The outlook is impres notes outlining the plan of work the sive at the site of her dainty little has an exertaken in the Adelaide bills home. The mountain air is a delight, so that representative organizations particularly in the days of winter sumight consider the launching of similar schemes to provide employment the high hills that look down on the for workless girls. Mrs. Leal is so im-

pressed with the idea that she will urge the executive to draw up a plan which may be put into operation.

Mre. Vaughan has always been an enterprising leader in women's move-cand in leating a stream that tinkled Alre. Vaughan has always been an enterprising leader in women's movements. During the years of the war she conducted a training center for land gurls near Monmouthshire, and war descrated by the King. His Majesty sent her a letter expressing appreciation of the capable manner in which she had served the country, stating the had carried out work of the product of the product of the capable manner in which she had served the country, stating the had carried out work of the product of

which she had served the country, stating she had carried out work of equal importance with any performed by mea, equal to any on land or sea. It was a high tribute to her camp for training women for the land.

When Mrs. Vaughan returned to South Australia she managed an orange grove with the assistance of her daughters. The girls re all grown up now, but Mrs. Vaughan has still her love for outdoor life and, as she puts it, "working with my hands in the garden." Her brother, James McGarvie, has taken up land in the fertile and beautiful Aldgate Valley,

Any girl who sees what is being for potatoes."

Mrs. Vaughan is proceeding with mest systematic lines and there are even truckes of artistry which only a woman can give to prosaic tasks such as vegetable growing and the management of poultry. Echo Point is the name of the little estate. The valley reverberates with the masic of the birds and 'be calls of cattle and at dawn and dusk there are the impetious and persistent exchanges of raucous compliments between neighboring poultry yards.

Any girl who sees what is being All green in tone, tables and small fruits.

"Later I may add pigs to the list," long to emulate Mrs. Vaughan's coursile said the other day, chatting over her new plans.

"In heat you calmly harbored birds Among your leaves."

Among your leaves.

You shaded autumn harvesters while cutting sheaves.
