but in times of adversity they become quite brave in placing the blame, and often openly censuring those who have devoted much time and energy to the public service. While then, we have brought about our present condition through many years of inflated prosperity, let us join together in the coming year, the tradesman and the agriculturist, the mechanic and industrialist, the artisan and the laborer, each with a determination to do their part in the bettering of conditions for 1932, try and study the other fellow's condition as well as your own, and you will become more contented with your lot in life, and resolve, that with that grim determination of your forefathers, who laid the foundation of success in this great Canada of ours, taking another reef in the sail of progress for a short time, we will finally emerge successful. as all true Britishers have done in ages past, and with abiding faith and confidence in the integrity and sincerity of our people we will arise in a short time from this slough of despondency to a brighter and better Canada than has been
